the Class of
1925

Volume XLIX

To

Walter Raleigh Okeson

Devoted Alumnus of Lehigh

This volume of the Epitome is
respectfully dedicated

*Where the Lehigh's rocky rapids rush from out the West,
'Mid a grove of spreading chestnuts, walls in ivy dresst,
On the breast of old South Mountain, reared against the sky,
Stands our noble Alma Mater, stands our dear Lehigh.*

*Like a watchman on the mountain, stands she grandly bold,
Earth and Heaven's secrets seeking, hoarding them like gold.
All she wrests from Nature's storehouse, naught escapes her eye
Gives she gladly to her dear sons, while we bless Lehigh.*

*We will ever live to love her, live to praise her name,
Live to make our lives add lustre to her glorious fame.
Let the glad news wake the echoes, joyfully we cry,
Hail to thee, our Alma Mater. Hail, all Hail, Lehigh!*

COMMITTEES OF THE FACULTY

Admission

DEAN McCONN, PROFESSORS: Hughes, Thornburg, Palmer,
Fox, Thayer, Babasinian, Reynolds

Athletics

PROFESSORS: Reiter, Eckfeldt, Patch

Discipline

DEAN McCONN, PROFESSORS: Babasinian, Luch, Ogburn;
PROFESSOR Larkin, alternate

Honorary Degrees

PRESIDENT Richards, PROFESSORS: Palmer, Stewart, Eck-
feldt, Esty, Miller, Butterfield

Standing of Students

DEAN McCONN, PROFESSORS: Palmer, Stewart, Ullman,
Fogg, Esty, Larkin, Stoughton, Eckfeldt,
Chapman, MacNutt

Student Activities

DEAN McCONN, PROFESSORS: Schealer, Eckfeldt, Fraim,
Larkin, Diefenderfer

Lecturers

EDWARD HIGGINSON WILLIAMS, JR., B.A., E.M., A.C., Sc.D., LL.D.,
Woodstock, Vt.
Lecturer on Mining and Geology

B.S., Yale University, '72; E.M., '76; A.C., '76; LL.D., '13, Lehigh University;
Sc.D., University of Vermont, '12; Fellow of the American Association for the
Advancement of Science; Fellow of the Geographical Society of America;
Member: American Philosophical Society, American Institute of Mining Engi-
neers; Honorary Member of Phi Beta Kappa; One of the Founders of Tau
Beta Pi; Professor of Mining Engineering and Geology, '81-'02; Lecturer on
Mining and Geology, '02; Psi Upsilon.

HARRY FREDERICK HOFFMAN, M.D., State Hospital for Insane,
Allentown, Pa.
Lecturer on Psychiatry

STEWART U. MITMAN, PH. D. Deceased
Lecturer on Hebrew

RAYMOND COOLEY BULL, B.S., B.A., M.D.
Lecturer on Hygiene and Physiology

CHARLES RUSS RICHARDS, B.M.E., M.E., M.M.E., D. Eng.

President of the University

University Park

Born March 23, 1871, at Clarkshill, Indiana; Bachelor of Mechanical Engineering, 1890; Mechanical Engineer, 1891, Purdue University; Master Mechanical Engineering, 1895, Cornell University; Doctor of Engineering, 1920, University of Nebraska; Instructor Mechanical Engineering, 1891-2, Colorado Agricultural College; Adjunct Professor of Manual Training, 1892-4, Professor Practical Mechanics 1894-8, Professor Mechanical Engineering 1898-1911, Associate Dean of Industrial College 1907, Dean of College of Engineering 1909-11, University of Nebraska; Professor of Mechanical Engineering 1911-20, Acting Dean College of Engineering 1913-15, Dean of College of Engineering 1917-22, University of Illinois; President of Lehigh University 1922—. Consulting Engineer American Society of Mechanical Engineers; Western Society of Engineers; Society for Promotion of Engineering Education. Sigma Xi; Sigma Tau; Tau Beta Pi; Sigma Chi.

HENRY STURGIS DRINKER, E.M., LL.D.
President Emeritus of the University
 Merion Station, Pa.

E.M., Lehigh University, '71; LL. D., Lafayette College, '05; Franklin and Marshall College, '10; University of Pennsylvania, '11; Princeton University, '18; Moravian College, '22; Lehigh University, '22.

Secretary of the Alumni Association, '76, and President, '79; Alumni Trustee, '77-'79; '89-'95; elected member of Board of Trustees, '93, and held office as Trustee until '05; elected President of Lehigh University, June 14, 1905, installed October 12, 1905, retired December 31, 1920.

Admitted to the bar of Pennsylvania, '77; Pennsylvania Supreme Court, '80; Courts of New York State, '99. General Solicitor for the Lehigh Valley Railroad, '85-'05.

Published: "Treatise on Tunnelling, Explosive Compounds, and Rock Drills," '78; "Treatise on Explosive Compounds and Rock Drills," '82; an enlarged edition of Ball's "Railroad and Telegraph Laws of Pennsylvania," '84. Author of various papers read before the American Institute of Mining Engineers.

Past Manager and now Honorary Member of the American Institute of Mining Engineers, and one of the founders of the Institute in 1871. Member, Society for the Promotion of Engineering Education; American Association for the Advancement of Science; Historical Society of Pennsylvania; Honorary member of Tau Beta Pi. President of the American Forestry Association, '12-'15, and member of the Executive Committee, '15-'19. President of the Pennsylvania Forestry Association; member, Pennsylvania State Forest Commission. Vice-President and Member of the Executive Committee of the National Conservation Congress, President of the Society of the National Reserve Corps of the United States, '13-'14, '14-'15; Chairman of the Governing Committee of the Military Training Camps Association of the United States, '15-'19, and now Honorary President; Secretary of the Advisory Board of University Presidents on Summer Military Instruction Camps. Member of the Executive Committee of the League to Enforce Peace and Chairman of the Pennsylvania Branch. President of the Association of College Presidents of Pennsylvania, 1917. Member of Pennsylvania State Board for Registration of Engineers and of Land Surveyors, Club, Philadelphia; Engineers' Club, Philadelphia. Director of Lehigh Valley Railroad Company.

NATT MORRILL EMERY, M.A., Litt.D.

Vice-President and Comptroller

41 East Market Street

A.B., Dartmouth College, '95; M.A., Lehigh University, '99; Litt.D., Ursinus College, '16; Instructor, Tilton Seminary, Tilton, New Hampshire, '95-'96; Assistant in English, '96-'97; Instructor in English, '97-'02; Registrar, '99-'12; Assistant to the President, '07-'10; Vice-President, '10—; in executive charge Jan. 1, 1921-Sept. 1, 1922; Phi Beta Kappa; Phi Gamma Delta.

CHARLES MAXWELL MCCONN, A.M.

Dean of the University

1425 Lenox Avenue

A.B., University of Minnesota, '03; A.M., University of Minnesota, '04; Instructor of English, Academy of the University of Illinois, '04-'06; Principal of the Academy of the University of Illinois, '06-'10; Registrar, University of Illinois, '10-'20; Secretary of the Board of Trustees, '10-'14; Assistant to the President, '20-'21 and '22-'23; Graduate Student at Harvard University, '21-'22; Dean of Lehigh University, '23—; Sigma Alpha Epsilon.

CHARLES LEWIS THORNBURG, C.E., Ph.D.

*Professor of Mathematics and Astronomy and
Head of the Department of Mathematics*

238 East Market Street

Graduate of Marshall College, Huntington, W. Va., '76; B.S., '81, B.E., '82, C.E., '83, Ph.D., '84, Vanderbilt University; Fellow in Mathematics, '81-'82; Graduate Fellow, '82-'84; Instructor in Engineering Department, '84-'86; Assistant Professor of Engineering and Astronomy, '86-'95, Vanderbilt University; Professor of Mathematics and Astronomy, '95—; Secretary of the Faculty, '99-'00, '01-'22.

WILLIAM CLEVELAND THAYER, M.A., L.H.D.
Professor of the English Language and Literature
 30 West Market Street

B.A., '76, Columbia University; M.A., '84, Williams College; L.H.D., '00, Hobart College; Student, University of Gottingen, '79-'81; Graduate Student, Johns Hopkins University; Professor of Mathematics, Hobart College, '82-'84; Private Instructor in Modern Languages, Baltimore, '88-'91; Professor of Modern Languages, Pennsylvania State College, '92-'95; Professor of English, '95—.

JOHN LAMNEY STEWART, A.B., Ph.B.
Professor of Economics and History
 Absent on Leave

A.B., Philadelphia Central High School, '84; Ph.B., University of Pennsylvania, '87; Wharton Fellow in History and Economics, '88; Graduate Student, Department of Philosophy, University of Pennsylvania, '83-'91; Assistant Professor of English, Philadelphia Central Manual Training School, '90-'92; Professor of History and Economics, Philadelphia Northeast Manual Training School, '92-'98; Lecturer on History and Economics, '97-'98; Professor of History and Economics, '98—; Director of the Library, '06—; Phi Beta Kappa; Tau Beta Pi.

CHARLES JACQUES GOODWIN, A.M., Ph.D.
Professor of the Greek Language and Literature
 18 East Church Street

A.B., '87, A.M., '90, Bowdoin College; Ph.D., Johns Hopkins University, '90; Student, University of Berlin, '96; Professor of Greek, Cornell College, Iowa, '90-'92; Professor of Greek, Saint Stephen's College, '98-'99; Professor of Greek, '99—; Phi Beta Kappa; Alpha Delta Phi.

WILLIAM ESTY, S.B., M.A.
Professor of Electrical Engineering
 42 West Market Street

B.A., '89, M.A., '93, Amherst College; S.B., Massachusetts Institute of Technology, '93; Instructor in Electrical Engineering, '93-'95; Assistant Professor of Electrical Engineering, '95-'98; Associate Professor of Electrical Engineering, '98-'01, University of Illinois; Assistant Professor of Electrical Engineering, '03—; Tau Beta Pi; Psi Upsilon.

HOWARD ECKFELDT, B.S., E.M.
Professor of Mining Engineering
 438 Seneca Street

B.S., '95, E.M., '96, Lehigh University; Instructor in Mining Engineering, '00-'02; Professor of Mining Engineering, '04—; Tau Beta Pi; Alpha Tau Omega.

PRESTON ALBERT LAMBERT, B.A., M.A.
Professor of Mathematics
 323 North Center Street

B.A., '83, M.A., '91, Lehigh University; Graduate Student in Germany, '93-'94; Instructor in Mathematics, '84-'92, '93-'97; Assistant Professor of Mathematics, '97-'06; Professor of Mathematics, '06—; Secretary of the Faculty, '00-'01; Director of the Conference Department, '08—; Phi Beta Kappa; Psi Upsilon.

PHILIP MASON PALMER, A.B.

*Professor of German and Head of the Department
of the Course in Arts and Science*

University Park

A.B., Bowdoin College; A.B., Harvard University; Instructor in Modern Languages, '02-'05; Assistant Professor of Modern Languages, '05-'06; Professor of Modern Languages, '06-'10; Professor of German, '10—; Phi Beta Kappa; Theta Delta Chi.

BENJAMIN LEROY MILLER, A.B., Ph.D.

Professor of Geology

University Park

A.B., University of Kansas, '97; Ph.D., Johns Hopkins University, '03; Professor of Biology and Chemistry, Penn College, '97-'00; Associate in Geology, Bryn Mawr College, '03-'07; Assistant Geologist, U. S. Geological Survey, '07-'13; Professor of Geology, '97—; Tau Beta Pi; Sigma Xi.

WINTER LINCOLN WILSON, C.E., M.S.

Professor of Railroad Engineering

1118 West Market Street

C.E., '88, M.S., '01, Lehigh University; Assistant Professor of Civil Engineering, Tulane University, '01-'04; Assistant Professor of Civil Engineering, '04-'07; Professor of Railroad Engineering, '07—; Tau Beta Pi.

ROBERT WILLIAM HALL, A.M., Ph.D.
Professor of Biology and Lecturer on Forestry
 On leave of absence

Ph.B., Yale, '95; A.B., '97, A.M., '98, Ph.D., '01, Harvard University; Instructor in Biology, Yale University, '99-'02; Instructor in Zoology and Biology, '02-'04; Assistant Professor of Biology, '04-'09; Professor of Biology, '09—, Lehigh University; Lecturer on Forestry; Sigma Xi.

PERCY HUGHES, A.M., Ph.D.
Professor of Philosophy and Education
 819 Tioga Avenue

Teacher's Diploma, Teachers College, New York City, '97; A.B., Alfred University, '99; A.M., '02, Ph.D., '04, Columbia University; Teacher and Principal, Secondary Schools, '96-'01; Instructor in Philosophy, Alfred University, '98-'99; Assistant in Philosophy, Columbia University, '03-'05; Instructor in Philosophy and Psychology, University of Minnesota, '05-'06; Acting Professor of Philosophy and Director of Extension Courses for Teachers, Tulane University, '06-'07; Assistant Professor of Philosophy, Psychology and Education, '07-'09; Professor of Philosophy and Education, '09—.

CHARLES SHATTUCK FOX, A.B., LL.B., A.M., Ph.D.
Professor of Romance Languages and Lecturer
on Economic Geography

445 High Street

A.B., University of Rochester, '91; LL.B., Union University, '93; A.M., '03, Ph.D., '07, Harvard University; Student University of Gottingen, '97; Graduate Student, University of Chicago, '98-'99; Student, University of Berlin, '99-'00; Graduate Student, Harvard University, '03-'05; Admitted to Bar, State of New York, '93; Instructor in Modern Languages, '05-'08; Assistant Professor of Modern Languages, '08-'09; Assistant Professor of Romance Languages, '09-'10; Professor of Romance Languages, '10—; Psi Upsilon.

HOWARD ROLAND REITER, M.A.
Professor of Physical Education
 University Park

B.A., '98, M.A., '00, Princeton University; Graduate of Summer School of Physical Education, Harvard University, '10; Football Coach for the Philadelphia Athletics, '02; Athletic Coach, '03-'05; Director of Athletics, '05-'11, Wesleyan; Professor of Physical Education, '11—.

HARRY M. ULLMAN, A.B., Ph.D.
Professor of Chemistry and Head of the
Department

20 West Church Street

A.B., '89, Ph.D., '92, Johns Hopkins University; Instructor in Chemistry, '94-'04; Assistant Professor of Quantitative and Industrial Analysis, '04-'10; Associate Professor of Chemistry, '10-'12; Professor of Chemistry, '12—; Tau Beta Pi; Theta Delta Chi.

JOHN HUTCHESON OGBURN, C.E.
Professor of Mathematics and Astronomy
 625 North Center Street

C.E., Vanderbilt University, '92; Fellow in Engineering, Vanderbilt University, '92-'93; Assistant Astronomer, Dudley Observatory, '93-'95; Instructor in Mathematics and Astronomy, '95-'06; Assistant Professor of Mathematics and Astronomy, '06-'10; Associate Professor of Mathematics and Astronomy, '10-'12; Professor of Mathematics and Astronomy, '12—; Beta Theta Pi.

BARRY MACNUTT, E.E., M.S.

Professor of Physics

928 Ostrum Street •

E.E., '97, M.S., Lehigh University; Instructor in Electrical Engineering, '99-'01; Instructor in Physics, '01-'06; Assistant Professor of Physics, '06-'09; Associate Professor of Physics, '09-'15; Professor of Physics, '15—; Beta Theta Pi.

ARTHUR WARNER KLEIN, M.E.

Professor of Mechanical Engineering

43 Wall Street

M.E., Lehigh University, '99; Engineer with United Gas Improvement Company, Newark, '00; Atlanta, '01-'03; Professor of Engineering, Grove City College, '03-'04; Instructor in Mechanical Engineering, '04-'08; Assistant Professor of Mechanical Engineering, '08-'10; Associate Professor of Mechanical Engineering, '10-'15; Professor of Mechanical Engineering, '15—; Tau Beta Pi.

RALPH JUSTIN FOGG, B.S.

Professor of Civil Engineering and Head of the Department

1024 West Market Street

B. S., Tufts College, '06; Instructor in Civil Engineering, '08-'11; Assistant Professor of Civil Engineering, '11-'14; Associate Professor of Civil Engineering, '15-'19; Professor of Civil Engineering, '19—; Tau Beta Pi; American Society of Civil Engineers; American Concrete Institute; American Society for Testing Materials; Society of Terminal Engineers; Delta Tau Delta.

FRED VIAL LARKIN, B.S., M.E.

*Professor of Mechanical Engineering and Head
of the Department
135 Wall Street*

B.S., '06; M. E., '15, University of Wisconsin. Member American Society of Mechanical Engineers, American Society for Steel Treating, American Society for Testing Materials, Society for the Promotion of Engineering Education. The Telluride Power Company, Telluride, Colorado, '06-'09; Empire Engineering Corporation, New York, '09-'11; Terry & Tench Company, Incorporated, New York, '11-'12; Instructor in Mechanical Engineering, '12-'13; Assistant Professor, '13-'15; Absent on Leave, '15-'16; Assistant General Superintendent, The Harrisburg Pipe and Pipe Bending Company, Harrisburg, Pennsylvania, '15-'19; Professor of Mechanical Engineering, '19—.

MYRON JACOB LUCH, M.A., Ph.D.

*Professor of Rhetoric and Oratory
737 Seventh Avenue*

B.A., '02, M.A., '03, Lehigh University; Ph.D., Tulane University, '07; Teaching Fellow and Assistant in Greek, Tulane University, '05-'07; Student at Leipzig and Berlin Universities, '10-'12; Assistant in English, '04-'05; Instructor in English, '04-'05; Assistant Professor of English, '07-'19; Professor of English, '19—; Phi Beta Kappa.

LAWRENCE B. CHAPMAN, S.B.

*Professor of Naval Architecture
311 East Wall Street*

S.B., Massachusetts Institute of Technology, '10; Assistant in Marine Engineering, Massachusetts Institute of Technology, '10-'11; Assistant Professor Mechanical Engineering, University of Maine, '13-'15; Professor of Naval Architecture, Lehigh University, '19—.

HORACE W. WRIGHT, A.B., Ph.D.

Professor of Latin

416 Main Street

A.B., University of Wisconsin, '08; Ph.D., University of Pennsylvania, '17; Fellow of the American Academy in Rome, '14-'15; Substitute Professor of Latin, University of Missouri, '17-'18; Substitute Professor of Latin, Oberlin College, '18-'19; Associate in Latin, Bryn Mawr College, '19-'21; Acting Professor of Latin, '21-'23; Professor of Latin, '23—.

VAHAN SIMON BABASINIAN, A.M., Ph.D.

Professor of Organic Chemistry

411 Cherokee Street

A.B., Anatolia College, '95; A.M., '03; Ph.D., '06; Brown University; Instructor in Chemistry, '06-'09; Assistant Professor of Chemistry, '09-'11; Associate Professor of Organic Chemistry, '11-'18, '19-'21; Professor of Organic Chemistry, '22—; Research Chemist, American University, Chemical Warfare Service, '18-'19; Tau Beta Pi.

JOSEPH DORST PATCH, Major Inf., U. S. A.

*Professor of Military Science and Tactics and
Head of the Department*

Carnegie Institute of Technology, '09; Entered U. S. Army, '09; Served in United States, Philippine Islands, and France; Commissioned 2nd Lieutenant, '11; 1st Lieutenant, '16; Captain, '17; Major, '20; Associate Professor of Military Science and Tactics, '22-'23; Professor of Military Science and Tactics, '23—.

BRADLEY STOUGHTON, Ph.B., B.S.

*Professor of Metallurgy and Head of the
Department*

Sayre Apartments, 3rd and Wyandotte Streets

Ph.B., Sheffield Scientific School, '93; B.S., Massachusetts Institute of Technology, '96; Instructor in Metallurgy, Massachusetts Institute of Technology, '96-'97; Assistant to H. M. Howe, '97-'98; Metallurgist, Illinois Steel Company, '98-'99; Chief of Cost Statistics, American Steel and Wire Company, '00; Manager Bessemer Department, Benjamin Atha & Company, '01; Consulting Engineer, '02-'07; Instructor, Adjunct Professor, and Acting Head of the Department of Metallurgy, School of Mines, Columbia University, '02-'08; Member of Engineering Committee, National Council of Defense, '18-'19; Consulting Metallurgist, '19-'23; Professor of Metallurgy and Head of the Department, '23—.

NEIL CAROTHERS, B.A., Ph.D.

*Acting Professor of Economics and History and
Head of the Department*

B.A., University of Arkansas, '05; Diploma in Economics, Oxford University, '07; Ph.D., Princeton University, '16; Instructor and Assistant Professor of Economics, University of Arkansas, '07-'14; Fellow, Princeton University, '14-'16; Assistant Professor of Economics and Finance, Princeton University, '16-'20; Commissioned 2nd Lieutenant, 1st Lieutenant, and Captain, U. S. Army, '17-'19; Economist and Financial Adviser, U. S. Department of State, '19; with Guaranty Trust Company of New York, '20-'23; Acting Professor of Economics and History, '23—; Kappa Sigma.

STANLEY SYLVESTER SEYFERT, E.E., M.S.

Associate Professor of Electrical Engineering

55 West Market Street

E.E., '04, M.S., '09, Lehigh University; Instructor in Electrical Engineering, '04-'08; Assistant Professor of Electrical Engineering, '08-'14; Associate Professor of Electrical Engineering, '14—.

ALPHA ALBERT DIEFENDERFER, A.C., M.S.
Associate Professor of Quantitative Analysis and Assaying

725 West Broad Street

A.C., '02, M.S., '08, Lehigh University; Assistant in Chemistry, '02-'03; Instructor in Chemistry, '03-'12; Assistant Professor of Chemistry, '12-'17; Associate Professor of Quantitative Analysis and Assaying, '17—; Tau Beta Pi.

THOMAS EDWARD BUTTERFIELD, M.E., C.E.

Professor of Heat Power Engineering

1736 West Union Boulevard

M.E., Stevens Institute of Technology, '95; C.E., Rensselaer Polytechnic Institute, '97; Instructor in Mechanical Engineering, '12-'13; Assistant Professor of Mechanical Engineering, '13-'17; Member of the American Society of Mechanical Engineers; Sigma Xi; in Coast Artillery Corps, U. S. A., '17-'19; Major, Coast Artillery, '18-'19; Professor of Heat Power Engineering, '19—.

JOHN H. BICKLEY, B.S.

Associate Professor of Accounting

530 West Union Street

B.S., University of Pennsylvania, '15; Instructor in Accounting, '15-'18; Associate Professor of Accounting, '19—.

GAR A. ROUSH, A.B., M.S.

Associate Professor of Metallurgy

Wydnor, R. F. D. No. 3

A.B., Indiana University, '05; M.S., University of Wisconsin, '10; Assistant Professor of Metallurgy, '12-'19; Absent on Leave, June, 1918-February, 1919; Captain, Ordnance Dept., U. S. A.; Head of Educational Branch, Inspection Division, Ordnance Department; Associate Professor of Metallurgy, '19—.

SAMUEL RAYMOND SCHEALER, E.E., M. S.

Associate Professor of Electrical Engineering

526 West Union Street

E.E., Lehigh University, '09; Instructor in Electrical Engineering, '09-'11, '12-'14; Assistant Professor of Electrical Engineering, '18-'19, '19-'20; Associate Professor in Electrical Engineering, '20—; Tau Beta Pi; Phi Beta Kappa.

JAMES SCOTT LONG, Ch.E., M.S.

Associate Professor of Inorganic Chemistry

R. F. D. No. 1, Coopersburg

Ch.E., Lehigh University, '14; M.S., Lehigh University, '14; Assistant in Chemistry, '14-'15; Instructor in Chemistry, '15-'17; Assistant Professor of Inorganic Chemistry, '17-'19; Associate Professor of Inorganic Chemistry, '20—; Tau Beta Pi; Theta Xi.

DALE S. CHAMBERLAIN, B.Ch.E., M.S.
Associate Professor of Industrial Chemistry
On leave of absence

B.Ch.E., University of Michigan; M.S., Lehigh University, '20; Assistant Professor of Industrial Chemistry, '16-'20; Associate Professor of Industrial Chemistry, '20—.

JOHN EUGENE STOCKER, B.S., M.S.
Associate Professor of Mathematics and Astronomy

537 Center Street

B.S., '95, M.S., '08, Lehigh University; Graduate Student in Mathematics, University of Chicago, '97-'98; Instructor in Mathematics, Western Military Institute, Alton, Ill., '95-'97; Instructor in Mathematics, '03-'08; Assistant Professor of Mathematics and Astronomy, '08-'21; Associate Professor, '21—; Phi Beta Kappa.

JOSEPH BENSON REYNOLDS, B.A., M.A., Ph.D.
Associate Professor of Mathematics and Astronomy

721 West Broad Street

B.A., '07, M.A., '10, Ph.D., '19, Lehigh University; Instructor in Mathematics and Astronomy, '07-'13; Assistant Professor of Mathematics and Astronomy, '13-'21; Associate Professor, '21—; Phi Beta Kappa.

RALPH LINCOLN BARTLETT, S.B.

Associate Professor of Mining Engineering

636 Fifth Avenue

S.B., Massachusetts Institute of Technology, '10; Graduate Student, Lehigh University, '12; Instructor in Mining Department, Massachusetts Institute of Technology, '12-'13; Instructor in Mining Engineering, '14-'17; Assistant Professor of Mining Engineering, '17-'21; Associate Professor, '21—.

SYLVANUS A. BECKER, C.E., M.S.

3 East North Street

C.E., '03, M.S., '09, Lehigh University; Instructor in Civil Engineering, '06-'13; Assistant Professor of Civil Engineering, '13-'22; Associate Professor of Civil Engineering, '23—; Tau Beta Pi; Phi Sigma Kappa.

HOWARD MASSEY FRY, E.E., M.S.

Associate Professor of Physics

726 Avenue H

E.E., Lehigh University, '10; M.S., Lehigh University, '15; Instructor of Physics, '10-'17; Assistant Professor of Physics, '17-'22; Associate Professor of Physics, '23—; Tau Beta Pi; Alpha Tau Omega.

MORTON OTIS FULLER, C.E.

Associate Professor of Civil Engineering

732 Avenue H

C.E., Syracuse University, '10; Instructor, Purdue University, '10-'12; Instructor in Civil Engineering, '12-'17; Assistant Professor of Civil Engineering, '17-'22; Associate Professor of Civil Engineering, '23—.

GEORGE CARLTON BECK, A.C.

Assistant Professor of Quantitative Analysis

628 Prospect Street

A.C., Lehigh University, '03; Assistant in Chemistry, '04-'05; Instructor in Chemistry, '05-'13; Assistant Professor of Quantitative Analysis, '13—; Phi Delta Theta.

ROBERT PATTISON MORE, A.B., A.M.

Assistant Professor of German

1830 Main Street

A.B., Lehigh University, '10; A.M., Harvard, '13; Graduate Student, Harvard University, '13; Assistant in German, Lehigh University, '10-'11; Instructor in German, Pennsylvania State College, '11-'12; Instructor in German, University of Minnesota, '15-'16; Assistant Professor of German, Lehigh University, '16—; Phi Beta Kappa.

JOHN MILTON TOOBY, B.A., M.A.

Assistant Professor of Romance Languages

51 Wall Street

B.A., Lehigh University, '10; Assistant in German, '08-'09; Instructor in French, '13-'15; Instructor in Romance Languages, '15-'17; Assistant Professor of Romance Languages, '17—; Phi Beta Kappa; Alpha Tau Omega.

J. LYNFORD BEAVER, E.E., M.S.

Assistant Professor of Electrical Engineering

402 High Street

West Chester State Normal School, '00; E.E., Lehigh University, '04; Instructor in Electrical Engineering, U. of Pa., '05-'07; Instructor in Electrical Engineering, Drexel Institute, '07-'16; Senior Instructor in Electrical Engineering, Drexel Institute, '16-'18; Assistant Professor of Electrical Engineering, Lehigh University, '18—; Tau Beta Pi; Theta Xi.

LEGRAND REX DROWN, B.S., M.A.

Assistant Professor of Education

R. F. D. No. 2

B.S., '15, Wooslicr College; M.A., '16, Columbia University; Graduate Student, Columbia University, '17; Department of Philosophy and Education, '18-'19; Lehigh University Extension and Summer Schools, '18.

HOMER G. TURNER, B.S., M.S.

Assistant Professor of Geology

1216 Wood Street

B.S., '12, Syracuse University; M.S., '14, Syracuse University; Graduate Student at Chicago University, '13-'14; Assistant in Geology, Syracuse University, '10-'12; Instructor in Geology, '12-'13; Assistant Professor of Geology, '13-'18; Syracuse University; Assistant Professor of Geology, Lehigh University, '19—; Alpha Chi Sigma; Sigma Xi; Sigma Beta.

PARKE BENJAMIN FRAM, E.M., M.S.

Assistant Professor of Physics

315 West Fourth Street

E.M., Lehigh University, '09; Instructor in Physics, '12; Instructor in Physics, '19; Assistant Professor in Physics, '19—.

HOWARD G. PAYROW, B.S. in C.E.

Assistant Professor in Civil Engineering

1133 North Main Street

B.S., in C.E., '07, Tufts College; Instructor in Civil Engineering, '16-'19; Assistant Professor in Civil Engineering, '19—.

FREDERICK J. LEWIS, B.S. in C.E.
Assistant Professor in Civil Engineering
 1239 Russell Avenue

B.S. in C.E., University of Maine, '14; Instructor of Civil Engineering, Pennsylvania State College, '14-'16; Instructor of Civil Engineering, Lehigh University, '19-'20; Assistant Professor, '20—; Kappa Sigma.

WARREN WALTER EWING, B.S., M.S., Ph.D.
Assistant Professor of Physical Chemistry
 18 East Market Street
 B.S., Parsons College, '12; M.S., University of Chicago, '18; Ph.D., '20; Sigma Xi.

GEORGE BARTLETT CURTIS, B.A.
Assistant Professor of Economics
 516 Brodhead Avenue

B.A., Wesleyan University, '16; Member of American Economic Association; Member of American Institute of Banking; Representative of World Book Co., '16-'18; A. E. F., '18-'19; Detachment U. S. Army Students in British Universities, Edinburgh, Scotland, '19; Foreign Department, Guaranty Trust Company of New York, '19-'20; Assistant Professor of Economics, '20—; Commons Club; Phi Beta Kappa.

RAYMOND COOLEY BULL, B.S., A.B., M.D.

Director of the Students' Health Service

513 West Broad Street

B.S., Colorado College, '04; A.B., University of Kansas, '06; M.D., Jefferson Medical College, '09; Interne, Methodist Episcopal Hospital, Philadelphia, '09-'10; Practicing Physician, '10-'12; United States Army, '12-'19, '21-'23; Commissioned Lieutenant Colonel and retired as a Major, '23; Post Surgeon and Professor of Biology, Virginia Military Institute, '20-'21; Director of the Students' Health Service, '23—.

JAMES ALEXANDER MEASE, M.E.

Associate Professor of Machine Design

R. F. D. No. 3, Wyndor

M.E., Lehigh University, '05; Engineer with the National Tube Company, '07-'09; Associate Professor of Machine Design at Pennsylvania State College, '09-'17; Assistant Chief Engineer of the John W. Cowper Company, '17-'20; Chief Engineer of the F. L. Grant Company, '20-'21; Assistant Professor of Mechanical Engineering, '21-'22; Associate Professor of Machine Design, '23—; Tau Beta Pi.

CHARLES K. MESCHTER, B.S., M.S., Ph.D.

Assistant Professor of English

637 North New Street

B.S., University of Pennsylvania, '96; B.A., Harvard University, '00; M.A., University of Pennsylvania, '07; Ph.D., '13; Professor of English and German, Perkiomen Seminary, '96-'05; Professor of English, Moravian College for Women, '10—; Instructor in English, '05-'09; Assistant Professor of English, '09—.

JAMES M. BALDWIN

Associate Professor of Physical Education

Dartmouth, '08; Graduate of the Harvard Summer School of Physical Education; Graduate of the Summer School for Coaches, University of Illinois; Director of Physical Education, Rhode Island State College, '15-'18; Director of Physical Education, University of Maine, '19-'21; Athletic Coach, Trinity College, '22; Associate Professor of Physical Education, '22—; Beta Theta Pi.

STANLEY THOMAS, B.S., M.S., M.A.

Associate Professor of Bacteriology and Acting Head of the Department

37 East Church Street

B.S. in Chem., Lafayette College, '12; M.S., Lehigh University, '13; M.A., Lehigh University, '16; Student, Graduate School of Medicine, University of Pennsylvania, '16-'17; Assistant in Biology, Lehigh University, '12-'13; Instructor in Biology, '13-'16; Assistant Professor, '16; Research Bacteriologist, H. K. Mulford, Philadelphia, '16; Assistant Director of the Laboratories, '17-'19; Associate Director in Research and Production Work, '19-'22; Associate Professor of Bacteriology and Acting Head of the Department, '23—; Alpha Chi Rho.

FREDERICK R. ASHBAUGH

Bursar

77 East Broad Street

Secretary to the President, 1896-1908; Bursar, 1908—.

HOWARD D. GRUBER, E.E.

Assistant Professor of Electrical Engineering

657 Highland Avenue

E.E., Lehigh University, '09; Instructor in Electrical Engineering, '09-'12; Instructor in Electrical Engineering, University of Pennsylvania, '12-'13; Instructor in Electrical Engineering, Pennsylvania State College, '13-'14; Instructor in Electrical Engineering, '14-'16; Assistant Professor in Electrical Engineering, '19—.

MORRIS S. KNEBELMAN, B.S., M.S.

Assistant Professor of Mathematics

415 Cherokee Street

B.S., University of Pennsylvania, '12; M.S., Lehigh, University, '14; Graduate Student, Lehigh University, '15; Instructor in Mathematics, '13; Assistant Professor of Mathematics, '19—.

SIDNEY MACG. BROWN, A.B., M.A.

Assistant Professor of History and Political Science

R. F. D. No. 3, Wydnor

A.B., Bowdoin, '16; B.A., Oxford, '21; M.A., Oxford, '21; Assistant Professor of History and Political Science, '23—.

ALLISON BUTTS, A.B., S.B.

Assistant Professor of Metallurgy

1704 West North Street

A.B., Princeton University, '11; S.B., Massachusetts Institute of Technology, '13; Assistant in Metallurgy, '16-'17; Instructor in Metallurgy, '17—.

WALTER FLAMM QUAST, M.E.

Assistant Professor of Mechanical Engineering

617 Center Street

M. E., Lehigh University, '14; Instructor in Mechanical Engineering, '17-'21; Assistant Professor, '21—.

AUGUST HENRY FRETZ, Ph.B., C.E.

Assistant Professor of Geology

Easton, Pa.

Ph.B., Lafayette College, '03; C.E., '06; Bridge Engineers' Office, D. L. & W. R. R., '06-'10; Instructor in Geology, Lafayette College, '10-'18; Instructor in Geology, Lehigh University, '18-'19; Assistant Professor, '19—.

HARRY BRIDGMAN PULSIFER, B.S., Ch.E., M.S.

Assistant Professor of Metallurgy

1125 Wood Street

B.S., in Ch.E., Massachusetts Institute of Technology, '03; Instructor in Chemistry, New Hampshire State College, '03-'04; Instructor in Metallurgy, Armour Institute of Technology, '11-'15; Ch.E., Armour Institute of Technology, '15; Assistant Professor of Metallurgy, Armour Institute of Technology, '15-'17; M.S., University of Chicago, '18; Professor of Metallurgy, Montana State School, '17-'21; Assistant Professor of Metallurgy, '21—.

FAY COUNT BARTLETT

Assistant Professor of Physical Education

704 Dakota Street

Harvard Summer School of Physical Training; Columbia Summer School of Physical Training; Instructor in Physical Education, '17-'21; Assistant Professor, '21—; Sigma Phi Epsilon.

ROBERT EARL MARTIN, B.A., M.S.

Assistant Professor of Physics

436 Birkel Avenue

A.B., Indiana University, '17; Instructor in Physics, Lehigh University, '18-'21; Assistant Professor, '21—.

HAROLD V. ANDERSON, B.Ch.E.

Assistant Professor of Chemistry

819 Beverly Street, Rosemont

B.Ch.E., University of Michigan, '12; Instructor in Chemistry, Lehigh University, '18-'21; Assistant Professor, '21—.

MARCUS B. BELL, B.S., Captain Inf., U. S. A.

Assistant Professor of Military Science and Tactics

638 Avenue G

B.S., University of Missouri, '16; Honor Graduate; Commissioned 2nd Lieutenant, August, 1917; 1st Lieutenant with 53rd Infantry, October, 1917; Commissioned Captain, March, 1918; With Army of Occupation in Germany, 1919; Assigned to 7th Division, U. S. A., 1920; Assistant Professor, Lehigh University, '21—.

EUGENE H. UHLER, C.E.

Assistant Professor of Civil Engineering

1327 Montrose Avenue

C.E., Lafayette College, '08; Instructor at Pratt and Drexel Institutes; Instructor of Civil Engineering, Lehigh University, '19-'21; Assistant Professor, '21—.

GEORGE F. NORDENHOLT, M.E., M.S.

Assistant Professor of Mechanical Engineering

533 Eighth Avenue

M.E., '14; M.S., '23, Lehigh University; Chief Inspector, Electric Service Supply Company, '18-'20; Instructor, '20-'22; Assistant Professor of Mechanical Engineering, '22—.

ELIAS KLEIN, B.S., B.C.E., Ph.D.

Assistant Professor of Physics

456 Montclair Avenue

B.S., Valparaiso University, '11; B.C.E., '12; Ph.D., Yale University, '21; Assistant Professor of Physics, '23—.

LAWRENCE H. OPDYCKE, B.S., A.M., Ph.D.

Assistant Professor of Chemistry

47 East Wall Street

B.S., Rutgers, '13; A.M., Columbia, '16; Ph.D., Johns Hopkins, '22; Assistant Professor of Chemistry, '23—.

ERIC SPENCER SINKINSON, B.S.C., D.I.C., A.I.C.

Assistant Professor of Quantitative Analysis

240 Packer Avenue

B.S.C., Sheffield University, England, '10; D.I.C., Imperial College of Science, London, '17; A.I.C., Institute of Chemistry of Great Britain and Ireland, '18; Associate Science Master, Stramongate School, Kendal, England, '05-'06; With A. H. Allan, City Analysts of Sheffield, '10-'11; Research Assistant, Sheffield University, '11-'12; Demonstrator in Non-Ferrous Metallurgy, Sheffield University, '12-'14; Lecturer, Imperial College of Science and Technology, '14-'23; Assistant Professor of Quantitative Analysis, '23—.

ROBERT H. CHANCE, Captain Inf., U. S. A.

Assistant Professor of Military Science and Tactics

921 Delaware Avenue

Ohio State University, '18; Commissioned 2nd Lieutenant United States Army, '17; 1st Lieutenant, '17; Captain, '17; Assistant Professor of Military Science and Tactics, '23—.

Instructors

- EDWARD C. ROEST, M.A. 524 Fifth Avenue
Instructor in German
- PEYSAH LEYZERAH, Ph.D. 521 Cherokee Street
Instructor in Mathematics
- MARVIN R. SOLT, B.S. 124 West Fourth Street
Instructor in Mathematics
- WILLIAM A. LAMBERT, B.A., M.A. 1616 West North Street
Instructor in English
- AUGUST CONCILIO, E.E., M.S. 460 Montclair Avenue
Instructor in Physics
- BOYD R. EWING, B.A. 723 Cherokee Street
Instructor in Romance Languages
- JESSE E. GRAHAM, 1st Lieutenant, Inf., U. S. A.
921 Delaware Avenue
Instructor in Military Science and Tactics
- MALCOLM KEE BUCKLEY, B.S. in Chem. 438 Carlton Avenue
Instructor in Chemistry
- MORRIS E. KANALY 657 Taylor Street
Instructor in Physical Education
- WILLIAM A. KRIEDLER, B.S. 225 East Geopp Street
Instructor in Biology
- HARVEY A. ZINSZER, B.A. 637 Fifth Avenue
Instructor in Physics
- ROBERT C. CANTELO, B.S., M.S., M.A., 402 Wyandotte Street
Instructor in Chemistry
- LESTER L. LEACH, B.S., in M.E. 77 East Broad Street
Instructor in Mechanical Engineering

- ROBERT P. KOLB, M.E. 7 Finady Avenue
Instructor in Mechanical Engineering
- ARCHIE R. MILLER, B.S., in E.E. 1219 Russell Avenue
Instructor in Electrical Engineering
- CHARLES H. BEHRE, JR., B.S. 516 Brodhead Avenue
Instructor in Geology
- PAUL N. KISTLER, B.S. in M.E. 617 Center Street
Instructor in Mechanical Engineering
- GEORGE A. LYLE, B.S. Chi Phi House
Instructor in Mathematics
- WILLIAM B. SHIREY, A.M. 315 West Packer Avenue
Instructor in Chemistry
- E. K. SMILEY, A.B. 520 Brodhead Avenue
Instructor in English
- JAMES D. WEINLAND, A.M. 15 West Packer Avenue
Instructor in Psychology
- ISRAEL MAIZLISH, Ph.D. 478 Birkel Avenue
Instructor in Physics
- ARTHUR GIBBES CRAFTS, A.B. 822 Tombler Street
Instructor in Physics
- J. SHEPARD WEBB, B.S. 456 Montclair Avenue
Instructor in Physics
- WALLACE W. PERKINS, A.B. 411 Cherokee Street
Instructor in Romance Languages
- GILBERT CONVERS-CASTILLEJO, B.S., Ph.D. 519 Wyandotte Street
Instructor in Romance Languages

ALLEN J. BARTHOLD, B.A. 128 East North Street
Instructor in Romance Languages

M. S. NOYES, B.S. 22 West North Street
*Instructor in Marine Engineering
and Transportation*

ERNEST ROY KINGSLEY, B.S. 41 West Church Street
Instructor in Electrical Engineering

HARRY DIAMOND, B.S. 60 West Market Street
Instructor in Electrical Engineering

MARCUS C. OLD, B.A. 726 Cedar Street, Allentown
Assistant in Biology

ROBERT DOMINICK BILLINGER, Ch.E., 631 North New Street
Instructor in Chemistry

HARRY L. CUSTARD, A.B., M.B.A. 704 Fifth Avenue
Instructor in Accounting

JUDSON G. SMULL, M.S. 66 West Greenwich Street
Assistant in Chemistry

JONATHAN MADDEN, Sergeant, Inf., U. S. A.
18 West Fourth Street
Assistant in Military Science and Tactics

THOMAS J. LAVIN, Sergeant, Inf., U. S. A.
659 Taylor Street
Assistant in Military Science and Tactics

JAMES R. BOYLE, Sergeant, Inf., U. S. A.
440 Martel Street
Assistant in Military Science and Tactics

Endowment

RESOLVED, That the Alumni of Lehigh in Annual Meeting assembled, having considered the needs of our University as set forth in President Richards' report and being determined that no stone shall be left unturned to make of Lehigh the leading University of her type in this country, do enthusiastically accept President Richards' plans for a "Greater Lehigh" and heartily endorse the recommendation made by the Alumni Council for a \$4,000,000 Endowment Campaign to be carried on during the coming Fall.

We will spare no effort to make this campaign an unqualified success and pledge our continued support to the end that our University may realize fully this "Splendid and magnificent conception" of President Richards.

- CLASSES -

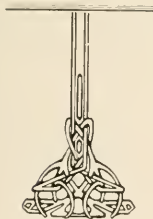

SENIORS

History

J. F. ROGERS
PRESIDENT

THE fall of 1920 produced the Class of '24 on Lehigh's campus. Being fairly altruistic, with the good of the college at heart, we gave a host of athletes to the varsity teams and wore our frosh caps on Sunday as a partial result. Even in our first year we instigated an old-time spirit of class rivalry at the time of the Sophomore and Freshman banquets.

This same spirit we carried into our Sophomore year. The upperclassmen then entrusted us with the inauguration of a new system of organized hazing, in an endeavor to create a desire in the Class of '25 to follow in our footsteps as an example of Lehigh spirit. Throughout this year we successfully maintained this policy. Aside from this we contributed very largely to the regular college activities.

The following year as Juniors, though greatly depleted in number, we undertook with sincerity the task of carrying out our ideas in the role of upperclassmen. Here we co-operated with the Seniors in attempting to advance Lehigh materially as well as idealistically under the guidance of our new president, Dr. Richards.

As Seniors we are still doing our utmost to "Carry On." We leave disappointed at the fact that we haven't seen a football victory over Lafayette. However, we have great hopes for the future and feel that the "jinx" is getting weaker, due to the successes in soccer and basketball. We believe that, speaking either historically or prophetically, the members of the Class of '24 may truly be termed "Men of Lehigh."

CLASS OF 1924

Class of 1924

Historian

DAN P. HOAGLAND
New Jersey

Athletic Representative

JAMES M. DEGNAN, JR.
Pennsylvania

YELL

Slam! Bang!

Rip! Sore!

We're the Class

Of Twenty-four!

GEORGE JUSTIN ABEL
Elizabeth, N. J.

"Hardly" "O'Abel" "Gorgeous"

M.E.; Lacrosse Team (2, 3, 4); Musical Clubs (1, 2); Band (1, 2, 3, 4); Class Football (1, 2), Captain (1); Varsity Club; Delta Upsilon.

HARDLY has spent a precarious four years trying to live down the fact that he hails from Elizabeth where the cows meander through the footpaths. That bad start coupled with the Faculty's endeavors to wish him "God speed" twice a year have had him in a perpetual sweat.

We first noticed George during our big fracas with the Sophs when his orb took on a dingy hue. From that time to this he has always been to the fore in class and sectional activities.

He turned out to be a mighty nasty lacrosse artist, although at times he has had to explain to Bill O'Neill just why his stick should take root and sprout leaves on Taylor Field.

He has been a great inspiration to Pop Larkin who has learned thru George many new pointers and the many short-comings of his course. Why "Hardly" went so far as to propose that Allentown and particularly Mealey's should be moved just West of the campus. Cars do seem to have a bad habit of refusing to run after midnight.

"That's a fact."

EDGAR THOMAS ADAMS, JR.
Crafton, Pa.

"Ed" "E. T." "Addie"

E.M.; Editor-in-Chief of Burr (4); Managing Editor (3); Associate Editor (3); Editor-in-Chief of "1924 Epitome"; Associate Editor of Brown and White (2, 3, 4); Editor of the Senior Class Book; Lehigh Press Club (3); Class Secretary (4); College Cotillion Committee (4); Interfraternity Council (4); Mining and Metallurgical Society; Cotillion; Pi Delta Epsilon, Secretary-Treasurer (4); B. U. X.; Kappa Beta Phi; Cy-anide; Sword and Crescent; Chi Psi.

RING, ring! Telephone, enter Adams on horseback with his hair cut curly and barefoot with his father's shoes on. Thus begin-neth the history of Edgar T. Adams, who came to us from Pittsburgh; pure, healthy and innocent.

Little would anyone have suspected that a period of four years could have brought about such a change in a boy's life. During this period Edgar acquired many habits, chief of which is his inability to get up for break-fast for which he substitutes a roll in bed.

"Ed" leaves us as he entered on horseback, but he is not now an unsophisticated freshman, but one of Skipper Eckfeldt's rough, tough and worldly coal diggers.

"Oh, dear!"

CHARLES MAHIN ALFORD

East Orange, N. J.

"Charlie" "Vic"

E.E.; Managing Editor of Brown and White (4); Assistant Editor (3); Associate Editor (1, 2); Manager of Soccer (4); Assistant Manager (3); President of the Pennsylvania Intercollegiate Association Football League (4); Associate Editor of the "1924 Epitome"; Musical Clubs (1, 2); Sophomore Council (2); Calculus Cremation Committee; Interfraternity Council (3); Y. M. C. A. Cabinet (4); Senior Class Book Committee; Pi Delta Epsilon; Sigma Phi Epsilon.

AFTER graduating from the East Orange High School in 1919 and then resting for a year, Charles came to Lehigh. He chose an engineering course and then to fill in time began to write for the Brown and White. When you see a slight youth hurrying along with a rather preoccupied air, this is Charles. He allows himself the minimum time and somehow just gets there.

Being a believer in efficiency, he has had time to engage in his assorted list of activities and withal is one of the few who have never received an "E" from the Dean's office.

Charles is a modest likeable chap who we predict will some day be "boss" of all the Telephone Companies.

"Sure, I'll be glad to."

ROBERT HOUSTON ALLAN

Jermyn, Pa.

"Allie" "Bob"

Bus.Ad.; Class Baseball (1, 2); Assistant Manager Baseball (3); Lehigh Six (1, 2, 3, 4), Manager (4); Junior Prom Committee; Cotillion, Second Vice-President; Kappa Beta Phi; B. U. X.; Sigma Nu.

BLUE-EYED" Bob is a favorite everywhere. This is not at all surprising—in fact it couldn't be otherwise. Good looks and a pleasant disposition coupled with a marked musical talent is reason enough for anyone's popularity.

"Allie" has been a busy man since he came to college—takes Business, you know. His interests have been of a varied nature—having adapted himself in rapid succession to baseball, wrestling, dance committee work, and achieved the distinction of being assistant manager of baseball. Notably he has taken part in all interfraternity contests of basketball, football, pool, bowling.

"Bob's" activities outside of the college sphere have brought him a lot of distinction and fame. You can't understand that fully until you have heard him strum his banjo in the Lehigh Six Orchestra. From seven to seventy, "They all ask for him."

"It's the nuts."

CHARLES EMORY ALWINE
New Oxford, Pa.

"Charlie" "Cedric"

E.E.; Senior Electrical Football; Electrical Engineering Society.

HIS brilliant Electrical comes from New Oxford, where he spent the early days handling bricks in his father's brickyard. This work developed him into a very husky boy, and consequently he has been trying out for the wrestling team, and has also played guard on the famous Senior Electrical Football Team. While at work handling bricks, he got the idea that he would like to build up an education, therefore, came to Lehigh to take up Electrical Engineering.

During his first two years in college, Charlie was the type of man known as the woman hater. Then early in his third year a certain eventful night arrived when he had a date with a fair damsel from this vicinity. That night was the turning point in his career. Since then, he has been "stepping out" regularly and if the reports are true, he is quite a hit with the ladies.

Now that you are about to go out into the world, we wish you the best of luck in the years to come.

"What the Hell!"

WILLIAM D. AYERS
Branchville, N. J.

"Bill" "Ayersie"

C.E.; Civil Engineering Society; Delta Theta.

AFTER being interference for him all around the small dance floor, she gasped, "My, but aren't you the plunging full-back?" And William laughed; he was having a good time. Never mind, Bill, this is Bethlehem not Branchville.

Bill came to us from Pennington Prep and before that Newton High in order to become a "torn and tattered mud bespattered Civil Engineer." Foolish Bill. But we will refrain from much mud-slinging. Yet just between friends who was responsible for most of the bull sessions in Section D last year? Chorus—Ayers. Who took Stoichomery three times? Chorus—Ayers. Who breaks half the hearts in this place God forgot? Chorus—Our darling Bill. He has been one of our staunchest friends, and here's wishing him success when he gets that diploma.

"That's no damn bargain."

ERNEST WELLINGTON BAKER
Harrisburg, Pa.

"Ernie" "Bake" "Bennie"

E.E.; First honors in Electrical Engineering (3); Band (1, 2, 3, 4); Electrical Engineering Society, President (4); Professional Council, Secretary; Senior Electrical Football; Tau Beta Pi, treasurer (4).

T was one bright day in the latter part of December, 1902, when "Ernie" first gazed upon the light of day. Can you imagine, kind friends, a Christmas gift of which anyone could be more appreciative, we ask you? Well written was the statement, "Of their own virtues, modest men are dumb," for the only time "Bake" blows his own horn is when he is sliding the trombone for our band.

How his "Ernest" efforts have been rewarded is best shown by his accomplishments in college activities. His companionship and wonderful congeniality have won a place for him in the hearts of all who know him. At their first opportunity, Tau Beta Pi chose him one of their number, and, being an honest man, he was assigned the task of guarding the empty vaults of the society. Further, by his unanimous election to the presidency of the Electrical Engineering Society, he has the distinction of having guided the destiny of the most successful society on the campus.

"Good morning, gentlemen."

EDMUND VAN GILDER BENNETT
Lansdale, Pa.

"Ed" "E. V."

Met.; Editor-in-Chief of Brown and White (4); Assistant Editor (3); Associate Editor (2); Associate Editor of 1924 Epitome; Senior Class Book Committee; Glee Club (3); Lehigh Delegate to International Newspaper Association Convention 1923; Tau Beta Pi; Pi Delta Epsilon, Vice-President (4); Delta Upsilon.

COMPARABLE in a way with the unknown quantity x of algebraic fame, "Ed" has plugged his way through four tempestuous years on South Mountain asking few favors.

He is first and foremost a worker. His fertile and imaginative mind caused him early to seek fame and fortune among the ranks of Lehigh's budding Waterman exercisers, and his ascent to the top has been attained solely by consistent effort. As "ye editor" of the Brown and White, he has been instrumental in bringing about many innovations and enlargements to it worthy of a university many times the size of Lehigh.

Aside from the tribulations of journalism, "Ed" has found Stoughton's tempestuous course in Metallurgy to his liking; so much so in fact that the good key swings to the world in mute testimony thereof.

"Contrary to the usual custom."

MORRIS EARL BISHOP
Bethlehem, Pa.

"Bish" "Wal"

B.A.; Band (1, 2, 3, 4); Librarian (3, 4); Arts and Science Club, Treasurer (4); Le Club de Quinze, President (4); Freshman Mathematics Prize; Junior Oratorical Contest.

BISH" is one of Bethlehem's own sons, so there is no mystery in his coming to Lehigh. Knowing a good thing when he sees it, explains his entrance into the Arts Course. His interest in this course has been shown by his activities in various clubs, although he tells us that Chemical Engineering is to be his fate. It seems as if the campus will feel his presence for several more years. His gym work has largely consisted of blowing his trusty cornet; by means of which he has helped to continue the band for four years. One of his greatest faults is coming to classes late and we hope he will rectify this fault when he takes up engineering. Here's hoping for his success.

"Just a nice fellow"

GEORGE WARREN BOGGS, II
Melrose Park, Pa.

"Skinny" "Washington"

Bus.A.; Cotillion; Scimitar; Phi; Kappa Beta Phi; Theta Delta Chi.

GEORGE WARREN BOGGS 2ND, born in the spring of 1902 at Oaklene, Pa., has, from that time on, had a steady rise in both stature and knowledge. Graduating from Cheltenham High with the Class of 1920 he entered Lehigh the following fall as a promising but green freshman. "Skinny", as he is known to his college mates, has completed the course of Bus. Ad. and has proven himself to be an asset rather than a liability to that department.

During his four years in college he has never been a leading figure in athletics or scholastic work but he is of that solid type whom everyone respects and likes. "Skinny" numbers among his friends many members of the faculty, including the "little general" with whom he was always at ease, which is something for any student to be proud. Great things are predicted for this promising young man and in the years to come when better rugs are made, "Skinny" will make 'em. Here's to you Ol' Boy, may everything prove as successful as your Utopias picture.

"I don't know."

LUTHER GERBER BOND
York, Pa.

M.E.; Mechanical Engineering Society.

LUTHER, a product of York High, 1919, came to Lehigh with a complete college preparation. His preparation lay in the fact that he had learned how to study. Although not participating in any particular branch of athletics, "he was in college" and so did not fail to do his share of cheering at the college events.

"Lute" soon began to get "Pop" Larkin in his grasp and gradually behave; started to step out then 'cause his mailing list was too heavy and so he didn't actually have the time. Even "Dave", the mail man, was compelled to ask for a raise.

Luther has a few good points which we should not fail to mention. He has an unspotted church record (?). Besides visits to "Salem", he was a regular attendant at the Nativity Church on Friday nights.

"Bondie" is not related to "Uncle Charlie" but nevertheless we know he will meet with the same success.

"What the Hun."

HENRY ERNEST BONNEY
Pen Argyl, Pa.

"Bonnie" "Hen" "Rabbit"

B.A.; Arts and Science Club; Pre-Med Society, Treasurer (3); Wrestling Squad (1); Inkwell Club; Railroad Society; LaCrosse Squad (2, 3, 4); Student Officer, R. O. T. C. (4); Scabbard and Blade.

PEN ARGYL is locally unknown, but this unknown Pen Argyl will soon become famous, for "Hen" is her first son to be a Lehigh graduate. His persistency at school as well as his characteristic personality are but two of the attributes that have helped him to be one of the fit in that little episode entitled "The Survival of the Fittest." "Bonnie" entered Lehigh with the idea that he was some day, going to be an M.D. Not content with this adventure, he has decided to launch his future in the vast field of railroading. Here's hoping another L. U. man becomes head of our mode of transportation.

The spirit shown by "Bonnie" and his determination to finish anything he tackles requires no prophecying as to his future success. A host of friends wish him luck in his future occupation, be it what it may.

Raspberries, what's that?"

JOSEPH BOYLE, JR.
Paterson, N. J.

"Joe" "Josie"

Bus.Ad.; Manager of Lacrosse (4); Assistant Manager (3); Cotillion; Varsity Club; Class Baseball (1); Kappa Beta Phi; B. U. X.; Sigma Nu.

Four years ago amid the mills
Of silky Paterson, over the hills,
A young man came, of stature small,
And climbed the stairs of Packer Hall.

Registrar Walters beamed and smiled
And asked our "Joe" how time be-
guiled,
And what on this bright sunshiny day
Caused him to wander down this way.

"An education, sir," said "Joe",
"In things it's good for me to know.
Baldy's fame is far and wide
And I'd like to study by his side."

"I stand before this noble college
All spiked to climb the tree of knowl-
edge;
To learn whether cheese is paramag-
netic,
And why Aristotle was peripatetic."

Now look at Joe, diploma in hand,
And see if you see in him the man
Who said that learning to him was
so dear
And he'd have nought to do with
drinking beer.

"Oh Boy!"

WARREN JAMES BRIDEGAM
Reading, Pa.

"Bridge" "Bridgy" "Arvie"

E.E.; Electrical Engineering Society, Treasurer (4); Railroad Society (4); Band (1, 2, 3, 4); Senior Electrical Football Team.

CHILDREN'S BEDTIME STORY Broadcasted from Station WJB, Reading, Pa.

 "TWO dollars, please," said the doctor, as he picked up his empty satchel and turned toward the door. These, my dears, were the first words our friend, Warren James Bridegam, heard on that eventful night of January 5th, 1901. I think, my darlings, that he came into this world rather cheap.

In his Freshman year he was "little known nor long remembered", except after E.E. meets, when he remained to wash dishes, like all my dear little girls. And so, dears, he went on, studying and playing in the band, and hark, all your little ears, for Lehigh has a good band, and finally at the end of his Junior Year he was elected Treasurer of both the E.E. and Railroad Societies, presumably being most at home when using his favorite expression, "Two dollars please," listen darlings and you shall hear him. Good night, my dears.

This is radio broadcasting station WJB, Reading, Pa.

"Two dollars, please."

RICHARD JOSEPH BUCK

Bethlehem, Pa.

"Dick" "Joe" "Buckie"

B.A.; Lacrosse Team (3, 4); Y. M. C. A. Cabinet; Inter-Fraternity Council, Vice-President; Chairman Sophomore Banquet Committee; Chairman Senior Banquet Committee; Cotillion; Scimitar; Varsity Club; Sword and Crescent, President; Beta Theta Pi.

O be born in Bethlehem; brought up in Bethlehem was the fate of Richard Joseph. How he has survived under such circumstances is impossible of comprehension. He started off by puzzling the profs in his knowledge of the maze; he then amazed the college world by an escape of far-reaching importance to the then sophomore class—in brief, he laid hands upon the sacred person of the sophomore president.

"Dick" is quite a romantic person; kidnapper, athlete, social nobleman, Y. M. C. A. mogul, and shining light of the environs known as Bonus Hill. We know of no one who has taken a greater interest in college activities, or who has "played the game" with greater benefits to himself and to his class than this same Richard.

We feel sure that his vigorous interest in everything that makes up our college life is the criterion of his future success, and here's a hearty "Good Luck" to one who has helped so greatly to make '24 what it is.

JESSE ALBERT BUGBEE

Trenton, N. J.

"Bozo" "Jess" "Al"

C.E.; Musical Clubs (1, 2, 3); Class Basketball (1); Cotillion; B. U. X.; Kappa Beta Phi; Chi Psi.

BIG-HEARTED Jess, who has been pursuing an education at Lehigh for the past four years, was first noticed in Trenton, N. J. He came to us with a reputation of being inclined to exaggerate a few, but this was soon squelched and is now only heard in New Schools and etc. He sold half of Trenton one night for another round, but instead of closing the deal borrowed fifty cents (his long reach came in handy).

Jess' ability of a musician has undoubtedly been heard of in all parts of the world. Victor Herbert speaks of Jess in the following terms, "In all my experience as a critic, I have never heard his equal!"

His social career is limited to House Parties where he is seen only at meals; not including breakfast. His appearance at B. Thorpe at a dance one night went big until a week afterward when his girl had a toe amputated; still, Jess is considered a good dancer.

Jess also has two claims to fame since he is the original founder of the Fish Club and the Champion Gate Crasher of the Lehigh Valley.

FRANK TAYLOR BUMBAUGH
Monessen, Pa.

"Bummy" "F. T."

Met.; Business Manager of Burr (4); Business Staff (2, 3); Football Squad (1, 2); Basketball Squad (1, 2); Class Football (1, 2); Class President (3); Sophomore Council; Interfraternity Council, Secretary (4); Chairman Junior Prom Committee; Cotillion, Vice-President; Scimitar, President; Kappa Beta Phi; Square and Compass; Pi Delta Epsilon; Sword and Crescent; Cyanide; Theta Delta Chi.

ON February 19, 1902, Frank arrived among the citizens of Monessen, the town of multitudinous nationalities. When he became a man, he started on what was to become an intercollegiate career. Cornell and Pitt took Bummy for a fall and then in September, 1920, he arrived among "We Men Of Lehigh." Here he threw out his anchor and has, with several exceptions, gone along swimmingly.

Being modest, he hates to tell the boys, but he is to be the future operator of the home town foundry and machine works—therefore his course.

Bummy has proven to be a loyal friend and a steadfast supporter and leader of many student activities. He has his mind set on success and here's wishing him luck in his affairs, both business and of the heart.

"Damn that Physics Department."

PAUL SHAFTER BURT
Washington, D. C.

"Burt" "Shaftah"

Bus. Ad.; Rifle Team (1); Assistant Manager Football (3); First Honors Business Administration (3); Interfraternity Council (3); Senators Club; Cotillion; Phi Sigma Kappa.

TROUDSBURG, Monroe County, Pa., home of rattlesnakes, Democrats and poor liquor, claims Paul Shafter Burt as one of its natives. We will forgive all the rest of it, if it keeps sending us men of Burt's type; for they sure sent us a mighty fine fellow, a good student and a hard worker when they put Paul on the D. L. & W. and tagged him for Lehigh. Paul is a real student of business administration.

Burt is one of the older Seniors, for he was kept fairly busy in France and hospitals when he should normally have started college. But then he did his part there and came to us with a steadier head than most of us possess. He started in the Mining Engineering Course, but it took him but little time to decide that he did not want to grind away at theory. Paul now lives in Washington, D. C., and in closing let us wish him luck in life with Caroline, sunshine and just a bit of moonshine.

"Got any money?"

PAUL FREDERICK CAMPBELL
Swedesboro, N. J.

"Soup"

C.E.; Class Baseball (1, 2); Wrestling Squad (4); Civil Engineering Society, Vice-President (3) President (4)

W E was christened with a good name from the Bible but things got mixed up and the name "Soup" resulted and he no longer answers to the original handle. When "Baldy" heard of him, he recognized him as a fellow clansman, but unfortunately all of the professors are not Scotch and so "Soup" has become a true expert in the art of passing fall exams. He has a system all his own, guaranteed 100 per cent. successful, but I warn you who want to try his method, it isn't easy. Baseball has always been his by-word, but that became too strenuous and he took up wrestling (on the mat) and we wish him lots of luck this season.

With his little five-inch "slip stick" and the Civil's bible, the Carnegie handbook, and a sufficient factor of safety, we all are sure that he will "slip" his way through to something worth while.

"No Kidding."

WILLIAM PAUL CANAVAN
Chester, Pa.

"Bill" "Canny"

B.A.

W ILLIAM P. CANAVAN was born twenty-six years ago in the historic town of Chester, Pennsylvania, which is the oldest town in this state. He was educated in the public schools and was graduated from Chester High School in 1920.

After finishing up at Chester High he came down to Bethlehem to finish up his education at Lehigh. As a student in the Arts and Science course he has been very well liked while here among us. Although "Bill" has had pretty tough sledding through his college courses, his abundance of good sense should insure him of real success when he leaves us to go out into the wide world.

"Oh joy!"

JOSE MARIA CAROL
Cardenas, Cuba

"Joe" "Pepito" "Moco"

C.E.; Track Team (1, 2, 3, 4), Captain (4); Class Track (1, 2, 3, 4); Varsity Club; Tau Beta Pi; Cyanide; Sword and Crescent; Theta Kappa Phi.

WE present for your approval, the Lehigh track team.

W This tropical specimen (Cuban polar bear) even at a very early age decided he must needs become a great man. Hence his migration to the United States, where he set the ball rolling at Rockhill College. Outgrowing this place and already excelling in scholarship and athletics, he went to Perkiomen School, where he prepared for Lehigh. Here he was active in athletics and graduated with honors.

At Lehigh he hasn't fallen down on the job, but rather has climbed another rung on the ladder of success. He sports a Tau Beta Pi key, an "L" etc., and is a popular boy about the campus. Joe does a mean hundred yards and also holds the 220-yard dash and low hurdle records at Lehigh.

We believe your success out of school will be even greater than in school, so go to it, "Joe"; we wish you luck.

"Wise up!"

KUANG-MING CHANG
Shanghai, China

"Wang"

Met.; Mining and Metallurgical Society.

W HAY proclaimed the well-known "Open Door" policy. This same year Chang was launched into the world. Look, what a wonderful career he led in his fatherland. Scholarly, yes, he was. What's more, going from the kindergarten to the Nanyang School he was crowned with many honors including president of his class and manager of the school soccer team. Then he went to North China to attend the Tsing-Hua College, situated in a suburb of the Chinese capital, where he absorbed much of the literary niceties and also adopted the symbols of the great literary pursuit, "eyecrystals."

At the age of twenty-one he arrived at Lehigh, attempting to be a Metallurgical Engineer. We find him here learning a liberal education, a profession, and a good sort of a chap known for a while as Student Chang. Mistaken is anyone who does not regard him as a "good skate."

In the near future may we not find him successful in all his undertakings and happily surrounded by a new family at Shanghai, the first word of "Land."

"All right."

FRANK LAWTON CHILDS
New York, N. Y.

"Cherub" "Locomotive"

Bus. Ad.; Assistant Manager of Tennis; Student Officer, R. O. T. C.; Class Football (1, 2); Freshman Prom Committee; Scimitar; Kappa Beta Phi; Sigma Phi.

IT would be a most difficult thing to describe Frank Childs in this short space. His virtues are many; his vices are few. Taken together, however, we find a rare combination that is hard to beat.

Frank came to Lehigh after a glorious career at Lawrenceville, nor does it stop there. One need only know him well enough to judge his true worth. He has been active in college affairs and he has made a great many friends; he was born with a keen sense of humor, which added to a pleasant personality have and will in the future take him a long way in the hard road of life.

Frank's conquests have been many, he is an "all around athlete," in love affairs he has been most successful; well he's just irresistible. But a word of warning, girls, he is a bad actor in a taxicab. Yes, and what's more he is always late. Now that's really funny because "locomotive" is a synonym for Frank Childs.

In closing, we wish you all the luck in the world.

"I'll beg your pardon."

CONRAD F. CLOTHIER
Germantown, Pa.

"Connie" "Moose"

E. M.; Soccer Team (4); Theta Tau; Beta Theta Pi.

HERE we have another, born in that sleepy city of Philadelphia and one who smilingly takes his New York roommate's wise cracks. The "Moose" has never told of any startling events about his childhood, but it is known that he entered Germantown Academy at an early age. After spending twelve years at prep school, Connie was attempting to choose what college he would enter. But before that question was settled, he had made a much greater decision. The Navy lured him away from his educational routine. Over two years was passed in such a fashion. When the war was over, Connie chose to enter the Colorado School of Mines. There he was a member of the varsity boxing and baseball team. One mistake Connie made was that he waited too long before he transferred to Lehigh. During his short time in Bethlehem, however, he has earned himself much praise playing varsity soccer for the Brown and White—not mentioning that he is an excellent mixer among men.

"Not so hot."

THOMAS GEORGE CONLEY, JR.
Pittsburgh, Pa.

"Tom" "Irish" "Si"

E.M.; Class Baseball (1); Class Treasurer (4); Interfraternity Council (3, 4); Mining and Metallurgical Society; Kappa Sigma.

AMONG the great men who have met me, is our own Tom "Cy" Conley. He is a strong believer in Rockefeller's saying "Put Money to Work" and also in a certain personage by the name of "Bacardi." However the motto "Put Money to Work" rates rather high with Tom as is evidenced by the four-wheeled "chariot" which he put to work last fall in taking some of the boys to the games played away.

Tom started to our noble institution with full intention of becoming a Business man, but discovering that he was too bright for such a course, he decided to become a member of "Skipper's Pick and Shovel Gang." With the aid of a few substitutions and much study (?) he has about completed his college career and will now probably sell stocks and bonds on Wall Street or help the steel industry in Pittsburgh.

"Oh, I substituted for that course."

CHARLES TAYLOR CORNELIUS
Pittsburgh, Pa.

"Corny"

M.E.; Circulation Manager of Burr (4); Business Staff (1, 2, 3); Assistant Business Manager of 1924 Epitome; Cotillion; Pi Delta Epsilon; Delta Phi.

EVERY vicinity has its heroes, Squirrel Hill is no exception. When "Corny" came to Lehigh the elders nodded their heads in approval, their loved one was on the verge of great experiences and they had little to fear. But, friends, time brings changes; experience in the ways of the world leaves only sorrow and sadness. The elders were right, Corny has had his experiences, oh classmate, why have you brought upon you these dreadful things; the road to hell is paved with good intentions.

Oh "Corny," despite your wickedness, you are lovable; your very countenance beams with good humor, you are a charming combination of heavenly saintliness and hell fires. To sing your praises would take too long, your character is unsullied, your ability is great, your accomplishments are many; you've got the goods, your record shows it, and your friends swear by you.

"Does anybody want that last piece of cake?"

GEORGE EMIL WAGNER
CORNELIUS

McKeesport, Pa.

"Cornie" "Kid"

Bus.Ad.; Varsity Soccer (1, 2); Wrestling Squad (6); Class Vice-President (1); Interfraternity Council (6); Co-tillion; Scimitar; Kappa Beta Phi; Cyanide; Psi Upsilon.

C HIS little fellow has been a fixture out in front of Coppee Hall for so many years that he is pointed out to freshmen as the oldest living undergraduate in the University.

He came here in 1918 full of the serious resolve to study Chemical Engineering. After several rushes out of the Chemistry Building and a few valentines, he decided that his career lay in the business world. He, accordingly, became a first rate "yes" man for "Baldy," and has continued ever since until in 1924 his parents insisted that he graduate or go to work.

George is a born movie hound and has probably paid enough admission to the movies to build the steeple on Memorial Hall. Golf is his mania, as evidenced by the fact that he appears frequently on the campus in knickers. This attire is very becoming to one of such small stature, and has come in handy at times when he wanted to earn a few cents selling papers.

"Any mail?"

LAYLON LAVERN CUPP

Williamsport, Pa.

"Cuppie" "L. L."

M.E.; Junior Second Honors in Mechanical Engineering; Railroad Society, Secretary (3); Inkwell Club, Secretary (3); Rifle Team (1); Junior Varsity Soccer Team (3, 4); Mechanical Engineering Society.

CUPP hails from that famous old lumber town—Williamsport. He is far from being a stick, himself, however.

At first he thought high school was all foolish and tried to work in a machine shop. Finally he got next to himself and took up his high school work again and finished in great shape. Now he was looking for more worlds to conquer and decided to start out on Lehigh. "Cuppie" found he was going to have his hands full but never said "Die" and hence comes out near the top again.

"Cuppie" expects to put the knowledge he acquired by hard plugging to use as a teacher of others. We are sure he will put the stuff across and wish him much success in his chosen profession.

"Hello there."

JOHN VINCENT DANKO
Byram Shore, Conn.
"Dank" "Jay-ree"

E.M.

WHEN you analyze most worthwhile careers, you find that the individual involved usually gave a hint of his real fiber in early life. This is conspicuously true of "Dank."

At sixteen, while still at school, he became connected with the F. S. Odell Engineering Corporation, Civil Engineers. It was not long before "Dank" showed real promise. He was soon permitted to run surveys and compute data. "Dank" not only girds himself with confidence, but digs for the facts and knowledge of his undertakings.

He was seventeen when he graduated from Greenwich High School. Despite the fact that his time was very much occupied with his hobby, engineering, he found time to earn his letters in basball and football.

"Dank" had a definite plan in life; he was to be a Mining Engineer. He therefore scoured the country for the best University. After attending Carnegie Tech, Colgate and Cornell successively for short periods, he almost won the sobriquet of "Tramp Student." But he was not satisfied until he had the best.

Finally Lehigh was selected where the guiding powers that he gave him the training he desired.

JAMES MICHAEL DEGNAN, JR.
Bethlehem, Pa.
"Jimmie" "Atlas"

E.E.; Manager of Baseball (4), Assistant Manager (3); Basketball Squad (1, 2, 3); Calculus Cremation Committee; Sophomore Banquet Committee; Junior Prom Committee; Chairman Prom and College Cotillion Committee; Interfraternity Council (3); Arcadia (4); Athletic Representative (4); Cotillion; Cyanide, Vice-President; Sword and Crescent; Phi Delta Theta.

WITH brains plotted as abscissas and good looks as ordinates, the above curves are obtained. There is no error in the calculations, but the data as recorded is a mistake. We might also add that with a few more brains "Rube" Goldberg's famous bird, the Ikmiy, would be obtained.

"Jimmy" is one of those unfortunate individuals who was tricked by fate and had to be born in Bethlehem. But he has those stirring qualities and that "come to mamma look", or in other words, a bigger and better Lehigh.

However, having been graduated as an E.E., "Jimmy" will start selling flat irons for further study in his course. We hold no doubts as to his success and wish him all the luck in the world, but as a last warning "Jimmy", keep away from Barnum or Bailey, as we don't want to lose you.

DONALD BENNER DICK
Hazleton, Pa.

"Don" "D. B." "Dick"

Bus. Ad.; Football Squad (2, 4); Class Football (1, 2); Sigma Chi.

HAZLETON is noted for its hard-boiled, fair and handsome sons, and D. B. Dick is certainly no exception to the rule. He survived a turbulent childhood in the wilds of Hazleton only to be transplanted to Bethlehem.

The only things he brought with him were a travelling bag and an enormous appetite. Not being a devoted follower of Euclid, he joined the cohorts of "Baldy," under whom he served as a shock absorber. "D. B." often went back to the old homestead weekends to stock up with victuals, but found enough time during the week to break the hearts of the Bethlehem flappers.

These successes with the ladies did not turn his head, however, and unless we miss our guess he will someday be president of a large stripping company.

WALTER MILLER DIENER
Hamburg, Pa.

M.E.; Mechanical Engineering Society.

HIS promising young Mechanical comes from the shores of the Schuylkill. Since earliest boyhood it has been his greatest ambition to find out why the wheels go 'round. Clocks were his favorite diversion. But although he was able to take them apart, it was far beyond his best endeavors to reassemble them. Thwarted in this, he tried time and again to solve the mystery and as often failed. At last, made desperate by these failures he came to our Alma Mater. Here he hoped to learn the secret arts and mysteries of mechanisms. With this ambition filling his soul he has fought his way through nearly four years of college life and has thus far succeeded in spite of attempts of the faculty to down him. Now at the threshold of success in Lehigh, he believes he has learned those secrets which so baffled him years ago, and is ready to step out into the world of cogs and wheels and create rather than destroy. We wish him luck and God's speed in his ambition for we are sure that he will attain the highest goal of success.

"What the hell."

ROBERT CHARLES DIETRICK
High Bridge, N. J.

"Bob" "Wuzzer"

B.A.; Y. M. C. A. Cabinet (4).

WHEN our class entered as Freshmen, there came with it a little fellow who had just a small expectation of completing his course. However, he has stayed with us and is still a member of the class.

It was not long before he attracted the attention of "Baldy" and life in his classes took on a new aspect. From the very first day, when he received a rather humorous moniker for murdering the English language, to the last class, where he sat in the front row of his Economics class, considered to be the only proper place for him, he rarely escaped his remarks. But we hope that this has not all been in vain and perhaps "some good may come out of New Jersey."

He has caused us some little consideration because he is still undecided as to the profession he will enter when he "grows up." His fate is undoubtedly settled in the eyes of the gods but as yet he has shown no signs of it. The least we can expect is that Lehigh has been more than a mere education to him.

"My goodness."

JOSEPH BUDDING DIETZ
Lancaster, Pa.

"Joe"

Ch. E.; Tennis Squad (1, 2, 3); Student Officer, R. O. T. C.; Chemical Society; Kappa Sigma.

FOUR years ago when "Joe" left Lancaster for Lehigh, he did so with the intention of conquering the scholastic world; but since then he has become aware that there are other worlds to conquer, for he has contracted that weakness for the other sex, so common to Lehigh men. They certainly give a rush—we wonder what the allurements is—probably his curly red hair. Some say it is something else!

"Joe" has not confined his activities to the above mentioned, for he has been working steadily with his tennis racquet believing that it is soon time for a Lehigh man to carry Tilden's crown away—but we will let him tell us about that in the "American" some day. Of course, a man cannot play tennis all his life; so "Joe" during his four years stay with us, has been getting the "cold dope" on how to be a world beating Chemical Engineer and we wish him all the success possible.

ATTILIO PERE DIGIULIAN

Washington, D. C.
"Reds" "Ape"

C.E.; Burr Board (3, 4); Class Football (1); Living Group Football (3); Section Chief (3); Senators Club, Treasurer (3, 4); Civil Engineering Society, Treasurer (3), Secretary (4); Tau Beta Pi.

AFTER trying to decide what college to honor by his presence, "Reds" played on a hunch and entered Lehigh with the class of '23. In the middle of his sophomore year he became ill, and withdrew from college for a year. His second advent came in due time and "Reds" cut out the fooling and began working in earnest with the result that he was rewarded by the Bent and the prayers of "Pinkie."

He now divides his time between bouts with "The Club" and discussing Pedagogy with—well, never mind who.

He, with "Wildeye Bill" as his assistant, has been engaged by the Babson Institute to prepare charts on the fluctuation of the quantity and quality of the so-called amber fluid. Since he is a countryman of the great Enrico, Attilio aspires to be a singer. Tough, "Reds," but Nature gyped you in that respect.

But in summation, Reds has shown that he has the "stuff" and is bound to succeed. All your friends are wishing you the best of luck.

"No kidding?"

KENNETH DONALDSON

Washington, D. C.

"Red" "Pinky"

C.E.; Manager of Tennis (4), Assistant Manager (3); Mustard and Cheese (3, 4); Wrestling Squad (2); Senators Club (3, 4); Phi Sigma Kappa.

REDS" hails from Washington, D. C., and due to the comely color of his hair was soon distinguished amongst the Frosh way back in the fall of 1920. He started out in his sophomore year to be a credit to his Alma Mater by learning the game of wrestling, and went to the mat, one famous smoker, battling a Japanese student.

Due to a little bothersome, recurring, thing called "mat itch" he was forced to leave the game and he turned to other fields of endeavor. He started as a recruit for chorus of the now famous Musical Show put on by the Mustard and Cheese in the spring of 1923. Success was not to be denied and he gained the position of lead-off man for the chorus and incidentally shook a mean foot.

About this time Reds began to take a deep interest in tennis and after much rolling of courts he now runs off the managerial job in great fashion. Everywhere the tennis team goes Reds is sure to follow. We wish you all kinds of luck, Reds.

"If any."

WILLIAM ROBERT DRAKE
Reading, Pa.

"Sparkie" "Grin" "Pretzel" "Bill"

C.E.; Berks-Lehigh Club (1, 2, 3, 4);
Civil Engineering Society.

ABOUT four years ago a timid looking young man alighted from the Queen of the Valley wondering as all engineers do whether he was entering for his own or Lehigh's good. He has probably found out that it was not the latter.

"Bill" came from that town of pretzel twistlers called Reading just about four years ago. Besides taking the Civil Engineering course at Lehigh he ventured to explore the deep mysteries of the feminine sex. That's what we call the spirit of the grave. However we have often wondered what influenced a certain Bethlehem girl to move to Reading because she can't see him as often as she might have in Bethlehem.

If you should ask any student on the campus who "Bill" Drake was he would answer in one of two ways. The first would be "Oh, that course crabber" while the second would be "He's a pretty bright fellow."

All joking aside we wish you a bright future and hope that some day we can get a pass when you become president of some great railroad.

"Well, I'll be damned."

WARREN NEWTON EDSON
Scranton, Pa.

"W. N." "Newt"

C.E.; Civil Engineering Society; Mechanical Engineering Society.

WARREN hails from Scranton, the native land of the coal-crackers, and cracking hard problems is his favorite occupation. In spite of this, his boyhood ambition was to invent something that would do away with all forms of work. With this idea in mind he enrolled in the Mechanical Engineering Course at Lehigh. Two years of this, however, taught him that mankind was fairly well off after all, and that his invention was not due for several thousand years. Refusing to be discouraged by having his fondest hopes blasted, he decided to build up the world and promptly changed to Civil Engineering. Thus far he has found his college course to be well suited for the foundation of his life's work, and with the approval of the faculty, will soon enter upon it. If his past achievements are any indication of those of the future, we are sure that he will be highly successful.

"Course Crabber."

ROBERT WILLIAM ENNIS
Mount Penn, Pa.

"Bob" "Deep" "Robbie"

C.E.; Cross Country Team (2, 3, 4); Track Team (2, 3, 4); First Honors in Mathematics (2); Second Honors in Physics (2); First Honors in Civil Engineering (3); Alumni Prizes (3); Civil Engineering Society.

ON the day Bob was born, nature was smiling, but fate laughed out loud—laughed because of the trick she had played on us. One would think by looking at this landscape that the boy must be terribly dumb, but in spite of this he has proven himself an A-1 student and a "man who knows his stuff." Robbie spends his spare time in trying to burn up the track. We often find him training overtime at the "Collie."

This fellow, "Deep," has captured some honors as a stellar student and we look to him to carry away more honors, not only in his Alma Mater, but for all time, wherever he may go. The effortless and confident manner in which he solves seemingly difficult problems, is an asset which is bound to put him in an enviable position, and he is sure to be a great credit to Lehigh.

"No kiddin'."

PAUL BUTLER FLECK
Pittsburgh, Pa.

"Pete" "Lead"

E.M.; Mining and Metallurgical Society; Theta Xi.

FOUR years ago the peace and quiet of the Dutch town of Bethlehem was quite abruptly and suddenly interrupted with the arrival of the shining light pictured above this article. Never before had "Pete" seen quite such a town as Bethlehem; it may likewise be said that Bethlehem had never had the pleasure of entertaining such a character as "Lead" before. For three years "Pete" remained perfectly contented with the fair ones of Bethlehem, but in his Senior year, growing tired of the Bethlehem brand, he switched his night headquarters over to Easton.

Paul is a young man of whims; he is never satisfied unless he is doing something different than the common herd. To such an extent has this tendency been carried lately that he has declared war on all meat and refuses to eat it. However to be different must have its advantages, for Rudyard Kipling's soldier said before he went crazy: "Oh, for something different!" Paul is just this "something different" that has kept many of his fellow students from losing their minds in the gruelling grind of studies.

"Hell with it."

DOSTER FOCHT

Trenton, N. J.

"Doc"

"Waubuno"

E.M.; Class Basketball (1); Football Squad (2); Lacrosse Squad (3, 4); Mining Society.

DOSTER entered Lehigh via Blair Academy fired with that determination, with which all freshmen seem to be possessed; namely, to break all records for study. However, while not very well acquainted with Doc's early days at college, it hardly seems possible that he wasted much time in finding that Bethlehem and vicinity offered many attractions for him other than merely scholastic. In fact Waubuno's reputation has spread to other parts of the world, and from the Canadian wilds come reports of his daring exploits while performing the duties of an Indian guide. This remarkable woodsman's instinct, so highly developed in him, probably helped in his startling discovery of the Cave.

Indeed this uncanny instinct should prove of great value to him in later life, after he enters the mining game, in discovering new gold mines or one thing or another. This together with Doc's good nature and his desire to play fair at all times should carry him far in his profession.

"Holy Smokes"

ROBERT LOUIS FRANKE

Johnstown, Pa.

"Diz"

"Bob"

B.A.; Sigma Chi.

HIS is "Bob's" first year at Lehigh and in the short time he has been here, he has made a host of friends for himself. Four years ago he entered Dickinson College with the idea of becoming a lawyer, but the fame of Lehigh attracted him to our midst and he has already assumed much of the cherished spirit of his new Alma Mater. In his previous three years at college he was an active personage on the campus and was among the organizers of the Press Club, which now sends the news of college activities to the newspapers of every town whose sons are at Dickinson. He has taken part in performances of the Dramatic Club and carried off many literary honors. Since coming to Lehigh his daily activities have been limited to Coppee Hall and the Library in pursuance of "Baldy's" well known assignments to the Journal of Commerce, but he has still found time to acquaint himself with many of those institutions not a part of a college course and has become truly one of us.

"Yeah?"

OTTO HERBERT FRITZSCHE

Irvington, N. J.

"Fritz"

"Herb"

C. E.

WHAT ho! what manner of man is this? No, people, you are wrong. 'Tis a Jersey mosquito. See his pretty smile? That's what makes all the fair damsels throng to him. Now you wouldn't think it to look at him, but it's so. Aside from sleeping, his favorite pastime is writing voluminous letters. We cannot say to whom, but he comes from "Baldy's" favorite state (Jersey), and so she must live there somewhere. Another thing he likes to do is to go to the gym and hide from Bart. But when he takes Geodesy he doesn't go at all.

However, Otto is a nice quiet sort of a cuss until someone does something he doesn't like. Then a long string of fine Civil Engineering language starts to emanate from his lips. But a good vocabulary is quite necessary to an engineer. So Fritz has a good start in that direction.

His fine qualities cover his little failings, as anyone who knows him will tell you. Because of this he is going to be a great success in his line—which, by the way, is extremely powerful.

"My Gosh!"

ELISHA GEE, JR.

Denver, Colo.

"Lish"

"WeeGee"

B.A.; Mustard and Cheese (2, 3, 4); Wrestling Squad (4); June Ball Committee; Class Day Committee; Cotillion; Scimitar; Kappa Beta Phi; Alpha Tau Omega.

ONE fine day, four years ago, our friend, Elisha Gee, hailing from Exeter, entered our midst. The record he made at Exeter was a good one and those who knew the wild westerner predicted great things for the youth from Denver, the city where the sun shines 363 days a year. Things have happened—yes, many things, and "WeeGee" has made good; it would be a most difficult thing to tell of all or even most of his numerous victories. In the classroom, on the campus, and on the gilded ballroom floor "WeeGee" has excelled and reached a degree of perfection which few have exceeded.

Who can foretell the future? From all indications we shall hear more from Elisha Gee. When "WeeGee" leaves college he is going back to the good old West and Denver. In leaving the East he leaves behind him a host of sincere friends—friends who wish him every success possible and we know that whatever happens "WeeGee" will come out on top.

"Howling poor form."

PAUL LeROY GERHART

Reading, Pa.

"Fat" "Puss" "Geary"

E.E.; Glee Club (1, 2, 3); Berks-Lehigh Club, Vice-President (3); Senior Electrical Football; Electrical Engineering Society.

ON that memorable day in September, 1902, the stork did a very usual thing. 'Twas only an innocent brown-eyed babe, and they named it Paul LeRoy. At Reading High we found him forging to the front, being graduated with honors, near the head of his class. Then he wisely chose Lehigh.

"Fat" really is an accomplished fellow, bringing forth unusual sounds from the piano, and being the song bird of his class. His mother said he was born with a "strong voice." He is always busily engaged in telling how he flunked the last quiz or final, but he is modest, and is really a bright fellow. "Geary", the handsome fellow with the laughing brown eyes, is a "prince of a chap" and when the time comes to settle down, he'll be of the settling kind.

Paul wants to take the place of Steinmetz, and we feel sure that whatever he does, success will be with him, and so we say bye-bye to him with our best wishes for a happy future.

"Jumpin' Christopher."

EDWARD WERREY GORHAM

Brooklyn, N. Y.

"Luke" "Ed"

Ch.E.; Band (1, 2, 3); Rifle Team (1); Sophomore Council; Scabbard and Blade (3, 4); Theta Xi.

EDWARD W. GORHAM of Brooklyn, New York, first drew his breath on July 11th, 1902. He at once signified his intention of making himself heard in this world. He is still following out his first intention. He prefers the loud speaker to the head piece.

After sliding through the public and high schools of Brooklyn in the easiest possible way, he managed to talk his way through the University in the regular four years' time, and now proposes to follow his early plans of becoming a political wind-jammer or nurse to the exhaust of an obsolete tin Lizzie.

As a member of the University band he early showed he was the outstanding figure in producing noise, and his retirement at the end of his third year brought peace and joy to University life, for his fellow students.

His machine gun practice was a record in M. S. & T. work. Although a target was never hit, the noise he managed to produce won the esteem of all his superiors and the envy of his comrades.

"Poosh 'em up"

GEORGE TINSLEY GRAHAM
Bethlehem, Pa.

"Tins" "George"

Bus. Ad.; Assistant Manager Soccer (3); Sophomore Cotillion; Chi Psi.

ES, gentle reader, this is "Tins" himself. This lad was born in the Mecca of all Meccas, some twenty-three years ago—yes, it was Souse Besslem.

After struggling manfully through the grades, he was turned over to "Scrap" and his assistants at Bethlehem Prep. for further instructions and in 1919 he was able to enter Lehigh, where he plugged along until the end of his Sophomore year and then you know how 'tis. "Tins" left school for a year, returning in 1922 to resume his studies. A year in the cold, cold world did him a lot of good for since his return to college he has buckled down to hard work and made sure that, in '24 he would receive the coveted sheepskin.

In closing let it be said that if more of us had his willingness to serve, his quiet attention to his own business, the success which will be his might be ours.

"No kidding."

GEORGE LORENZO GRAMBS
Scranton, Pa.

"Grambo" "Gaygorgos"

B. A.

ENTER "Grambo", the boy from Scranton. At an early age he exhausted the educational reservoir of Scranton Central High School then headed for Bethlehem and enrolled at Lehigh, where he has won a reputation of being a consistent worker, not only at his books, but in other lines of activity as well.

George is a pre-Divine, resident in Leonard Hall, and possesses the qualities and traits that a real preacher ought to have. Because of these we are certain that a great future is awaiting him.

He is bitterly opposed to the "Ku Kluxers" and often loses sleep arguing against them. The eagerness with which he devotes himself to any task that he undertakes assures all those interested that he will give a good account of himself.

When it comes to athletics "Grambo" is somewhat hindered due to his eye-sight, but in Tennis he displays the form that Tilden and "Sandy" Wiener have been trying to develop.

In short, he is a good scout. We feel certain that he will do justice to his profession immediately upon entering it. The Church has need of more such men.

"Will I, or won't I?"

HARRY ROSS GREER

Atlanta, Georgia.

"Ross"

"Greer"

B.A.; Arts and Science Club, Vice-President (4); Treasurer (3); Le Club de Quinze, Vice-President (4); St. Paul's Society, President (2, 4); Robert W. Blake Society, Secretary-Treasurer (4).

ROSS GREER was born under the erotic southern sun, and, hence, has always been precocious in matters of the heart. We have heard that he had his first love affair at the age of five, and that the first literary composition which ever came from his hand was a love-letter to his teacher.

It goes without saying that Ross is a capital student. But most of his energy has gone into his hobby, mentioned above. He has a way of quoting Dante, which makes Hell seem like a cottage built for two. His supreme achievement was made early in his senior year, when the chief female dignitary at Fem Sem allowed him to have Sunday afternoon tea there at the invitation of one of the teachers. As far as the records show, no other Lehigh undergraduate has ever done this.

Unless Ross decides to become a missionary, which is not very probable, he will most likely become Bishop of Bushkill Center.

"Ye Gods!"

CARROLL BREWSTER GRACE, JR.

Philadelphia, Pa.

"Brew"

"Pete"

M.E.; Soccer Team (2, 3, 4), Squad (1); Class Sergeant-at-Arms (2, 4); Class Relay Team (1); Varsity Club; Phi Club; Cotillion, Executive Committee; Mechanical Engineering Society; Delta Phi.

VOLUMES could be written about our friend C. Brewster Grace, Jr. Brewster is a good student, a hard worker, and has gone through Lehigh in a creditable manner; in the things he has tried, he has excelled. It seems only fair, however, to tell the truth; you boast that your life is on open book—let us turn to the index—under M—Oh, here it is—Mission furniture. Brewster, you are an honorable man,—did you, or did you not pay for the damage? Perhaps we should investigate some of the other letters in the index, but for Brew's sake we will leave this undone. "Brew" is a versatile youth—he reaches sublime heights, and then again he sinks to lower levels. Among his accomplishments we hear he is a good soccer player,—at least he kicked the winning goal in one of this season's games.

Brewster, you will get there,—in the future we expect to see you far ahead in the race of life.

"Darn if I know."

JAMES STEWART GRIM
Kutztown, Pa.

"Stew" "Benny" "Joe"

E.E.; Cheerleader (3, 4); Junior Oratorical Contest; Senior Electrical Football; Electrical Engineering Society, Vice-President (4); Tau Beta Pi; Delta Theta.

HAVE you ever heard of Kutztown? Kutztown is a place "somewhere in Pennsylvania," famous for its Normal School, Cave, and "Stew" Grim. No, he is not the author of the well known Fairy Tales, nor is he a relative of Grim Death. He is an embryo electrical engineer. His record seems to indicate that he chose the right course.

The "Bent" which dangles from his watch chain is evidence of the fact that he is doing something for Lehigh outside the classrooms.

Besides a strong and well trained mind, "Joe" has a strong and well trained voice. The strong part he used for leading cheers and the well trained part for the Glee Club. Both were howling successes.

Stewart is the type of man of whom Lehigh can well be proud; the kind of fellow it is good to know. He is always willing to lay his own work aside to help someone else. He leaves college with the best wishes of all his classmates. Good luck, "Bennie," old boy.

"Ding busted."

GEORGE HAMPTON
Bridgeton, N. J.

"Squire" "Cappie"

Ch.E.; Class Football (1, 2); Track Squad (2, 3); Second Honors in Chemical Engineering (3); Student Officer, R. O. T. C. (4); Arcadia (4); Scabbard and Blade; Chemical Society, President (4); Tau Beta Pi. Secretary (4).

IF you haven't heard of Bridgeton, New Jersey, I must tell you at the beginning that it is some little county seat and claims the distinction for its glass and peach industry and last but not least of being the birthplace of George.

The ability of an officer in the Army is measured by the amount of work he can get somebody else to do and so we must give "Hamp" credit for being an able captain. He has also many times come near causing a riot by his casual, but popular, words to his bunch of dirty Chemicals: "Refreshments will be served in the usual haunt below."

He has loafed as much as the rest of us, but he does things just so much better that we predict he won't be a beaker boy all his life. He threatens to desert Chemistry when he leaves here but all we can say in parting is that, even if he never learns to dance, he'll make good.

"Your dam-ned well right."

EDWARD PAUL HARTMANN

Bethlehem, Pa.

"Ed" "Eddie" "E. P."

Met.; Band (1, 2, 3, 4), Manager (3, 4); Leader (4); Metallurgical Society, Treasurer (3); Cotillion; T. P. Club; Mustard and Cheese (2); Square and Compass Club; Mining and Metallurgical Society (4); Delta Upsilon.

THE largest town on the Harrisburg Peneplain boasts of a famous steel mill whose products are internationally famous. But Bethlehem has produced a better known personage than the best tool steel heretofore made. "Eph" Hartmann started his career as a mechanical engineer in 1917, then changed to B. A., and finally gave Lehigh a year's rest while filling a job. He then decided that his course should be in the "scientific line" and started to master the baffling passageways of Metallurgy in the fall of 1921.

Ambidextrous, did you say? "Eddie" claims that he can play anything that makes music. Houdini with all his skill cannot be compared to "Eph" with a saxophone.

The way he leads the band down the field is symbolical of "Ed." Always leading the gang, whether in work or play, that summarizes "Eph." When the time for parting comes, we feel we will all lose a loyal friend; what more can be said of any man?

Here's luck to you, "Eddie"!

"Yes—if—if—if—if."

STANLEY LEROY HAUSER

Kutztown, Pa.

"Stan"

Met.; Manager of Track (4); Assistant Manager (3); Circulation Manager of Brown and White (4). Brown and White Board (3); Assistant Editor of Y. M. C. A. Handbook (4); Mining and Metallurgical Society, Curator; Band (1, 2, 3); Tapping Pot Club; Varsity Club; Cyanide; Sword and Crescent, Treasurer; Phi Sigma Kappa.

WE remember "Stan" as a freshman, a very quiet studious chap. He reminded us of one of those kind of fellows that goes about his business without bothering anyone much and not wanting to be bothered much himself. But we soon found out that we did not know the real "Stan."

In the course of his college career "Stan" has turned out to be a real live-wire, go-getter fellow. By patient plugging and personal merit he gradually accomplished success in many forms of college activities. In fact, by the time his senior year rolled around, between his college activities and his scholastic work he is so pressed for time that he can hardly do himself justice with the ladies.

Some day after "Stan" graduates we expect to see him as the successful owner of a large up to date foundry, putting into practice many of the things he has learned while at Lehigh.

"Say fellows."

RICHARD ARTHUR HAWKINS
Forty Fort, Pa.

"Dick" "Ray"

E.M.; Lehigh-Lackawanna-Luzerne Club; Mining Society; Arcadia (4).

OH!" you say, "Here's a man who has dedicated himself to the church." Well, gentle reader, we hate to fool you, but the above mug is an honest-to-God likeness of a notorious Koal Kracker from Forty-Mile (or is it Forty-Fort?). This miner, Hawkins, like most of his genus, is given to the use of evil-smelling pipes, ancient head-gear, and round, mouth-filling oaths. He may not be able to tell you how many angels can dance on the point of a needle, but ask him how many one-eyed Jacks in the deck.

Passing rapidly to a more pleasant side of this many faced personality, let us note that "Dick" is a lover of the Great Outdoors, a Man of the Open Spaces. In fact he often brings the outdoors in, shaped, shall we say, like a basket of trout, or a pocketfull of rocks.

However, that you may not judge too harshly, we note on the left-hand side of the balance sheet, that "Dick" is a man of his word and a good fellow to tie to.

"Say, Jack, where do you get that
"stuff?"

ROBERT AUGUSTUS HECKERT
Brackenridge, Pa.

"Bob" "Heck"

B.A.; First Prize in Junior Oratorical Contest; Arts and Science Club, President (4); Robert H. Blake Society, Vice-President (4); Professional Club (4); Y. M. C. A.; St. Paul's Society.

BOB" came to Lehigh in the Fall of '20 with a hearty smile on his face and the determination to make good his time spent in the halls on old South Mountain.

It is with a great deal of pleasure that we are able to say that at the end of his four years "Bob's" face still wears the same old smile. This smile not only shows that friendly is he whose face it adorns but also that he has been successful in what he has planned to do. For "Bob" has made good at Lehigh. Our hero came to Lehigh for an education, he knew how to get it, and he got it.

It seems to be "Bob's" ambition to tie samples of education in little packages and distribute them to the young fellows out around Pittsburgh in future years. Here's to you "Bob"—Success in all you undertake. May the future be as bright for you as your cheerful company has been to us in the past four years.

"Shucks."

FRANCIS LYNN HENDRICKSON
Woodbury, N. J.

"Henry" "Lin" "Flynn"

E.M.; Cotillion; Phi Club; Theta Delta Chi.

LYNN, more properly called "Handsome Harry," came to us from the sands and mosquitoes of South Jersey, having received his preliminary training at said locus. Finding the life very strenuous at Lehigh he soon began to flourish a few gray hairs which added dignity to the already dignified Beau Brummell. It did not take Lynn long to realize that education was spelled with a capital E, after which he migrated south to take up agriculture. Here he was inspired to take up Mining Engineering and once more made Lehigh his Alma Mater. We hope however that if he takes up a pick and shovel and digs for natural gas, and in the event that he is successful, he will remember that we have enough at Lehigh and will not pipe it here.

If Skipper does not keep him here in June we will look to see him with J. P. M. on Wall St. or else in the movies. We hope he will conquer that rich heiress of whom we hear so much, as yet he has not met the lady, so watch out, girls.

"Sleeping till nine tomorrow."

CHARLES ALBERT HEIMBROOK
Bethlehem, Pa.

"Heimie" "Kid"

Bus.Ad.

ON a summer day, back in 1900 the Happy Hamlet of Nuremberg, Pennsylvania, had its noonday siesta rudely broken by a succession of hitherto unheard of howls. All other methods of identification proving fruitless the town sport recognized it as the "Double Yell" of Lehigh. Members of the family being questioned it was brought to light that Charles A. Heimbrook had just been delivered by Stork Express and was letting the world know it.

Eleven years later the Happy Hamlet saw the last of the embryo Lehigh Frosh when his father removed to Bethlehem to acclimate his son to the rigors of Old South Mountain.

After breezing through Bethlehem High School with apparent ease and eclat, and having a natural bent toward mathematics he decided to take up Business Administration and who would blame him?

Anyway, taking his personality and the application to work he showed during his term at Lehigh as a criterion, we fail to see why in after years he should not bring credit to his Alma Mater and be the "howling" success he was reputed to be in his infancy.

"Oh, Hell."

WALTER GOTTLIEB HESKE
Bethlehem, Pa.

"Walt" "Steinmetz"
Met.

H EARTY laugh is heard. We turn around and sure enough, it's Walter, one of the easy-going Senior metallurgists.

After exhausting the knowledge obtainable at Bethlehem High School, he (Walter) decided to enter Lehigh. Although small in stature, he soon proved his excellence in scholarship and even more noticeably, his ability to "sling the bull." Although he is not president of his class, he has won the friendship and acquaintance of scores of men around college, due to his readiness and willingness to help his classmates. He even aspired to being a tutor but never got courage enough to ask monetary recompense.

Walter, however, does not like to be rushed, in fact he tries to get out of work at times. His chief obstacle for four years was not being able to get "gym" credit without going to the gym.

Not much is known about his social affiliations with the fair sex, but we have our suspicions.

Good luck to you, "Walt"!

"That's all bull."

EDWARD HASKELL HEWSON
Madison, N. J.

"Hack" "Ed" "Taxi" "Tickstrip"
N.E.

D ON'T rush, girls, this is only Edward Haskell Hewson, alias "Hack." He is one of those modest fellows who claim brains and good looks don't go together—hence his good looks.

Swarthmore High School had "Hack" thrust upon it and there he received most of his prep school training. Madison, N. J., had to finish the job. Swarthmore's co-eds were not enough attraction for September, 1919, found "Eddie" numbered among Lehigh's freshmen.

February, 1921, found E. H. Hewson listed with the class of 1924. To make a short story long, we just can't keep the women away from him. It was soon found our "Sheik" needed some protection and so our good friend, Rev. Trafford, took him under his wing and to date he seems to be performing his duty as well as can be expected.

Girls and socials seem to occupy most of "Ed's" time. When he has nothing else to do he attends classes in the Naval Engineering Department. We are hoping "Hack" will some day revolutionize the United States Merchant Marine.

"Pipe Down!"

CHARLES FRANCIS HILLER

Buchanan, Mich.

"Charlie" "Fran" "Heck"

B.A.; Wilbur Scholarship Prize; Junior Honors; Arts and Science Club; Club de Quinze, President (3); Deutscher Verein; Robert W. Blake Society.

THE District of Columbia and the state of Michigan are both contesting for the honor of having given "Charlie" to Lehigh. His youthful days were spent in Washington, but later he traveled westward and received his preparatory education in Buchanan High School. Youthful habits cannot be conquered, however, and every vacation sees "Charlie" suddenly transferred into Mr. Hiller on his way to the proud capital city.

His record at Lehigh is sufficient proof for even the most skeptical of the fact that when he is at school he does as the scholars do. He began by capturing the Wilbur Scholarship, the prize for the best standing in the Sophomore Class, and he continued this by taking first honors in the Junior year.

He says he is going to take an active part in life as a Michigan lumberman, but how he expects to overcome his inclination toward the fair—city we do not know. In any case we are sure that he will make good use of his Lehigh training.

"Yes, of course."

DAN PARMLEE HOAGLAND, JR.

Bayonne, N. J.

"Shorty" "Shrimp"

B.A.; President of Y. M. C. A. (4); Mustard and Cheese (3, 4); Circulation Manager of "1924 Epitome"; Class Historian (4); Cotillion; Cyanide; Chi Psi.

YEARS ago some enterprising citizen decided to capitalize the American's love of travel and speed by building a stream-line lunch room that resembled a cross between an interurban street car and an Erie Railroad caboose. It was a most ingenious device and the maker usually wrote in letters of gold in some conspicuous place, "Made in Bayonne, N. J."

As a member of the "Mustard and Cheese" cast he ably portrayed the native dance of old Erin as only a "Bayonner" could have done. The familiarity with which he was hailed at the 'Gym' testifies to his ability along athletic lines, although his abbreviated stature handicapped him in all sports where size was a prime requisite. As an active member and President of the Y. M. C. A. "Shorty" revealed his capacity for executive work. In short, he enjoyed his four years at Lehigh immensely and in the process managed to accomplish a good bit.

"Tough!"

WILLIAM HENRY HOMEYER
Jersey City, N. J.

"Whitey" "Herbie"

B.A.; Football Squad (4); Deutscher Verein; President (4); Class Secretary (3); Mustard and Cheese (3); Sophomore Council; Freshman German Prize; Arts and Science Club; Inkwell Club.

BILL has been sadly handicapped since birth. He is one of those chaps who come from "Down New York way"—you know—they leave the train at Manhattan Transfer with some casual remark about "down town" and "quicker this way, don't you know."

You've guessed it! He was born and raised in Jersey City. Someone got hold of Bill during his infancy and convinced him that a course at Lehigh would wipe out the unfortunate fact of his birthplace—at least, Lehigh has done it's best.

And Lehigh's best efforts have scored once more over Jersey City, for "Bill" has become a familiar figure about the campus. Naturally he has made mistakes—his early misfortune pursuing him no doubt. However, a glance above at his record will show that he retrieved the honor lost as a dancer by being chosen as chief "Deutscher" of the Deutscher Verein. Never mind, we'll continue to keep Jersey City on our list if they send more of "Bill's" calibre.

GEORGE WHITEFIELD HOPKINS
Jr.

Cleveland, Ohio.

"Hop"

M.E.; Burr Board (2, 3, 4, 5, 6); Art Editor (3, 6); Senior Class Book Committee; "1922 Epitome" Board; Arcadia, Prosecuting Attorney; Second Intercollegiate Conference, 1923; Pi Delta Epsilon; Cyanide; Psi Upsilon.

LOOKING up the historical records of the university in an era beyond the memory of this class, beside his name we see such entries as entered, dropped, re-entered, resigned, and re-re-entered. Indicating by the standards of the ancient wise men that he will win success thru perseverance. Also we noted his bill of lading, marked "Shipped from Cleveland."

Among the circles of the so-called "good mechanicals" he is well known as a "course-crabber," having only omitted on rare occasions to speak freely regarding the text books, professors quizzes, inventors, etc., and has even traced his troubles back to old "Asa" himself. With a sigh of relief his instructors will wish him the usual "tough luck." So this plumber drops the chase for a degree, picks up the hunt for a career—try and find it.

ALWIN JULIUS HOTTINGER

Kenvil, N. J.

"Hotty" "Hot"

Met.; Manager of Wrestling (4); Assistant Manager (3); Member of Intercollegiate Wrestling Association; Tapping Pot Club; Mining and Metallurgical Society, Vice-President (4); Football Squad (1, 2); Wrestling Squad (1); Lacrosse Squad (1); Junior Banquet Committee, Class Vice-President (4); Varsity Club; Cyanide; Interfraternity Council; Class Sports (1, 2); Sword and Crescent; Phi Sigma Kappa.

HOTTY" hails from the crossroads bearing the name of Kenvil, in that far-off country called New Jersey, where the only excitement is caused by an occasional explosion of the Hercules Powder Works.

This blond Swiss has been struggling with the mysteries of Metallurgy for four long years and oft times has put old Dan'l and his Lions to shame when it came to knocking off re-exams. However, he has always shown the fighting spirit and crashed through at the critical moment much to the chagrin of the "Nuttty" Physics and "Thorny" Math. departments. He is most deserving of future success and all of his college pals wish him the best of luck and happiness in Harrisburg and in life.

"Know your stuff?"

FRANCIS ALEXANDER HUNTER

Hoboken, N. J.

"Frank" "Jerry" "Bennie Havens"
"Oboken"

M. E.; Baseball Squad (1); Arcadia (4); Student Officer, R. O. T. C. (2, 3); Mechanical Engineering Society; Theta Kappa Phi.

HIS is a remarkable metropolis, that concentrated distillery dubbed "Hobucken" and may we not easily explain Frank's eccentricities by naming that city as his hailing port?

Evidently the famous appetite popularly ascribed to buck privates extend to the officers as well for Frank possesses a devastating desire for food in any form. His stay at West Point was responsible for this.

Frank's college days were somewhat rough and the biggest bump was Met Problems and Calculus, but he claims they aren't necessary for a city Treasurer.

We feel sorry for his future secretary as he developed a broken arm rather frequently and always had someone to handle his mailing list and thus slipped through many a tight squeeze.

Despite all difficulties he has managed to overcome the obstacles to the attainment of his ambition and—are we mistaken or do I hear the wedding bells tinkling faintly in the distance?

"Come heah, ya gol darned stinking Freshman."

HEBER ASHE INGOLS
Newark, N. J.

"Hebe"

Ch.E.; Delta Theta.

HE admits it," ladies and gentlemen, he admits that he left Williams to take up chemical engineering at Lehigh. We hope he has seen his mistake by this time. Soon after coming here he became a member of the Mountain Climbers Club by rooming at Taylor Hall. It was while living here that "Baldy" established Heber as our illustrious economist. Just ask him what we do with gold besides giving it away, at Christmas time. No doubt he knows now. Last summer the government at its own expense tried to make a soldier out of him at Camp Meade. We understand the week ends in Washington and Baltimore were glorious. At present Heber is our humorist in the daily grind. Wise cracks soon trace themselves to him; and then no work gets done. We often wonder why those reports never want to come in on time. Better see Heber and ask him if Nazareth is to blame.

"For crying out loud!"

JOHN JAY IVORY JAMIESON
Frackville, Pa.

"Jamie"

"Snoozzer"

Met.; Sigma Chi.

ON the fall of 1920 our little white haired hero, John Jay Ivory Jamieson, came out of the woods. He doesn't know why, but anyway, when the train stopped at Bethlehem, "Iv" piled off, saying to himself, "This looks like a fine place to start a pickle factory." However, upon looking the town over a little more closely, he discovered our University, so he gave up his original project and set out to make himself a great metallurgist. Of a naturally modest and retiring nature "Iv" at first said practically nothing and was very hard to become acquainted with, but like the proverbial clam he came out of his shell and since then has been a powerful factor in all sessions. "Iv", during his four years here, has also accomplished something else. He has won for himself the nickname of "Snoozzer" for at any time, day or night, "Iv" can always be found slumbering peacefully. In closing, "Iv" is a great boy with a wonderful disposition and I'm sure we all like him.

"What the Hun."

EARL HELMES JAMISON
Hazleton, Pa.

"Jamie" "Diesel"

M.E.; Class President (1); Kappa Sigma.

GOOD things come in small packages so tis often said and if you had "Jamie's" line of hull you'd knock them all dead.

"Jamie" always was strong for politics; we mean, of course, natural politics; he also is strong for national biscuits and cheese "tit-bits". It is said "Jamie" can talk politics with the best of the beer guzzlers (but then, who couldn't under those conditions)?

"Jamie" was born with a piston of a Diesel Engine in his hand. Although he cannot even reach the fly-wheel of this engine, that doesn't mean he's ignorant of its functioning; far from such.

Because of his close connection with aforesaid engine, he has begun to resemble one in operation; namely, full of compressed air and always sparking off; therefore, the boys dubbed him "Diesel".

But now coming back to earth, let's enumerate his good points; namely, genial personality, good disposition, connoisseur of good liquor and a judge of women, a gentleman and a scholar, so be it.

"Here it is."

GEORGE FRENCH JENKINS
Binghamton, N. Y.

"Jenks" "Junkie"

E.M.; Swimming Team (1, 2); Class Football (2); Mining and Metallurgical Society; Cotillion; Kappa Beta

Phi; Theta Delta Chi.

HAVING terrorized all the neighbors, teased all the girls and made friends with all the dogs in his native city of Binghamton, N. Y.; George shifted his sphere of operations to Cornell. There, failing in his policy of teasing the Profs. and having dreamed dreams of ever changing adventure in the fields of Mining Engineering, George changed his course and college.

During his four years at Lehigh, "Jenks" with his ever present smile, his remarkable personality and general good fellowship has won for himself many honors and warm friends.

Now having completed his four years of classes and having turned over half of the rocks in Lehigh and Northampton county, "Jenks" is on the threshold of realizing his youthful dreams. In years to come when the compiler of "Who's Who" turns the most eminent conqueror of the wilderness, his old class mates will not be surprised to learn that George is the man.

"What's the hurry?"

ALFRED WILLIAM JOHNSON

West Harford, Conn.

"Al" "Pop" "John"

E.E.; Musical Clubs (1, 2, 3); Interfraternity Council (4); Electrical Engineering Society; Alpha Chi Rho.

HE above is what "Pop" calls a "portrait." He admits he is a learned student of Electrical Engineering, no matter what "Bill" Esly has to say about it, and therefore he refused to have anything but a meditative pose occupying the above space.

After "John" had spent a year practicing the art of sailing Uncle Sam's ships on land, he decided he needed further education and he wasn't here a month before he found his decision was correct. He agrees with the rest of us that there are still a lot of things he doesn't know.

"Al" has that biggest asset a man can possess—a congenial personality and the ability to get along with anybody. Perhaps that is the reason for the most important event in his college career that happened last July 4th. We aren't quite certain what happened, but every time that date is mentioned he beams with joy.

Armed with these assets and the uncanny determination to attain the goal he sets, we feel sure that it will not be long before "Pop" will increase some future edition of "Who's Who."

"Hey Frosh."

GORDON TYRON JONES

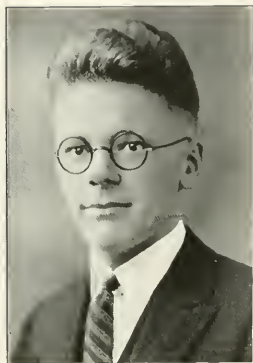

Edwardsville, Pa.

"Jonesy" "Joe"

B.A.; Lacrosse Team (3, 4); Arcadia, Treasurer (4); Y. M. C. A. Cabinet (4); Club de Quinze; Arts and Science Club; Sigma Nu.

JUST as there is a saying that all good things come in small packages—it can be established as a truism that people with the most commonplace of names may be the most extraordinarily gifted individuals—witness Jones. He was rescued from a dangerous locality—Edwardsville, his home town, being a coal mining center—by a vision of greater service. Obeying the call to "Go South, my lad, Go South," he came to this city of higher learning. After attending Bethlehem Prep for a year, he fairly jumped into Lehigh. That is, he must have jumped for he gained, and held throughout his four years here, a lead over many of his classmates in the field of college activities. We remember him as a thorough student, a congenial and trustworthy friend, the wielder of a mean club at lacrosse, and with all, ever faithful to the duties of his profession—the Ministry.

"Holt lightning on a limb."

RALPH JOSEPH KASPER
Ridgefield, Conn.

"Kas"

N.E.; Glee Club (3, 4).

IOOK here, look here; do you see this? Here is a real Connecticut Yankee. He hit this lonely burg only four short years ago, but look at the change; compare the two pictures. Now he's going to leave us for other ports. (Other ports is a fact, for he is one of the "Men of Lehigh" who is going to set the sea on fire). Now need more be said? What does everyone say of a sailor?

To be truthful, Ralph is a student. He was very seldom seen at the Col- lie, disporting himself among the lady (?) rodents; and as for "Bob's"—he couldn't go there. Explanation? He is bashful; that is, he doesn't like to be seen with his friends. But he has a reputation: he's the man who inspired the writing of "The Sheik." He is also the student addressed by Borden Room of "Burr" fame. Just ask him what he means by "Anything but that, Pa; anything but that."

But he's a gentleman—well liked by all. He's a thinker, and if he thinks over his work as he studied his proofs, his row-boat yard will be a success, with a large S.

"I'm bashful."

WALTER WILLIAM KEMMERER
Wind Gap, Pa.

"Kem" "Bill" "W'alt"

B.A.; Arts and Science Club, Secretary (4); Club de Quinze; Robert W. Blake Society.

ONE wild day in the latter part of March, twenty-one years ago, witnessed the arrival on this mundane sphere of "Bill." He passed his youth near Wind Gap under the shadow of the Blue Ridge and after annexing all the knowledge to be had in that breezy town he journeyed to Nazareth. Here he gained numerous honors scholastic and fistic and on graduation decided to come to Lehigh. So in the fall of 1920 he began his career on South Mountain bent eventually on becoming an engineer. However, as he ascended the scholastic heights he found his time calling and has fitted himself to be a pedagogue with the idea of becoming a missionary to his people, whom he hopes to dra; upward into the light of wisdom.

"Go roll yourself."

WILLIAM L. KITCHLINE

Bethlehem, Pa.

"Bill" "Kieky"

B.A.; Deutscher Verein, Secretary (4); Arts and Science Club.

MANUFACTURED in Bethlehem—here is a purely home-town product. Although "Bill" is rather short in stature and one of the youngest members of the class, he does not rank so low in his mental ability. This ability has not been shown as well in his classical subjects as in his engineering work, in which he seems to take a greater interest. His liking for mathematics is shown by the fact that he has taken some branch of it every term of the four years.

Living on the west side, quite a distance from College, the Lehigh Valley Transit Company has benefited by his attendance at Lehigh. It was a common sight to see "Bill" rush out of a classroom, and down the hill in close pursuit of a car, usually overtaking it at 3rd and New Streets.

"Bill" likes Lehigh so much that he intends to remain here two more years, in which he will take up engineering work. All we wish him in these years is the same amount of success that he has enjoyed throughout the last four years.

"I hope to tell you."

HERMAN EUGENE KIEFER, JR.

Quincy, Ill.

"Gene" "Kief" "Baron"

C.E.; Student Officer, R. O. T. C. (2); Arcadia (4); Civil Engineering Society; American Society of Civil Engineers; Theta Xi.

SOMETIME about the beginning of the twentieth century, there was born into this world, and added to the population of these United States, one Eugene. Rumor had it that the boy was descended from that famous ancient leader, Prince Eugene of Savoy—and well might this be so, for does not the name come from the Greek Eveyeios, meaning "well born, of noble race"?

Influenced by these early developing ambitions, he entered Lehigh and took up the study of Engineering. But being a true son of the twentieth century, he soon found that college life consisted by no means entirely of "trig" tables and steel cables, and entered unrestrainedly into the follies and foibles of the Jazz Age. He became a football fan, a sofa-salamander, sat up until 3 A. M. playing poker and munching pretzels in a supersaturated atmosphere of "Luckys," he danced, he learned the technique—and the thrill of cutting classes, he cut out Coles Phillips silk stocking ads, and wore his goloshes unbuckled thru winter snows.

"Well, Holy Hell!"

JOHN C. KITCHEN, JR.

Columbia, N. J.

"Kitch" "J. C."

Ch.E.; Class Basketball (1); Basketball Squad (3); William H. Chandler Chemistry Prizes (1, 2, 3); Wilbur Physics Prize (2); Second Honors in Mathematics (2); First Honors in Physics (2); First Honors in Chemical Engineering (3); Student Officer, R. O. T. C. (4); Chemical Society; American Chemical Society.

HOUGHT is the essence of all success.

The little town of Columbia lays claim as the birthplace and home of John.

He had not long been a student at Lehigh, having matriculated in the Chemical Engineering course, when he displayed brilliant ability in the line of work he pursued and naturally attained a very good scholastic record.

In the first year's of John's college career he gave most of his classmates the impression of being a misogynist. This impression, however, soon became vague when it was learned that "Kitch" left town quite frequently on a leave of absence to call on a fair damsel in Portland, Pa.

John steers for the copper industry, where success will undoubtedly crown his efforts.

"Wait till I write her a letter."

WALTER CONRAD KLEIN

"Walt"

"Shylock"

B.A.; Robert W. Blake Society, President (4); Club de Quinze, Secretary-Treasurer (4); Mustard and Cheese (3, 4); Price Prize for English Composition (1); Arts and Science Club.

OUR years ago, there came from Pottsville a youth whose name was Walter Klein. He was fair to look upon, resembling divine Apollo, and, consequently, during his first two years here "Walt" spent most of his time in the cave of Venus. The remainder he expended in the writing of erotic verse and of the composition which won the Price Prize.

At the beginning of his Junior year Walt went to work in earnest and has been working hard ever since. He has found his ideal and is working for it (?). His poetry is of a high order and I venture to prophesy that, as the years roll on, we shall hear of him from many quarters,—as a successful minister and writer, at least.

"Damnation!"

WALTER EARL KNOUSE

Washington, D. C.

"Walt"

E.E.; Band (1, 2, 3, 4); Senator's Club, Vice-Pres. and Secretary (4).

WALTER E. KNOUSE hails from Washington, D. C., the playground of the nation's representatives, and he has brought with him some of the humor and good natured geniality of that place.

At the beginning of his Junior year "Walt" pulled the biggest surprise of all by introducing to us his better half, a Washington belle by the name of Bauer, and we cannot help but think that "Walt" must have been a card shark in his day for he certainly has selected a "right bower."

To Walt also belongs the honor and privilege of being designated "pop" since he has the one and only bouncing baby, born while at school on September 21, 1923, and we feel justly proud of the class baby.

During his sojourn with us Walt has been a consistent and steady worker, but during his Senior year something has gone wrong. He has thrown caution to the winds and has gone in for higher math, which certainly deserves the name "higher." Tell us, if you can, was the lower atmosphere too cramped?

RAPHAEL KRAVITZ

Atlantic City, N. J.

"Ray"

E.M.; Sigma Alpha Mu.

ATLANTIC CITY'S representative to the Class of 1924 was a man who, during his high school career, made up his mind to go out into the world and try his luck in engineering.

In making his choice of colleges, it seemed only natural for him to choose Lehigh University. That September found him leaving the all-year-round resort for this great institute of learning.

The opening of school found "Ray" enrolled as a student in the Civil Engineering Department, but after two years of hard work he finally decided that he would much prefer Mining Engineering; he accordingly changed to "Skipper" Eckfeldt's popular department.

Although not an athlete, he has shown great interest in all branches of college activities.

When "Ray" marches down the aisle of Packer Chapel to receive that ever cherished sheepskin, Lehigh will lose one of her staunchest adherents.

"What do you say?"

JAMES PORTER LANGFITT

Parkersburg, W. Va.

"Pete" "Doc" "Snake"

B.A. and M.E.; Manager of Football (1924); Assistant Manager (3); Cyanide; Sigma Chi.

IN the fall of 1920 a mild and unassuming lad from the "Mountain State" registered at Lehigh, this person being none other than James Porter Langfitt. "Pete" had all the ear-marks indicative of a Lehigh man and showed the true spirit of the college in scholastic, athletic, and social activities. In his fourth year he reached the top wrung of the ladder in all three. In his selection as football manager for 1924, the college showed good judgment, for Porter will, through his keen insight and level headedness, render an invaluable service. It takes a good man to get two degrees in five years, but that is his objective and he will attain it. Although during his first two years Porter maintained that five years was a long time to stay in Bethlehem, so far north of West Virginia, however, in the last two he has found things more homelike and it is safe to say "That no greater love hath any man for Bethlehem (?) than he."

"What d'ya say?"

GEORGE AUGUST LAUX

Baltimore, Md.

"Aug"

M.E.; Tau Beta Pi.

GEORGE was not born in 1915; that was the year he graduated from the Baltimore Polytechnic Institute. After a lapse of six years the books came rather tough and though hard work cleared the fog away, it took Tau Beta Pi to convince him that he was not so dumb after all.

Besides, George had the added responsibility of keeping his handsome young brother (fully illustrated on our right) in the straight and narrow path. In this he was only partially successful and even George has been seen at the Colosseum on several occasions.

George is very quiet and even tempered except when aroused by such things as "Notes on Machine Design," at which times he becomes very violent and bursts forth with a vocabulary which could only be acquired after many years of experience. His wonderful talent was soon recognized and he was sought out by many students who lacked the proper phrase to completely express their opinion of a certain course or a certain professor.

George lives by the Golden Rule, only he improves upon it. His worst faults are his generosity and his modesty.

"Hello girls."

LOUIS ALBERT LAUX
Baltimore, Md.

"Lou"

M.E.; Rifle Team (3); Lehigh-Maryland Club, Secretary (4); Mechanical Engineering Society, Vice-President (4); Tau Beta Pi; Delta Theta.

C HIS comes from Baltimore, Md., where he graduated from B. P. I. He caught the faculty napping and managed to sneak in as a full fledged sophomore. However, he trotted out his stuff and now sports a Tau Bet key which he shines lustily before each quiz.

"Lou" has not confined all his energies to the books for he wields a mean musket on the rifle team.

Our "Lou" maintains that he is a confirmed bachelor. It may be so, but give him time, he is still growing.

Laux leaves Mr. Lehigh's College with the best wishes of his class mates and all Asa's sons expect great things of him in the near future.

"I Call."

BERTRAM RICH LEVY
Brooklyn, N. Y.

"Bert" "Rocks"

E.E.; Class Baseball (1, 2); Mustard and Cheese (3, 4); Electrician (4); Lyrics for Musical Show (3); Arcadia (4); Sophomore Council; Pi Lambda Phi.

C HE above sketch is none other than our own little "runt." "Bert" is a product of Boys High School, Brooklyn, which has but one claim to fame. (Editor's Note: See above diagram.)

On entering Lehigh, "Bert" aspired to the career of an Electrical Engineer, but since his sojourn here his enthusiasm has become dampened and he has lost his aspirations. He still continues to bear up under Bill Esty's line and the rest of the grind, awaiting the day when it's all over and the fight is won. Our near Adonis will no doubt engage in business as a silent partner in a certain well known firm.

We blush to tell of his many escapades with the fair ones and while this may seem like the usual line of "bunk"—"Bert" has figured in many a one and has come out unscathed.

With his pleasing disposition and willing, friendly manner, we can predict nothing but great success for him in his business and other endeavors. "Bert" goes forth from Lehigh with the stamp of our approval.

"Knock-out."

CHARLES FITTING LINGLE

Harrisburg, Pa.

"Buddy" "Chief"

Bus.; Basketball Team (1, 2, 3, 4), Captain (3, 4); Football Squad (1, 2, 3, 4); Varsity Club; Cyanide; Sword and Crescent; Sigma Chi.

UP from the wilds of central Pennsylvania came our "Buddy" four short years ago. Before entering Lehigh, "Buddy" went to Harrisburg Technical High School, where he was a football star, playing on that famous interscholastic championship team in the backfield next to Carl Beck.

"Buddy" will always be remembered here at Lehigh for his basketball playing. For four years he has been the mainstay of the team and for the past two years he has captained the team. This is quite a record for college basketball, but the crowning act in his basketball career was this year, when he and his teammate won two straight victories from our Maroon and White rivals from down the river.

"Buddy" also has quite a record as a weekender; he goes home nearly every weekend, supposedly to see the "folks," but murder will out, and those of us who have seen "her" certainly admire his taste.

The "Chief" has had tough sledding with his studies, but stick to it and you'll get that "dip" yet, old scout. We wish you the best of luck, "Buddy."

HARRY THEODORE LITKE

Millville, N. J.

"Hoto" "H. T."

C.E.; Business Manager of 1924 Epitome; Varsity Cheer Leader (2, 3, 4); Band (1, 2, 3, 4); Musical Clubs (2, 3, 4), Business Manager (4); Burr Board (1, 2, 3, 4), Advertising Manager (4); Class Track (1, 2); Senior Class Book Committee; Civil Society; Sword and Crescent, Vice-President; Cyanide; Pi Delta Epsilon (3, 4), President (4); Delta Upsilon.

CONFIDENTIALLY, we are told that Harry furnished the inspiration for "The Sheik"; and who can tell for even stranger things than that have marred the serenity of South Bethlehem. We do not know however that the famed "Dapper Dan" has nothing on "H. T." as a high stepper among the "five hundred" of B-thorpe and Cedar Crest.

As a man-about-campus "H. T." can't be matched. A glance at the above activity list will furnish several eye-fuls for the most skeptical. We have been reliably informed that he has as many activities as Steinmetz has degrees. Among the problems which the C.E. Department will puzzle coming generations is to calculate the stresses set up in "H. T.'s" watch chain by a concentrated load of 27 gold charms at its center.

"By Golly."

WILLOUGHBY JAMES LONG

Bethlehem, Pa.

"Bill"

Met.; Interfraternity Council; Scabbard and Blade; Theta Xi.

BILL" came to Lehigh from Bethlehem Preparatory School armed with a firm resolve to master the problems and to conquer the difficulties of the course in Metallurgy. After successfully weathering tempestuous seas of Hydraulics and groping thru a maze of Integral Calculus he forged to the top like a cork.

"Bill's" act however is one of brilliant audacity in the case of the restless sex. His power of command, his striking delivery and his convincing repartee has driven more than one social contemporary to seek revenge in a reduced volume of social etiquette. But in all this it is "Bill's" inveterate habit of coming to classes every morning in a car that shows earnestness of purpose. Yes, you are right, the car is a Brill.

"Bill's" affable disposition, as a source of sparkling humor and his intense desire to be fair in Collegiate Activities have achieved for him the sincere wishes of his class. We judge by the past and have no fear of the future. Success to you, "Bill."

"How about that now?"

EDWARD THOMAS WARREN
LORD

"E. T. W."

"Ed"

Philadelphia, Pa.

Ch.E.; Student Officer, R. O. T. C.; Chemical Society, American Chemical Society.

EAZE, dear reader, upon the man from Tioga! Consider his intelligent look! His parents thought that he looked intelligent the third day after he was born. Of this he assures us, however, that he remembers nothing. "But why," say you, "is this handsome young man called 'the Man from Tioga'?" Therein lies no secret. 'Twas in the class of the august Professor Stewart that he received that name. A name which does honor to the bearer of it; and to that select district of the City of Philadelphia. "Where," said the professor, gazing down from his professorial heights, "do you come from?" "We," said Edward, "call it Tioga." The professor continued to gaze down from his professorial heights, licked his pencil point, held it over his mysterious little book, and then remarked: "Well so do WE."

But hark! 'Tis whispered that it is not only in the class-room that Edward shines! Consider that he may resemble a certain former movie actor who uses the hair tonic known as "Vaseline."

"I don't know."

DONALD CAMERON LUCE
"Don" "Cam" "Joe"

Scranton, Pa.

E.E.; Baseball Squad (3, 4); Cotillion;
 Secretary A. I. E. E.; Cyanide, Sigma
 Chi.

SOME years ago, to be exact it was four, there was more or less chaos in one of our leading mining centers. This was caused by the discovery of an electrical genius in the embryo in the personage of Donald Cameron Luce. And so it was that he descended upon Lehigh where Asa Packer molds the destinies of such men. Of "Don's" success we are certain for such determined efforts cannot go unrewarded, especially when linked with a happy smile and cheery hello as all receive when they come in contact with him. We are still a bit doubtful as to why he desires a position with the Public Service of New Jersey; however, we are sure he will gain as many honors in this field as in college which were of the very highest.

"T'll bite."

ADRIAN MORRELL MacKENZIE
"Mac" "Ad"

Englewood, N. J.

Bus.Ad.

HWAY back in the dark ages of 1901, the little town of Englewood, N. J., was honored by the appearance of a so-called "Scott." "Mac" says only the name is left, but "Baldy" kind of made him live up to it.

He and "Art", the inseparable buddies, though on the verge of crabbing the course at times, deserve credit for living over on the North Side and hiking it, every day, just for the privilege of paying toll for four (4) years.

Disdaining the ordinary pleasures of life, this Jerseyite, rose from the humble and humiliating position of a freshman, to the dizzy heights of a Senior, seeing many drop by the wayside and profiting by their example. His diploma seemed to be a magnet for him and drew him on.

If he makes out in life as well as he did at Lehigh he has no "kick comin." So here's luck to you, Mac.

"Honest!"

SIDNEY THOMPSON MacKENZIE
"Sid" "Mac"

Philadelphia, Pa.

N.E.; Class Secretary (2); Class Football (1, 2); Football Squad (2); Lacrosse Team (3, 4); Squad (1, 2); Cotillion; Phi; Scimitar; Cyanide; Delta Phi.

ONE day in September, four tumultuous years ago, an observant loiterer at the Lehigh Valley station watched the passengers alight from the Philadelphia express, just arrived. His glance passed from one individual to another until it rested on a tall gaunt youth nervously toying with his baggage. Little would one suspect that this curly-haired, awkward freshman was Sidney Thompson MacKenzie, later to become the perfect man and no less perfect lover.

"Sid" came to us fresh from Germantown Academy—he made friends from the first—his achievements are numerous—a boy with many virtues and to be truthful fewer vices—he is good natured and his smile seems to be a heart breaker; that is judging from the number of affairs he has had. However, we wouldn't say he was exactly fickle.

We feel "Sid" will deliver the goods—he's got everything to his credit and if his business ability is as good as his line we need have no fears as to what he will do in the future.

"I'll hite! What?"

JOSEPH A. MAGUIRE
Bethlehem, Pa.

"Mac" "Joe" "Molly"
B.A.; Cadet Major, R. O. T. C. (4); Scabbard and Blade, Captain (4); Lehigh University Catholic Club, President (4); Class Baseball (1); Class Football (2); Class Track (2); Deutscher Verein; Junior Banquet Committee; Senior Class Book Committee; Chemical Society (1, 2).

JOSEPH ANTHONY MAGUIRE, affectionately known as "Mac", was born on January 29, 1900, in Philadelphia, Pa. He entered Penn University in the fall of '18. The following year he decided to step out and meet the cruel world face to face. As with everything else, "Mac" was successful at his work but still he was not satisfied. The thirst for real knowledge became stimulated once more. After considering several well-known seats of learning, he finally decided on Lehigh and in his own opinion he could not have made a wiser choice. Anyone, glancing at the record he has made during the four years of his sojourn hereabouts, will readily see the type of man he is. With his scholastic training almost completed, the friends of "Joe" Maguire, to a man, wish him all the success and honors that can be attained by humans as they believe him to be a man among men and deserving of the best.

"Chick."

WILLIAM SAMUEL MAJOR
Roebling, N. J.

"Bill"

Ch.E.; Chemical Society, Secretary (3).

BE'S little but he's nice." "Bill" is a small man from a gross and much famed city—we shan't tell you what the city is for such might constitute the anti-climax to what we just said.

Well, anyway this little package of flesh seems to possess some winning ways, by means of which he has made many life-long acquaintances. This holds especially true for members of the fairer sex. It was learned that he is a strong believer in WINE, WOMAN, and SONG. However, the consensus of opinion of his classmates is that he can't sing, so he decided to make up for this deficiency by laying much stress on the remaining two.

He seems to be quite industrious, but he is a firm believer in "Safety First." This statement was ascertained by the fact that when he opens or closes a switch in the Laboratory he closes his eyes and trusts to luck that everything will be O. K.

We remain uninformed as to what career "Bill" will follow, but wherever he goes, may he fare well.

LEON NATHANIEL MANDELL
Philadelphia, Pa.

"Shorty" "Rout"

Ch.E.; Class Baseball (1); Class Basketball (1); Soccer Squad (3, 4); Student Officer, R. O. T. C. (4); Chemical Society.

OH, would some power the gift
gie us,
To see ourselves as others see us.

"A Short Interesting Student", some one has cut out and pasted above his door in Taylor Hall. Behold him as Section Chief trying to make the freshman behave. With seventeen freshman running loose in the section, what do you think of his chances. Everything has its limits and he is just discovering what shortness limits.

"Shorty" as we call him in the chemical course came to Lehigh from Frankford High, Philadelphia. Here he had bluffed his way through somehow. The first summer at Plattsburg, we will mention in passing, he says he had a glorious time. This fall almost every afternoon in the week one may see him urging the soccer scrubs along. He is captain, and in the special games often earns a victory for the team. On Wednesday's he is still on the upper field drilling a platoon.

Then after all is said and done, what more can be done.

"How would you like to—"

FREDERICK THURMAN MARTIN
Harrisburg, Pa.

"Fritz" "Cholly" "Abc" "Pasteur"

Ch.E.; Chemical Society; American
Chemical Society.

WHAT have we here? Turn back the pages of recorded time, and if you can find another such human specimen as this, then you will have succeeded where the writer of these lines (a most patient man) has failed. Few there are, indeed, who can boast of being unique, but among them our scientific friend takes a prominent place. Scientific? Aye! And more than that. Fritz is a strange bundle of contrasts. On one hand the chemist, the physicist, the engineer, and on the other, the lover of beauty, art and culture! One who will take photographs of a good-looking damsel, "for scientific purposes," but who would shy at being introduced. The careful, painstaking student of such chivalric arts as fencing, but one who avoids presenting his best side to the fair sex. "Curses," he says, "on these college snakes who bandle their hair! I'll have none of it!" He is a lover of hoary ancient lore and magic, yet at the same time he is commutating the cost per cubic foot of the most improved form of salt factory.

WARREN S. MASTER
Reading, Pa.

"Met" "Dutch"

E.E.; Berks-Lehigh Club, Secretary
(3); Electrical Engineering Society.

HIS boy sometimes called "Met" but most commonly known as "Dutch," first saw light in the city of Reading, Pennsylvania, and not in Allentown as the name would imply.

There he grew up, after a fashion; and after graduating from the Reading High School he entered Perkiomen at the age of 16 and there completed his preparation for college.

It had always been his intention to become an engineer; and it was this idea, coupled with ambition and desire to do big things, that brought him to Lehigh. Even from the beginning of his high school career he had taken a great liking to drawing and had made it one of his favorite pastimes.

His favorite pastimes now seem to be going to the Colly and discussing automobiles.

Around the campus he is famous for his ability to juggle such strange things as "Electrons" and "Amperes"; in fact, it is believed that he once disintegrated an entire coulomb at the unbelievable rate of .0026 Beavers per second.

The class wishes you success so go-get-it.

"Care beful."

THOMAS MAXWELL
Baltimore, Md.

"Tiny" "Tom" "Wang" "Legs"
E.E.; Lacrosse Squad (2, 3, 4); Lehigh Maryland Club, Vice-President (4); St. Paul's Society; Electrical Engineering Society; A. I. E. E.; Theta Xi.

BALTIMORE has given us Poe, Bonaparte and Babe Ruth, but the greatest of these is Maxwell. This typewriting engineer came to Lehigh from Baltimore Polytechnic Institute with ambition to be an Electrical Engineer. Buffeted about by surging passions and beset on every side by Laboratory Reports, "Tom," like "old Penn," fought on—and conquered. How do you like that, "Tiny"? Nevertheless, "Tom" has been a member of the lacrosse squad for three years and has been "right smart" in pulling 'em out of the air. Perhaps we might also allude to his catalogued list of eligibles which he leaves as a memorial to the most debonair freshman.

"Tom's" ability to take part in college activities and at the same time keep up well in his studies and his general attitude has won for him the admiration of his entire class. We have no fear for his success and we shall have sympathy for his competitors, because it is "Tom."

"Damn-fi-know."

JOSEPH ALOYSIUS McBRIDE
Philadelphia, Pa.

"Mac" "Confidential" "The Fly"
M.E.; Lacrosse Team (3, 4); Class Baseball (1); Arcadia (3); Theta Kappa Phi.

MAC in the days of not so long ago, a laughing-lipped lad from Frankford-on-the-L, eager to glean "info" of a mechanical nature, stepped into our midst, and while he has done some "stepping" since then, it wasn't in that part of Lehigh's anatomy known as the aforementioned "midst." Boy, page "Confidential" McBride.

Next to strutting down the main drag, with his goulashes unbuckled, "Joe's" fondest pleasure is telling "parlor" stories. Of course the nature of the stories depends upon the contents of the parlor at that time. Now, boy, page Miss ———, of Pittsburgh. Girls, you must be from the home of Carnegie "Tech" or you don't rate with "Our Joe."

"Confidential" has a peculiar habit of taking you aside, as tho he were about to relate some "juicy" scandal or give you the inside dope on "Who's what and why," even tho it is merely to ask "What time is it?"

In "Lehigh Men Who Are," 1928 edition, we feel sure that a certain page will be devoted to the achievements of the Hon. J. A. McBride.

"ATTABOY JOE."

"That indefinable subtle something."

ROBERT LESTER McINTIRE
Butler, Pa.

"Bob" "Mack"

Bus.Ad.; Cotillion; Theta Delta Chi.

ROBERT LESTER hails from that town which lies just out in the sticks north of Pittsburgh, called Butler. After pursuing the role of the town "beau brummel" he invaded Bethlehem one bright fall morning in 1920 in hopes of taking the town by storm. After going thru all the necessities he settled down to the task of becoming an M.E., but after a year of this he saw his mistake and immediately took to the arduous task of changing his course, and finally entered the Business College.

In college, Bob has been successful in every sense of the word. Friends, honors, and the respect of his fellows are his. Being a great follower of the trend of mind of those gentlemen who are upsetting all the dope in Russia he has caused numerous flurries in many of his classes and more than one professor has had to admit his cleverness and ability along the socialistic lines.

If his future success is marked by his present ability we have no fear for Robert's position when he returns for his twenty-fifth reunion.

"Great Guns!"

RUSSELL HENRY METZNER
Wheeling, W. Va.

"Metz" "Rus"

M.E.; Cotillion; Theta Delta Chi.

DURING the breezy month of September, 1920, the young gentleman pictured above blew into our fair midst. "Russ" hails from the wilds of West Virginia, that state of beautiful women and corn "likker," but in order to fool the boys, he spent two years at Exeter, absorbing the New England atmosphere.

During his four years here, "Russ" has been quite the student, in fact, he has earned in some circles the worthy title of "Course Crabber." It is also rumored that "Russ" made Tau Beta Pi, but being of a retiring and modest nature, declined the honor, because of the publicity attached thereto.

"Russ" claims he is sure of at least two things in his young life, that he is going to be a bachelor, and that he will post-grad at Harvard for a while. The writer is inclined to doubt both of these assertions. He predicts the advent of some sweet little lady, who will cause Russ to take a sudden and awful flop. Having thus been inveigled, the bachelorhood and Harvard plans will be out, Russ will settle down in the holy state of Matrimony.

"Good Heavens."

WILLIAM CHARLES MEYER
Bethlehem, Pa.

"Bill" "Bennie"

E.E.

IND now we come to our old friend "Bill" Meyer. Back in the 90's when "Bill" was born things were distributed in generous proportions. As a result, "Bill" feels somewhat above his classmates. You see, he stands about 6 ft. 4 in his stockings.

"Bill" has always lived at home, and, of course, under parental eye has naturally applied himself assiduously to his studies—usually spending not more than six nights a week out. You see "Bill" is a very popular young man in his own home town. Also there are the young ladies. But you would be surprised how "Bill" comes up smiling; he never repeats a subject and is very little worried by finals.

"Bill" is undoubtedly the most amiable man in the class. If you feel inclined to dispute this just read what follows and forever remain silent. You know "Bill" is a radio shark; also, "Bill" has taken several lectures and lab. courses with the "Dutchman." Recently, "Bill" spent considerable time helping the "Dutchman" set up a radio in his home. Can you beat that for a good natured, forgiving character?

"Now, let's see."

PHILIP ROBERT MILLER
Bethlehem, Pa.

"Phil" "Bob"

B.A.; Deutscher Verein; Pre-Medical Society, Vice-President (4); Pi Lambda Phi.

IN spite of the fact that Philip Robert Miller was born and bred in Bethlehem, he really isn't such a bad sort of fellow. It is true that he seemed satisfied to live here for twenty years, but at least he spent four of these years in the best place in Bethlehem—Lehigh!

For some reason "Phil" wants to be a doctor. We think we know why, but, of course, that's a secret. But then it does mean at least eight years of college, which is a lot easier than being thrown out into the cruel world; especially, if you like to take things easy. "Phil" isn't lazy or anything like that, but he has never been over-anxious to be introduced to work. "Phil" is the Colly's steadiest customer; not because he likes the Colly, but because a dance is a dance.

Colly excepted, Organic is "Phil's" favorite indoor sport and anything less than a 9.5 makes him feel bad.

But virtue will be rewarded and some day we hope to hear great things of Dr. Paul R. Miller.

"Not so bad."

JOHN RALPH MILLIGAN
East Liverpool, Ohio

"Jerry" "Ulster"

Bus.Ad.; Mandolin Club; Arcadia (3);
Sigma Phi Epsilon.

UNFORTUNATELY, "Jerry" was forced to give up hope of ever being President when he opened his eyes on the morning of March 3, 1901, and found that the stork had dropped him in Cameron, W. Va., a few miles across the Ohio line.

His career as a scholar started at the institutions of the aforementioned town and when he had learned all there was to be taught there Lehigh claimed him as one of her victims and for four years he dodged the boss on the hill. His principal reason for not making "Phi Bet" was to keep the school free from autocracy.

Among the "Colli"ege Girls Jerry was quite the Duke and many of them were captivated by his English ways. One of the damsels was quite disappointed when in reply to her question if he was from London, he said, "No, from Liverpool."

"Jerry" expects to spend the next few years showing the gas companies the correct way to handle the business end of their operations. We wish him all the success possible.

"What gozzon here?"

CHARLES BAYARD MITCHELL II.
Woodbury, N. J.

"Mitch" "Bugle"

E.M.; Football Squad (1, 2, 3); Baseball Squad (1); Lacrosse Team (3, 4); Squad (2); Golf Team (3, 4); Class Football (1, 2); Freshman Banquet Committee; Cotillion; Arcadia; Chairman, Arcadia Dance Committee; Y. M. C. A. Cabinet (4); Mining and Metallurgical Society; Kappa Beta Phi; First Honors Mining and Metallurgical Engineering (3); Tau Beta Pi; Theta Delta Chi.

CHARLES BAYARD MITCHELL 2ND, better known as "Bugle", came to us just four years ago as a Jersey mosquito. "Bugle" hailed first from Penn Charter, Philadelphia, where he was captain of football and an all-scholastic halfback. He has developed here at Lehigh into a great golfer, the little he has had time to play the game with the other activities he has been connected with, and is a fairly good lacrosse player, having played in several games last year. "Mitch" has scrubbed four years on the football team, has proven himself worthy of the golf team, and should have his letter in Lacrosse before the year is out. "Mitch" has, in conjunction with his athletic work, won the highest honor of an engineer and that is Tau Beta Pi. He has left a hole here in college ranks that will be hard to fill.

MYRON TURNER MOORE

Youngstown, Ohio.

"Mike" "Empty" "Dinty"

Bus.Ad.; Sophomore Banquet Committee; Junior Banquet Committee; Kappa Sigma.

MANY times we have wondered whether "Mike" couldn't be classed as one of the original Three Wise Men. He came to Lehigh a worn, plodding engineer, and to say the least, a near benedict. But times are modern and "Mike" is now an able business man—carefree and girlfriend. Of late we are beginning to doubt the latter, for from all possible news sources, "Mike" is now traveling back over the old (fe)mail list!

But alas, he claims he is strictly in love, and we wish him luck in this venture. As fortune has played a great number of cards in his favor, he possesses an enviable record of good scholarship, a winsome smile, and an engaging way with the women.

We have no cause to doubt that in some future time, "Mike" will bring honor to the Buckeye State and Lehigh.

"No kidding or nothing."

HENRY PARSONS PALMER

Langhorne, Pa.

"Deacon" "Hank"

C.E.; Cheer Leader (2, 3, 4); Soccer Squad (1); Assistant Manager Basketball (3); Class Historian (1); Class Banquet Committee (1); Class Dance Committee (1); Cotillion, Treasurer; Phi; Scimitar; Kappa Beta Phi; Cyanide; Delta Phi.

BACK in 1900 the Palmers celebrated the big event of "Deacon's" birth. From then on this became one of the historical dates in Langhorne, Pa. After graduating from George School, Henry entered Lehigh, where he enrolled in the Civil Engineering Course. For four years Bethlehem society has been exceptionally increased by the presence of "Deacon", who can be seen at every social event of the valley—until now, Bethlehem looks forward with dread for the duller years to come after the departure of his glowing personality. But, perhaps, sometime in the years to come, there may be more Palmers at Lehigh. But Henry's years at college have not been devoted entirely to academic and social activities—for he has been a factor in managerial competitions and a cheer leader who will be remembered for years.

"Damn if I know."

DONALD ADELBERT PARSONS
New Rochelle, N. Y.

"Don" "Aloysious" "Pars"

M.E.; Swimming Team (2, 3, 4); Glee Club (1); Deutscher Verein, Treasurer (4); American Society of Mechanical Engineers.

 HIS young gentleman hails from a place called New Rochelle which according to all indications is a village in the vicinity of "Noo Yok." Notwithstanding this enormous handicap Don has managed to face the world with a smile which is indeed a great achievement.

Donald has been known to leave the splendid city of "Souise Besslem" quite frequently over the weekends for the wilds in which New Rochelle is located. There surely must be a cause. It is known that he goes home to see how the Haynes is running and that it wouldn't do for him to let his college work interfere with the management of such a good ear.

Donald has worked hard while here at this University, and his greatest desire is to get his sheepskin. He will probably, like the rest of the M.E.'s spend his time after graduation chasing B. T. U.'s or entropy.

We wish him the best of success.

"See!! Is that so!!!"

JOHN ALEXANDER PATTERSON, JR.

Bywood, Pa.

"Pat" "Jap"

Ch.E.; Class Baseball (1); Class Football (2); Chemical Society.

 VERY season is marked by some outstanding event. Witness the fall of 1901, when on the 17th of September, "Pat" made his bow to what is known as modern civilization in the "City of Brotherly Love."

After graduating from West Philadelphia High School, his thirst for knowledge pointed the way to old South Mountain. So, in the fall of 1920, he migrated to Bethlehem and informed "Thorny of his intention to revolutionize the Chemical industry.

Being a cosmopolitan young fellow, "Pat" soon became a resident of the City of Bethlehem. For, besides spending the time here during the regular college year, he has not missed a single Summer School. It was during Summer School that he acquired the mania for tennis and when no classes were in progress, he could frequently be seen pursuing the elusive ball around the court.

He has been observed quite frequently taking the P. & R. flier to "Philly." No one can be sure as to the object of these visits, but in all cases of doubt, *cherchez la femme*.

He intends to go into the chemical field as an engineer.

"Want to play pinochle?"

FREDERICK JOSEPH PEARSON
Wilkes-Barre, Pa.

"Freddy"

"Fritz"

B.A.; Club de Quinze; Vice-President (3); Robert W. Blake Society.

 THREE years ago last fall, a large portmanteau was observed moving up Delaware avenue towards Leonard Hall. As it drew nearer, who should be revealed as the motive power of this piece of baggage but "Fred" Pearson. He entombed himself in his room and spent the first night of his college life in study. This has brought its full compensations, and "Fred" is among the scholastic elect.

Recently, however, he has begun to do his work merely as an avocation. What will happen? He will probably teach Church History at a theological seminary, and marry her when he reaches his professorship.

"Good!"

JOHN MARSHALL PIERSOL
Philadelphia, Pa.

"Piery"

"Abe"

E.M.; Mustard and Cheese (3, 4); President of Mining and Metallurgical Society (4); Sophomore Banquet Committee; Junior Prom Committee; Senior Class Book Committee; Interfraternity Council (2, 3, 4); Cotillion; Scimitar; Cyanide; Delta Tau Delta.

 HE time-honored adage, "Variety is the spice of life," appealed to "Piery" even from his early childhood, so after his first exposure to studies at the William Penn Charter School he plunged into a collegiate atmosphere. Fortunately for him, as the newness of college wore off, another chance for variety in the form of army beans beckoned, and we next see him in the Tank Corps.

When France had been made interesting for tourists, "Piery" returned to Penn and resumed his attendance at classes. One year on the "trolley car campus", and his desire for variety again got the upper hand. Having already been a member of the classes of 1921-1923, our own 1924 was a strong attraction so he enrolled at Lehigh in the fall of our Freshman year.

In choosing the Mining profession we feel that he has made a wise decision and that never again will his longing for variety be unfulfilled.

ELDRIDGE EDWARD QUINLAN
Yonkers, N. Y.

"Quinny" "Blossom"

Bus.Ad.; Scimitar; Chi Phi.

ON Pre-Volstead days the City of Newark was famous for its sixteen breweries. Those days are gone forever, but fame has come to it through other channels, for it was from this fair city that our Eldridge came in the fall of 1920, to enter Lehigh.

Unschool'd in the ways of the world as a freshman he early acquired those graces which mark the man of affairs. In fact the events of his early career at Lehigh kept the editor of Town Topics busy. However, under the able instruction of "Baldy" and with the aid of "me notes," wisdom came. He is blessed with a frankness, intelligence, keen perception, and ability to back up what he says.

"Quinny" has been seen often of late in a racy car, but this mystery is easily solved, for one has but to "cherchez la femme" and, voila, it is solved. Seriously, though, if frankness of speech and a likeable disposition count for anything, more will be heard of "Quinny" in the years to come.

"Hey, Course Crabber!"

THEODORE HORACE RAKESTRAW
Bethlehem, Pa.

"Ted" "Big-boy"

E.M.; Mining and Metallurgical Society.

THEODORE H. RAKESTRAW, erstwhile "Ted," was born in the land of Stoke-Pogys and marrow pie; from whence he migrated at an early age to Roumania. When the Germans overran that country, "Ted" soon saw the errors of his ways and hied him to the good old U. S. A. Here he is a law abiding citizen, if he can be said to abide anything or any place, for this is the crux of the matter, gentle reader: "T. H." has tingling soles that ache to tread God's great, free, open spaces. He longs to test the "spell of the Yukon" and see the "haunts of the silences." The dim, far distant Empyrean realms of knowledge also hold a lure for the form of our hero, bulking at the horizon of the known and classified. Doctor Illuminatissimus seems synonymous with Ulysses and Mighty Nimrod to our beloved-of-the-Gods, therefore to become all three is but a simple task.

Well, may Dame Fortune and Lady Luck smile on you, "Ted," and as they will you will find better answers to life's questions than Magmatic Segregation.

"Like the time—"

PAUL WILSON REDLINE
Bethlehem, Pa.

"Red" "Reddie"

E.M.; Class Football (1); Class Basketball (1); Class Baseball (1, 2); Tennis Squad (3); Wrestling Squad (1, 2, 4); Mustard and Cheese (2); Mining Society; Phi Sigma Kappa.

RED" is a native and is proud of it. At an early age he conceived the idea of taking a course at Lehigh. He seldom missed a game and when he did it wasn't his fault. Fences and cops meant nothing to him in those days. He graduated from high school here and then went up the street to college. Paul, first started in as a Mechanical, but the atmosphere of the department did not meet his expectations so he changed to Mining.

While in this department he tried to convince Turner that things are not as they seem. Although "Red" is quiet and unassuming, there is determination and grit in back of him, which will carry him over many rough places.

"You and me both."

BENJAMIN HARVEY REESE
Kingston, Pa.

"Ben" "Ten Per Cent"

Bus.Ad.; Band; Mandolin Club; Lehigh-Lackawanna-Luzerne Club.

AMONG the riff-raff and debris found in the business department, none is more outstanding than the one represented by the above contour map. Parenthetically, we may remark, that no prizes will be given for finding the largest number of bird's nests, squirrel food, or packages of Sweitzer cheese in the picture. This is a picture of youth incarnate, and if its head were concealed beneath an ancient "golluf" cap, it might be recognized as Reese.

While we are on this unpleasant subject, it would be advisable to note that "Ben" is working his way thru college, due to the invention of a science known as "Black Jack." To the uninitiated we further add that "Black Jack" can best be utilized in paying quantities between the hours of 11 P. M. and 5 A. M., and "Ben" is, in all things, a conscientious worker.

On the other hand, "Ben," having his eye attracted to the popularity of Mr. Stillman, has crashed thru the business course near the top of the class, and is now set for the presidency of the National City Bank.

"Let's go over to Allentown."

WILLIAM AARON REYER
Northampton, Pa.

"Bill" "Abey"

Chem.; Deutscher Verein; Chemical Society; Sigma Chi.

DO, gentle reader, the above mug was not snatched from the rogues' gallery; if the thoughtful photographer had not erased the iron filings from his chin, it might be recognized as a caricature of none other than our little "Abey" Reyer. We might state that "Bill" shoots a nasty line, well oiled with Nujol. For instance, after returning from a weekend at home, it runs something like this: "Oh, boy, I had the nuts of a jane out Saturday night. **SOME SHAPE**," followed by the rantings of an inmate of Rittersville.

Bill is a prominent clubman of Northampton and can be found any Saturday night up at the Ampton Club, shooting pool with the boys. He is quite ambitious, taking two courses simultaneously. One is under Dr. Ullman and the other under Prof. Mealey. He will probably get a Phi Bet key in the latter.

Seriously, tho, "Bill" is sociable, friendly, and has more friends than he imagines. He has the best wishes of a host for his success in banking. (Incidentally, Bill is studying chemistry.)

"Gees Paste."

CHARLES LEWIS RICE
Hazleton, Pa.

"Charlie" "Chuck"

C.E.; Class Historian (3); Kappa Sigma.

WHAT a blessing it is that, as we grow older we look upon the follies of youth in a different light, and change from the ways of a care-free boy to the more settled existence of one who realizes that to graduate from Lehigh, one must be a student!

"Charlie" is typically such a person. In his early years of college, he played the part of the carefree one, but he has grown to appreciate the strength of that little word "WORK", and he has been very faithful to his studies.

Of a jovial disposition and quiet nature, he is well liked by all of his classmates, and we cannot but predict a successful career for him, no matter what he chooses as his life work; for with it all, he is blessed with what is commonly known as level-headedness.

"How's things?"

JANVIER MAYHEW RICE
Bridgeton, N. J.

"Jan" "January"

E.E.

JANVIER M. RICE, mathematician, astronomer, movie hound, and woman-hater (?), whose favorite trick it is to take exception to and then proceed to prove differentially or by induction that the author is all wrong; hails from a pretty little spot not too far from the city of Philadelphia to make it rural. To see Janvier (Mayhem for short) amble across the campus with his singularly individual stride does not mean that he is necessarily awake since it is often necessary to jolt him into the mortal sphere to get a response, or, perhaps, jolt him out of a mental "brown." Ask him where his slide rule is—he don't know. Our illustrious Mayhem successfully eluded all laboratory work for the last two years and we are still wondering how he did it and having done it, what he does with all the time this puts at his disposal. Despite all the banter, Mayhem is a pleasant, jovial, good-natured scout.

"Aw! Get out!"

LOUIS MOORE RICHARDS
Somerville, N. J.

"Pop" "Plug" "Lew" "Dick"

M.E.; Dormitory Chief (4); Class Football (2); Mechanical Engineering Society; Student Officer, R. O. T. C. (4).

LOUIS MOORE RICHARDS, alias "Pop," came to Lehigh University to enter the college of Mechanical Engineering after spending two years at Bethlehem Prep. "Pop" is a chap full of surprises but the biggest surprise he ever pulled was when in May, '23, he announced to the world that there was now and had been since the preceding August a Mrs. Louis M. Richards. This information went a long ways in explaining the daily letters and the consistency of the week-end trips home to the little town of Somerville, N. J.

During his college career he resided at Taylor Hall, where he entered whole-heartedly into the "social and economic" life of the student. Here in his senior year he was elected Dorm Chief. In the fulfilling of this office his honor was quite the executive, being a fair and just judge in the matters brought before him.

Here's to you, "Pop." Our most hearty and sincere wishes go with you as you journey along life's highway.

"You owe me."

EDWARD HARDY RICHARDSON

Malvern, Pa.

"Rich"

C.E.; Band (1, 2, 3, 4); Sophomore Council.

SEVERAL years ago in the town of Malvern a great event happened. This was the advent of our friend "Rich" into this world of ours. Nobody heard of Malvern before but Rich claims that it is the best town going and has argued the point quite often so we will have to take his word for it. In his earlier life he must have had the idea that he would like to be a school teacher. Otherwise he probably would not have gone to West Chester Normal unless it was because the ratio of about 10 to 1 in favor of the girls. However after graduating from Normal he decided to be a Civil Engineer and chose Lehigh as the proper place to learn all about that mud-bespattered profession. Since coming here he has been heard by all whenever the band plays. He operates a "Euphonium." Rich is always full of the old Lehigh fight and plays the game square. No doubt he will be heard of in later life and we all wish him the best of luck.

"Hey, listen."

RALPH SHELLEY RITTER

Quakertown, Pa.

"Ritter" "Ed" "Erve"

E.E.; Football Squad (4); Wrestling Squad (3); Senior Electrical Football; Electrical Engineering Society.

LOOKING at the innocent face of the young man above, you would not think that he is considered the Sheik of Quakertown.

He holds a record that many would like to have; that of never being in Bethlehem a weekend for three years. He thus hardened himself up for a strenuous football career his senior year by riding in the trolley.

He was the star halfback of the Taylor Hall and Senior Electrical football teams, being a consistent gainer, and a hard man to stop.

He is so often heard to mutter to himself and anybody listening closely can hear the word "Sheba." Rumor has it that she is a young lady Ritter met while working for the Philadelphia Electric Company.

He made quite a reputation for himself as an Electrical Engineer while working for the company just mentioned. Ritter is a very popular man with both his fellow classmates and with the faculty members that he came into contact with. Good luck, Ritter, we hope to see you a great Electrical Engineer of the future.

"Holy cats."

ARTHUR PARSONS ROBERTS

Englewood, N. J.

"Art"

"Robbie"

Bus.Ad.; First Prize in Mathematics (1).

A LONG about the time that Teddy Roosevelt started in to break up the Trusts, there was another event of vital importance in the United States, when "Art" made his first bow to the world. This event also happened in the metropolis of New York city, but was not given the publicity of the Trust Busting Teddy, hence the ignorance of the public in regards to the event.

Ever since he was knee high to a grasshopper, "Art" had one object—to soak up knowledge. After he went through the schools of Englewood, graduating with honors at the head of his class, he decided to look for other fields to conquer. So he hied his way to Bethlehem, where the famous institution of learning is located, and there settled for four years, learning the game of Business.

He has carried on his old rep, and has shone in all his studies a regular demon for work and always knows his stuff. He just loved to sit back and watch the other fellows take exams.

More power to you "Art"—we expect to hear great things of you in the future.

"Can you bend that?"

EDMUND LEWIS ROBINSON

Bethlehem, Pa.

"Eddie"

"Robbie"

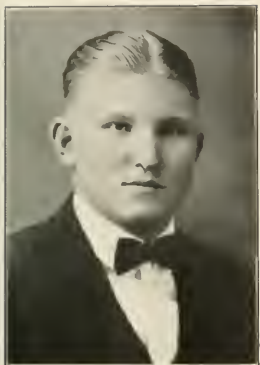

E.E.; Rifle Team (1, 2, 3, 4), Manager (4); Class Baseball (1); Soccer Squad (2, 4); Lacrosse Squad (2); Mustard and Cheese Show (3); Glee Club (3, 4); Student Officer, R. O. T. C. (3, 4); Railroad Society; Electrical Engineering Society; Vice-President (3, 4).

BEHOLD one of the future's greatest scientists. As an inexhaustable experimenter and inventor, one will have to go far to find his equal. He has continually kept his Brother Electricals in good spirits by his fancy fire-works displays and Aeyclic Dynamo inventions.

His first two years among us were largely spent on his Steel Steed and in attending a record number of Course Society meetings.

"Eddie" is of a philosophical nature, and is a bug on travel. We have heard him even talk of, "When I go around the world, etc." Good luck, old man, you may go yet. However, "Eddie" seems to have a definite and constructive Philosophy of Life and he has made many warm friends through his likeable personality and sincerity.

"That gives me an idea."

HARRY GEORGE ROBINSON
Trenton, N. J.

"Robby" "H. G." "Mercury"

M.E.; Class Football (1, 2); Sophomore Council; Cross Country Team (3); Track Squad (3, 4); Inkwell Club; Railroad Society; Mechanical Engineering Society, President (4); Tau Beta Pi.

FOUR years ago, one of De Laval's budding geniuses arrived in the little town of Bethlehem—but not in a manger. For two years he successfully avoided the eyes of the faculty, but at last "Baldy" discovered the dreadful truth—and appropriately christened him. From youth his mind had been attracted by the heights, and, as one means to this end, he joined the autumn leaf harriers, becoming famous as a mountain climber.

As a junior, he was in charge of the refreshments of the M.E. Society, and made good use of the proverb, "The shortest way to a man's heart is through his stomach"; as is proven by the fact that he was chosen unanimously as the President for the following year.

We predict that the De Laval Turbine Company will enter upon an era of unprecedented prosperity, from the day this blooming genius graduates.

"Ho-oly Smokes."

JOHN MEALY ROBINSON
Pittsburgh, Pa.

"Johnnie" "Robby" "Pee-Wee"

M.E.; Mandolin Club (2); Rifle Team (2, 3, 4), Captain (4); Junior Banquet Committee.

JOHNNIE" hails from Pittsburgh having first heeded the call of the Colly sometime in the fall of nineteen twenty. Since then his efforts along all his lines of endeavor have been successful to the nth degree.

To quote a certain well known poet he is "a man not to be laughed at and scorned because he is little of stature." "Johnnie" is a bit too much addicted to hard work and high marks to be a real social light but he is far from a course crabber. The merry plink of his tenor banjo is one of the more pleasant things about the dorms and an informal session takes on new pep when he appears.

On the whole, we are here to state, in the argot of the streets, that the guy who gets "Johnnie" to work for him is sure one lucky bird.

"Judas Priest."

HENRY GORDON ROGERS
Newark, N. J.

"H. G." "Rogers" "Mercury"

Ch.E.; Tennis Squad (1, 2, 3, 4); Band (3, 4); Arcadia (4); Y. M. C. A. Cabinet; Tau Beta Pi.

H HE above representative of that popular species, Homo Collegians, descended upon us four years ago from a suburb of New York—Newark, N. J. Gordon arrived, an unsophisticated Freshman, and started off his college career with the disadvantage of being ambitious.

Recalling his youthful experience in dominoes and rum, most of his evenings are now spent playing Ma Chung, where insistent winning has made his war cry "Gimmi" famous. For recreation, Gordon is a faithful follower of any one of a dozen film stars, feminine of course. We had hoped that he confined his attentions to the screen, but lately, frequent trips home, various colored envelopes and a mysterious telephone call have raised our suspicions.

We hear that the Harvard business school will be augmented by his presence next year, and although he appears to be deserting a professional career, in the preparation of which he has been so successful, we do not fear for his success.

"Hey Jack, are you going out tonight?"

JOHN FREDERICK ROGERS
Buffalo, N. Y.

"Freddy"

Bus.Ad.; Manager of Football (4), Assistant Manager (3); Wrestling Team (3, 4), Squad (2); Baseball Team (1, 2, 3, 4); Class Football (1); Class Track (1); Class President (4); Student Officer, R. O. T. C.; Class Vice-President (3); President of Athletic Council (4); Advisory Council of Y. M. C. A.; President of Varsity Club; Interfraternity Council, President (4); Cotillion, President; Phi Club President; Cyanide, President; Sword and Crescent; Sigma Phi.

F ROM Nichols Prep, in the wilds of Buffalo, hails this little fellow with the handsome, dimpled countenance. As a freshman "Freddy" won the title as Lehigh's "Babe Ruth", when he established quite a record for home runs. From then on he has been hitting everything in both social and athletic activities as a mere at his record will show.

"Freddy" is a hard worker and one of the busiest men in the university, but he is a friend and counsellor to both high and low alike. His success has not changed him in the least, and today he stands out as one of the most popular and finest men as a glance at his record will show.

"No hard feeling; treat them all alike."

HENRY AUGUSTUS ROHRER
Lancaster, Pa.

"Gus" "Hank"

M.E.; Railroad Society, Secretary (1, 2); President (3, 4); Professional Council, President (4); Phi Sigma Kappa.

HIS unhappy individual comes from the Garden Spot of the United States—Lancaster, Pa. Although he says it's a great city, we doubted it until we learned that it's the home of the Hamilton Watch and the Little India Umbrella. "Gus" prepared at Franklin & Marshall Academy for his years of toil at Lehigh and after looking over various other universities, campuses and curriculums, decided to matriculate here. He blames "Ray" Walters and others for his decision. His hobby might dub him "Knight of the Iron Way" for all his interest is centered in watching the choo-choo cars, hence his title 2-8-2 (for locomotives and "Gus" are inseparable) (at least in the course of his line of conversation). He has confided to me that some day he expects to own and run a few systems of his own (but he failed to mention just what kind of systems he had reference to). Never mind "Hank", old Kid, we wish you luck and if the worst comes will buy you a railroad.

JACK ELTON ROSS
Newark, N. J.

"Jack"

C.E.; Band (2, 3, 4); Civil Engineering Society.

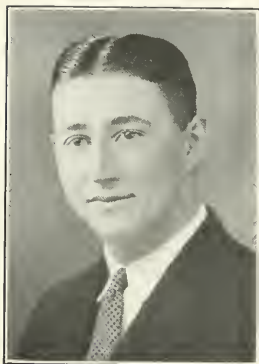

HEN "Jack" first arrived in Bethlehem four years ago, a new free interpretation of Freshman regulations was his sole desire. He also found that he had quite a pull with his department, but the only pull he finds now is the result of a force which has its center of attraction over on the North side of the river. He gets his gym credit walking back and forth and we believe the faculty should give him more than one hour credit for it.

In his sophomore year he persuaded "Joe" to let him try a cornet. At first it was a trying time for all of us who lived with him but his persistence finally won out and you can find him sporting a L U sweater whenever the band is performing.

Whenever a debate on the merits of respective courses is started "Jack" is always present protecting the reputation of his own course. He is a true Civil Engineer in every way and we expect big things from him.

"Sure. I'm not proud."

MILTON SAMUEL ROTH
Butler, Pa.

"Speed" "King"

B.A.; Football Team (2, 4); Track Team (2, 3, 4); Cotillion; Phi; Cyanide; Deutscher Verein; Alpha Tau Omega.

MILTON SHAKESPEARE ROTH was born on the outskirts of the Battlefield of Gettysburg on the 25th day of April. Six years later we find him attending a country school. During the summer months his playground was the battlefield.

At the age of 14 years he was prepared to take the High School entrance examinations. His next field of activity was in Butler, Pa., where he graduated from Butler High School in 1917.

The World War attracted his attention and after enlisting was shipped to Plattsburg, N. Y., where he received a commission as Second Lieutenant of Infantry. He served as bayonet instructor in the Replacement Division of Camp Grant, Ill., from where he received honorable discharge.

Milton Roth entered Lehigh University from Carnegie Tech. in September, 1920. After following his course in Civil Engineering another year, he transferred to the Department of Arts and Science from which he hopes to receive his degree.

ERNEST ALLEN ROUCH
York, Pa.

"Ernie" "Whitey"

M.E.; Mechanical Engineering Society.

ERNIE" wandered up this way in the fall of 1920 to try his luck at finding the missing centredoes. Those of us who have tried the same know what a job he had in front of him. The missing centredoes must have been found because he's still with us.

"Ernie" has always been a hard worker. But don't let him kid you that he doesn't enjoy a good time like the rest of us. Just why he used to frequent the Nazareth Pike in an Overland is still an unsolved mystery. We live in hopes for a solution.

He is interested in what is called superpower. We are glad to know that there is some one who knows what that term means. We've got to hand it to him on picking out such a field for his future work.

Leaving a few remarks about the town he hails from to the last, though we cannot say it is the least because all we've heard about is York, Pa. Some of us think it's our second home town.

We wish him great success for if effort counts at all success should be his.

"What's t' hurry?"

JAMES LEO SANFORD

Brooklyn, N. Y.

"Jim" "Sees-All" "Gyp"

B.A.; Football Team (4), Squad (1, 2, 3); Track Team (2, 3, 4), Meyer Cup (3); Sergeant-at-Arms (3); Varsity Club; Sword and Crescent; Cyanide; Beta Theta Pi.

EARLY twenty-six years ago, so the story is told, our hero first saw the light of day in Brooklyn. A direct descendant of the fighting Irish, he was looked upon with great pride as a future president. After knocking around a while our friend decided to explore the mysteries of Canada.

Soon Jimmie heard the bugle call and enlisted in the Army of the Republic. Three long years later he had completed this job and was looking around for new fields to conquer. It took exactly one year to convince the Profs at Mercersburg that he was deserving of a diploma. With this valuable piece of sheepskin under his arm he set out for "Old Lehigh." He seemed to be on the fair road to success, despite a few of our mutual friends, when he met a girl. This fall he returned to us a married man.

We are rooting for him and all join hands in wishing him the best of luck.

"I won't argue."

SIDNEY LINCOLN SATTENSTEIN

"Sid" "Satty"

Reading, Pa.

E.E.; Lacrosse Squad (2, 3, 4); Senior Electrical Football; Berks-Lehigh Club; Electrical Society; Tau Beta Pi.

BEHOLD, dear classmate, the map of our smiling brother electrical, "Sid." He is the only member of the class who has a perpetual smile on his face, and it is for this reason that a former faculty member was inspired with the idea of rechristening him "Smilax." We beg to state, however, that this was a "faux pas," for the Tau Beta key, which, like the smile, is always displayed, is a sure sign that he does not "cling to others."

A sport in which "Sid" takes the keenest delight is to imitate Professor Esty teaching A.C.M. to a section of Senior Electricals which invariably pays undivided attention—to everything else, as the sound of sawing wood would seem to indicate.

Developing into a lacrosse player rapidly, "Sid" threatens to promote stiff competition for others on the squad and help roll Lehigh's name farther skyward. Not in lacrosse alone, but as an Electrical Engineer, "Sid" bids fair to become one of the world's greatest. Best luck, "Sid," may success be yours!

"Holy Smoke."

OLIVER HUBBARD SAUNDERS, JR.

Brooklyn, N. Y.

"Ollie" "Sandy"

M.E.; Soccer Team (3, 4); Soccer Squad (1); Junior Cheer Leader; Class Baseball (1); Delegate, Silver Bay Conference, 1923; Mechanical Engineering Society.

OLIVER'S college career is summarized in one word—a metamorphosis or in Horatio Alger's style "From Chrysalis to Butterfly, or the Rise of a Sheik." It was an exceedingly hot September day when "Ollie" made his Bethlehem debut—an inquiring, innocent and perspiring freshman—to be staggering past the famous Broadway loaded to the scuppers (with traveling paraphernalia of course) anxious to come to grips with "Thorney."

Achievements aplenty dot his career—a member of the first soccer team to beat Lafayette, Freshman baseball, a bowler de luxe, a swimmer and the holder of the handball championship together with "Sailor" Hewson are some of his athletic feats. His ability for absorbing knowledge is shown by the way in which he learned Reading pinochle a la Sattenstein. He is also chief of Section E and holds the long distance sleeping record of the section. Now I ask you, how can a man with such diversified accomplishments and the sincere wishes of his friends become aught else but a success.

"Worse than that."

AUSTIN BARTHOLOMEW SAYRE

Glen Ridge, N. J.

"Austy"

B.A.; Manager of Basketball (4), Assistant Manager (3); Junior Prom Committee; Arcadia, Secretary (4); Class Treasurer (3); Cotillion; Cyanide; Sigma Phi.

MR. SAYRE, Austin Sayre, if you please, to the front. Some day you are going to hear more about this Sayre boy. He has made an excellent start at Lehigh and for me to write his history is to write his praises.

Austin decided to come to Lehigh after a short stay at Haverford. From the first he has done things—he has been active in college affairs. Yes, fond reader, he has been a shining light in all fields, social as well as others. Girls are one of his specialties and believe you me, he shows good taste. When you tangle with him, you meet real opposition—the opposition of one accomplished at the art—and it is certainly discouraging. "Sayre, if we appear to ride you, it is only because we are jealous."

By the way, Austin comes from Glen Ridge, N. J., but we won't hold too much against him for that for he doesn't expect to be there much longer.

"Hey, Hey, Hey."

WALLACE MENGEL SCHLEICHER
Maplewood, N. J.

"Wally" "Slike"

N.E.; Leader of Mandolin Club (4), Mandolin Club (1, 3, 4); Arcadia (4); Band (1, 2, 3, 4); Tau Beta Pi; Phi Sigma Kappa.

OUR distinguished naval engineer left "home, sweet home" in Maplewood, N. J., to embark upon the vast sea of college life with no more weapons than a saxophone under one arm and a mandolin under the other. As for their effectiveness, men of Lehigh, judge for yourselves. Do we like to listen to his Mandolin Club and step to the tune of the "Lehigh Collegians"? i'll say we do! And as for our Band on which "Wally" has served so tirelessly, his will leave a place hard to supplant.

But with all his music, "Wally" hasn't played Nero with regard to studies. He must have tooted numerous correct notes on that horn of his, because Tau Beta Pi keys don't grow on trees.

The only question we would like to ask is, what makes "Wally" succumb to the homing instinct with such regularity? At least the effect (whoever she is) is such as to make his good humor and even temper indestructible. So when "the Admiral" takes his leave may we wish him "Bon Voyage" for life.

"So long, boys."

ALBERT NOVINGER SCHULTZ
Williamsport, Pa.

"Bert" "Al"

E.E.; Band (1, 2, 3, 4); Electrical Engineering Society; Delta Upsilon.

WILLIAMSPORT is justly proud of yon smiling countenance who decided to attempt the ascension of the famed Lehigh's rocky rapids. After residing with us for a couple years in the town made famous by good steel, "Bert" decided that Mr. Lehigh had already acquired too much of his time and money and became resigned to his fate and four years in Bethlehem have resulted.

To reveal a carefully guarded secret with the ladies "Bert" is equalled by few and excelled by none. His charms can best be summarized in a bit of verse once penned by an enraptured maid which read we are told: "Ashes to ashes and dust to dust; when "Bert" rolls his eyes, in God we trust!"

Seriously, he aspires to be classified with Steinmetz and like celebrities and to that end has been enrolled with Professor Esty's dynamo tantalizers for the last twenty-fifth of a century. We feel sure of his ultimate success and await with bated breath the day when we shall be electrified, along with possibly a few others, with the news of his rapid progress.

"Tell her I'm not in."

PAUL ENGLEBERT SCHWARTZ
Harrisburg, Pa.

"Pablo"

Bus. Ad.; Class Baseball (1, 2); Track Squad (3); Student Officer, R. O. T. C. (4); Band (2, 3); Y. M. C. A. Committee (3); Inkwell; Arts and Science Club.

DANT to hear about "Pablo"? To begin with, "Pablo" is only a nickname, and does not indicate a Spanish line of descent. It is hardly necessary to say "Schwartzie" is a Dutchman.

Not long after the class of 1924 entered Lehigh as freshmen, some attraction in the vicinity of the Liberty High School drew "Pablo" quite frequently to that part of Bethlehem. We have never heard the details but judging from the many telephone calls that came from a voice decidedly un-masculine, we often wondered whether this attraction was a "she" and whether this "she" sang in the choir. This has become history for it seems as though "Pablo" has found a new "world" to conquer.

As a student, "Pablo" never made an auspicious record and neither class mates nor instructors granted him much of a chance in crashing through his examinations.

"Pipe down, I wanta study."

JOHN JOSEPH SHIGO, JR.
Hazleton, Pa.

"Jack"

"Joe"

B.A.; Lacrosse Team (3, 4); Football Squad (3); Class Football (2); Manager Freshman Tennis; Freshman Banquet Committee; Cotillion; Kappa Beta Phi; Sigma Nu.

FROM the jungles of that unknown region, in which Hazleton is an oasis, came the above young man to our noble institution to get a liberal education and all that sort of thing. He decided from the beginning to pursue a policy of extreme liberalness in every direction and has participated in all the known forms of college activity from the gridiron to the ball room and all intermediate points. The fact that he is popular with the feminine gender is readily proven by even a hasty glance at the accompanying portrait obtained at great expense from "Bethlehem Bill" McCaa who needs no introduction.

He has that valuable characteristic of being able to rise to the occasion and has invariably responded to the satisfaction of all of his professors when these occasions, which come but twice a year, have presented themselves.

"Shoot!"

WALTER SIMEON SKEELS
Rochester, N. Y.

"Walt" "Sim" "Skeezix"

E.M.; Junior Associate A. I. M. E.

EXPERIENCE is the best teacher" gravely says the sage. If so, "Sim" should know his stuff. Yes, the Sophomore Council made a mistake when they charged him with cutting cheering practice; Walter had already seen the simple days, having started his collegiate career at Allegheny College, where he wasn't given the privilege of a full Frosh year.

Understand, he broke in upon the peace and quiet of Newark College, where he finished their two-year course.

By this time "Sim" knew a good college when he saw one, so he jumped the first train for old Souse Bethlehem. When wrestling season came around, Walter was out on the mat but this was short-lived, since after "Ted" Burke tried to put a knee thru his eye, all of "Sim's" time was taken up in explaining that he had not been in a fight with anybody. "One" girl must have believed him since there isn't any other explanation as to why he has a private wire to a certain house on West Fourth Street.

"Technically speaking——"

FREDERICK DEPPEN SNYDER
Harrisburg, Pa.

"Dep" "Fred"

Ch.E.; Sigma Phi Epsilon.

HERE is another contribution from the city of Harrisburg to the fame of Lehigh. "Dep" spent many long hours pondering over his future after he had received his diploma from the Harrisburg Academy. But being from the leading village there was only one logical place he could go to complete his education and in due time he arrived in South Bethlehem. That is the story of how our hero came to college.

During the four ensuing years "Fred" made good use of his time both in and out of school. In some mysterious manner he worked his way into the good graces of Bethlehem's Irish population and now can walk in perfect safety through any part of Northampton Heights or "Shanty Hill." This great achievement was no doubt, due in part to that beloved cap which always accompanies him on these excursions.

The Ice Cream profession needs trained men and "Dep" will no doubt answer the call in the near future. Think of ice cream made, sold and eaten by Lehigh men. But whatever it is, we know he will make good and we wish him every success.

"Be that as it may."

ARTHUR WELLINGTON
SPRINGSTEEN

Detroit, Mich.

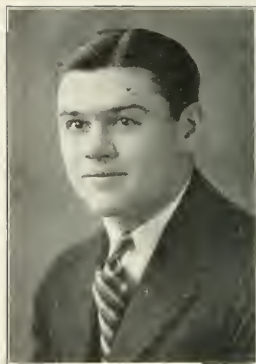

"Art"

B.A.; Track Team (1, 2, 3, 4); Basketball Squad (1); Football Squad (1, 2, 3); Class Football (2); Class Athletic Representative (2); Cotillion; Sigma Nu.

DETROIT, proud of its Fords, can now point with pride to its future physician. That makes two things for the city to be proud. In his first year in college "Art" tried all the various forms of athletic activity, but had a hankering more toward the track than the other courses offered and decided to devote all his energy toward that pursuit. He proved his merit by winning the coveted "L" in his first year.

Although we know that "Art" will make a good doctor we are afraid that there will be a run on the apple market when some husbands get wise to him. It is said that all doctors need patience and that is where "Art" is well supplied. A pleasing disposition, winning smile and an exceptional ability to spring wise cracks has made "Art" well liked among his fellow students. He will pursue his medical career in the west somewhere and the future will no doubt find him settled down in some nice unhealthy town doing a big business. We are sure he will succeed.

"Hello, stuff."

WILLIAM WATSON SPRINGSTEEN

Detroit, Mich.

"Bill"

Bus.Ad.; Football Team (1, 2, 3, 4), Captain (4); Lacrosse Team (3, 4); Basketball Team (1, 2, 4); Class President (2); Varsity Club; B. U. X.; Kappa Beta Phi; Cyanide; Sword and Crescent; Sigma Nu.

IS you all know, Detroit is a far off city, and so when "Springy" came east to Lehigh he, no doubt, had visions of finding the place where the sun rises. Now Lehigh isn't exactly the center of the universe, but with his coming a new star of the first magnitude appeared in college ranks. For, from the day of his first game for old Lehigh on down through four years of college football, his aggressiveness and spirit on the gridiron has marked him as a bright, shining light. "Lehigh Fight" is characterized by "Bill" and the team he captained will be remembered as the scrappiest bunch of players that ever wore the Brown and White.

One of his outstanding merits is his ability to speak on any subject, at any time—or to debate any question from both sides and win either way. To listen to him is to be convinced! In short, he is energetic, courageous, and well-liked by all.

"Let's see."

EDWIN LEWIS STAUFFER

Northampton, Pa.

"Ed" "Pete"

Ch.E.; Chemical Society; American Chemical Society.

FOUR years ago, covered with cement dust, Edwin Lewis Stauffer straggled into town and enrolled at the University. At first "Ed" had difficulty in making himself understood having a bad habit of replacing his v's with w's, but he soon learned to speak English and ever since has been one of the master minds of the course that deals with test tubes, beakers and bad smells. "Ed's" one fault is "procrastination." Everything is put off until "over Sunday." However for some unforeseen reason, who knows what, "Ed" always comes back on the following Monday with nothing accomplished. "Ed" has somewhat of a leaning toward invention and at present is deeply concerned with a series of tests he is making on a new type of "popet valve."

In spite of his many faults "Ed" has really accomplished a goodly lot during his four years here and his future success is assured for his heart is immense and is located in the right place.

"I'll do it over Sunday."

PAUL HERTZLER STERN

Elizabethtown, Pa.

"Sternie" "Kelley"

B.A.; Class Baseball (1); Wrestling Squad (2); Cheer Leader (3); Student Officer, R. O. T. C. (4); Musical Clubs (1, 2, 3, 4), President (4); St. Paul's Society; Inkwell Club; Arts and Science Club.

IN 1920 when Paul came from Elizabethtown on the P. & R., little did he realize that he would graduate from this University. His first act when he arrived here was to indulge in a Penna. Dutch conversation with "Dutchy," of the Math Dept. "Dutchy" gave Paul some good dope so he took the B.A. course. At that time however no one noticed him.

Now after being with "Percy" for four years Paul knows psychology and makes use of it. As a result his fame extends from coast to coast, nearly. He is quite reckless. He has broken several girls' hearts, several strings on that noisy instrument he plays in the Mandolin Club, several plates while slinging hash and a number of other things. One New York paper said that he and Irene Castle made an ideal dancing couple. Paul modestly says he is not that good. In his senior year Paul bought two-thirds of a car. He kept it until his dad heard of it and then sold it to the junk dealer.

"I'm pure."

FRANCIS CARROLL STILLE

Woodbury, N. J.

"Stille" "Angel-face"

E.M.; Associate Editor of Brown and White (1, 2); Cotillion; Mining and Metallurgical Society; Theta Delta Chi.

C HE best white sands for glass making, they say, came from Clayton, N. J. But Clayton furnished a fairer product for Lehigh than any of the glass in the Packer Hall windows. Carroll Stille's the one. September, 1920, found him at Lehigh trying to get a start in that course which attempts to teach us how to dig sand, coal, and all that necessary raw material.

Being a Miner, probably enables him to dig up this stuff called personal magnetism, which is evidenced by the picture gallery in his room. The Louvre hasn't a thing on the walls of Carroll's room. Why the Inter-state Commerce Commission was, for a time, considering very seriously putting a stop on him carrying pictures from Woodbury to Beslem. Carroll says they don't mean a thing, for they all want to be sisters, but I have me doots.

But after all is said and done, when we get the good old sheepskins, we are going to lose a mighty true and loyal friend. What better can be said of any man? Best of luck, Stille!

"Course-Crabber!"

ELI HOWARD STRAWN

Quakertown, Pa.

"Strawny" "Johnny"

C.E.; Class Football (2); Civil Engineering Society.

S TRAWNY" came to Lehigh after knocking all his studies at Quakertown High School for the proverbial loop and he sought new and harder fields to conquer. It did not take much seeking to discover that there was a way of taking things easy and still stay in college. Movies kept him busy and as Quakertown was so near Bethlehem, the temptation to spend week-ends home could not be resisted. There must be good reasons for a man to do that regularly.

After a quiet year on the North Side, "Strawny" moved South and has slept during afternoons and usually nights in the Dorms.

Whatever time remains after the women and movies have made their claim upon his time is given to study (?). Regardless of the fact that he pursues the course characterized by "Baldy" as the "Recreation Course" he applies himself to his books at times with a diligence that bears all the earmarks of that rare phenomena in Mr. Lehigh's College—work.

Keep it up, "Strawny," they'll take a good man in the Loop Course any day.

"Doggone."

JOHN CASSEL SWARTLEY, JR.
Doylestown, Pa.

"Jack" "Wagnalls"

B.A.; Brown and White Business Staff (2, 3, 4); Business Manager (4), Circulation Manager (3); Assistant Business Manager (2); Vice-President Intercollegiate Newspaper Association of the Middle Atlantic States (4); Arcadia (4); Pi Delta Epsilon; Sigma Phi Epsilon.

COMING to Lehigh unheralded and unsung, a native of the peaceful hamlet of Doylestown, "Jack" has found time to do many things. Deciding on the B.A. course as being a suitable preparation for the study of law, he has particularly enjoyed the cultural subjects which the rest of us shirk so willingly.

Early in his Sophomore year he came to the conclusion that the "Brown and White" could use the services of an intelligent young man. Qualifying without much difficulty for the business staff, John has been instrumental in handling the financial details connected with increasing the size of the paper.

Believing, in common with many captains of industry, that business deals of magnitude are consummated on the golf course, "Jack" has assiduously cultivated the game.

RALPH CHRISTIAN SWARTZ
Allentown, Pa.

"Rafe"

M.E.; Associate Editor of Burr (4); Deutscher Verein (3, 4).

IT was a dark and stormy night, and the stars were shining bright when in a place called Allentown, the stork a funny child set down. February was the month and it was the twenty-eighth. And ever since that day to comrades 'long the way, he brought a lot of fun and joy, that little boy. When he used to bite his toes, or fall upon his nose his friends would burst with shrieks till the tears ran down their cheeks. But tho' he was ungainly, and he used to act inanely, his brains had always got him by until he came to old Lehigh. Of course a girl has he, and a pretty one is she, but then these slim young Romeos are always fine at being beaux. Another year, the die cast until he graduates at last. "Oh, yes, it's very tough," says he, "But then I'm really dumb, you see." But hearken friends, the truth I know, the faculty won't let him go, because they love the dumbbell so.

"Well, I'll be cock-eyed with grief."

JAMES STANSBURY THAYER

Baltimore, Md.

"Jimmy" "Jim"

M.E.; Lehigh-Maryland Club, President (4); Square & Compass, Secretary (4); Railroad Society; Mechanical Engineering Society.

JIM'S apparent seclusion from the "fair sex" might have led us to believe that they held no charms for him, but the regular arrival of a missive told us his secret.

Uncle Sam is always on the job, as we all well know, but he was too slow for "Jim," so he brought his bride back with him to help (?) him through his Senior year.

We join in extending sympathy to the bride, for three years has taught us "Jims" affinity for chalk and love for an argument.

"Horses."

WILLIAMS HOWARD HOLLAND THOMAS

New Haven, Conn.

"Tommy" "Bill" "Volcano"

B.A.; Brown and White Board (3, 4); Assistant Business Manager (3); Glee Club (3, 4), Quartet (3, 4); Beta Theta Pi.

WANY years ago Williams Holland Thomas drove through the Lehigh Valley, little did he know that he would ever have Lehigh for his Alma Mater. His boyhood days were spent in New Haven, but of course not his week ends for at an early age, "Bill" was found studying drama and comedy on Saturdays in New York. As time rolled on, "Bill" entered Yale. Later he became the long distance champion, commuting from New Haven to classes at Columbia.

A few weeks after registration, two years ago, a well dressed character appeared in Packer Hall, who later proved to be none other than the original "Bill." This is the same time he attracted considerable attention by asking "Thornie" for a cigarette and a match. During "Bill's" two years at this college, he has been very active on school papers and along musical lines. We all wish for his success after graduation, but still hope he will not be prevented from his usual week end trips.

"Be with you in a minute."

WALTER SCOTT THOMPSON, JR.
Sunbury, Pa.

"Tommy" "Tom"

E.E.

TALT. S. THOMPSON, JR., the radio shark of the E.E. group, hails from Sunbury, Pennsylvania. During his first two years "Tommy" stepped out with the boys but since he has taken unto himself a better half, he has cut classes at the Colly and at Mealey's in a deplorable manner, his attentions now being devoted to his wife and radio research. "Tommy" has written numerous articles on radio for magazines and is up to the neck in work all the time, both radio and keeping his cozy apartment ship-shape. When it comes to a discussion between Professor Seifert and "Tommy" on his pet theories, you sure get an earful. You wonder which is the dynamo and which the motor, or probably whether they are not both idling on the line.

With it all, "Tommy" is a good natured chap, has a pleasing personality and we hope that when he runs the Bell Telephone Company in Philadelphia he will keep out of politics.

"All right—let's go."

HUGH MOORE TROLAND, JR.
Philadelphia, Pa.

"Hughie"

C.E.; Civil Engineering Society.

EARLY in the fall of 1920 there arrived in Bethlehem, a long, and somewhat lean fellow from Philadelphia. A few minutes later he joined the line in front of "Freddy" Ashbaugh's window, and shortly after "Hughie" was enrolled as a student at the institution on old South Mountain. Being ambitious, he settled down on the North side of town. In order to get his daily exercise by rushing over to his eight o'clock classes. Later, like most C.E.'s, he acquired the habit of laziness and moved over to the campus.

Early in his career as a Civil he developed the homing instinct, and each weekend could be seen wending his way, via the P. & R., to "Philly." This may explain his utter lack of interest in the feminine population of Bethlehem, although no one has definite proof as to the reasons for these frequent visits.

In his four years among us, "Hughie" has made himself well known to many and well liked by all. He is never known to be in a bad humor after nine o'clock in the morning.

"Meet you on the Bummer."

ROY EZRA HOLZMAN TROUTMAN
Bethlehem, Pa.

"Trout" "Dick"

Ch.E.; Wrestling Squad (3); Student Officer, R. O. T. C.; Junior Oratorical Contest; Chemical Society.

THE best source of proof is experiment."

When Roy first made his appearance around the campus, the casual observer would never have discerned that he was here determined to seek the Elusive Molecule and finally tack the potent letters "Ch.E." behind his name. But the determination existed nevertheless, and since, "With determination comes success," Roy is still "among those present."

Once, however, the lure of the past overpowered his scientific instinct (it is rumored that he was quite an oratorical genius in his Prep. school days) and he entered the Junior Oratorical Contest. Our own opinion of the matter is that the judges failed to appreciate Roy's Irish brogue. But, anyway, the affair served to turn his mind to poetry in which his future looks very rosy. At present his attention seems quite concentrated on a member of the fair sex in Philadelphia. Perhaps Roy thinks as most of us, "Poetry is a catalyst in the reaction of Love."

"No kiddin'."

JOHN MITCHELL TUGGEY, JR.
Bethlehem, Pa.

"Mitch" "Mike"

B.A.; Class Baseball (1, 2); Club de Quinze; Arts and Science Club; Sigma Chi.

OUT of the Canadian wilds there came a youth, callow and knowing not that which lay before him, yet feeling that sudden mystery of environment. After having four years carved out a name for himself within the precincts of Bethlehem Prep, mostly upon the wooden benches he decided that there was more chance for advancement across the river. Away from the stress of paternal oppression, and under the careful eye of the College of Arts and Sciences, this callow youth was nurtured and became a Sophomore.

We have talked to him, laughed with him, argued—as a matter of course, and have come to the conclusion that a wee bit of Scotch may cover many ills. We speak only of the blood, because everyone knows that the Volstead Act is rigidly enforced in Bethlehem!

"Mitch" has ambitions of overthrowing all existing conventions, and denies vehemently any intention of following in his father's footsteps. But we are sure that, no matter what he does, New Jersey will always hold a strange and unaccountable fascination for him. Good luck, old Top.

"I don't believe it."

RALPH EDWARD UNDERWOOD
Great Neck, N. Y.

"Ted"

B.A.; Editor Freshman Hand Book (4); Assistant Editor (3); Band (1, 2, 3, 4); Swimming Squad (2, 3, 4); Mustard and Cheese (3, 4); Club de Quinze; Y. M. C. A. Cabinet (4); Arcadia (4); Mechanical Engineering Society (1); Phi Beta Kappa; Alpha Chi Rho.

ED'S" big brother, "Doc" Underwood, most probably, was the main reason why "Ted" came down from the Big Town to conquer Lehigh. Whether he came to keep "Doc" company or to show him who was the better student, will be left to those who know them both.

"Ted" was an engineer in his Freshman year, but his apparent love for the Arts dissuaded him from the mathematical grind and he became a B.A. man. He has found ample time to take an active part in campus life. The University Band has boasted of his able work on the drums for his entire four years and the Lehigh Valley never heard a better trap drummer.

"Ted" showed an intense philanthropic interest when he published the Freshman Handbook for the Class of '27, and he also occupied a chair in the Y. M. C. A. Cabinet. His devotion to his course awarded him membership in the Club de Quinze and the Arts and Science Club.

"Hell no."

STANLEY JOSEPH URBAN, JR.
Allentown, Pa.

"Stan"

"Dutch"

E.M.; Class Football (4); Lehigh University Catholic Club; Allentown-Lehigh Club; Mining and Metallurgical Society.

FOR four years the present class of Senior Mining Engineers has been blessed (?) with the presence of the Dutchman depicted above in all his glory. Each term throughout his college career, they have expected to be his last, but somehow he has managed to stick with us despite the best efforts of the Faculty to summarily oust him from our otherwise happy lives.

"Dutch" has plugged away through his four years, perhaps doing more work than any other member of his class. Although handicapped by the fact that he has had to commute to the University from Allentown, he has attended every class day in and day out.

Urban is noted as a pugilist; he lets on that he is a real tough Dutchman, but his classmates have no fear of him since he, like Samson, has had his punch taken away from him. It is rumored around that the Allentown girls after a strenuous struggle finally got the best of him.

Be that as it may, "Stan" has made some real friends who wish him every possible success.

"Why worry, such is life."

JOHN HARRISON VAN DYKE
Pittsburgh, Pa.

"Jokumic" "Van" "Jack"

M.E.; Assistant Manager Soccer (3);
Class Tennis (1); Tennis Squad (2, 3);
Tennis Team (4); Kappa Sigma.

VAN" came to Bethlehem four years ago, a mere pup, inexperienced in the ways of the world, but nevertheless, eager to learn. He is of a reserved nature, and very modest when questioned concerning his strange power over women. Gaze into that winsome face and judge for yourself, gentle reader, whether this Adonis has not captured the heart of some sweet young thing. Ah, you have guessed it. There is a girl's picture in the back of that fertile mind, cluttered though it be with cosines and asymptotes.

There is only one thing which can cause a single man to stop and gaze longingly into the display window of the furniture stores, and that reason invariably wears skirts.

During his eventful college life, he has at times been led into the paths of wickedness. We can excuse minor vices, by passing it off as "wild oats," but horrors! this last is too much. His most recent depredation is smoking! He excuses himself by proudly asserting that he has at last passed the twenty-one year mark.

"Huh!"

RUEL DEXTER WARRINER
Philadelphia, Pa.

"Dex"

E.M.; Wrestling Team (2, 3, 4), Captain (4); Arcadia (3, 4), President (4); Cheer Leader (3, 4), Head (4); Class Baseball (1); Freshman French Prize; Junior Banquet Committee, Chairman; Y. M. C. A. Cabinet; Mining Society; Scabbard and Blade; Student Officer, R. O. T. C.; Varsity Club, Treasurer; Cotillion; Scimitar; Kappa Beta Phi; Tau Beta Pi, Vice-President; Cyanide, Secretary-Treasurer; Sword and Crescent; Delta Phi.

WHE kid—Ruel Dexter Warriner; need anything be said concerning what Dexter has done in college—one glance at his honors and you have the story. A leader in activities, in athletics, and in scholarship—his record is an unusual one and one of which to be justly proud.

"R. D." came to us from St. George's; young, unsophisticated, so we thought, and meek. Yes we suspected he had it in him and it wasn't long before we were sure of it—in four years he crashed through with a glorious career which Lehigh will not soon forget.

"Who's got my mail?"

WILLIAM WEHRENBURG, JR.
Baltimore, Md.

"Bill"

E.E.; Lehigh-Maryland Club; Electrical Engineering Society.

THREE years ago, after having left his name in the "Hall of Fame" at Baltimore Polytechnic Institute, "Smilin' Bill" wended his way to the little town of Bethlehem with the intention of entering Lehigh University and some day capturing an E.E. degree.

He has lived up to all his resolutions but don't get the idea that all he has done was to study. Besides the routine duties of his course, he has found time to make the electrons in the vacuum tubes of his radio set do some marvelous stunts. Also, he has been seen quite frequently escorting some member of the fair sex about the city.

If you ever decide to build anything electrical, from a door-bell to a power plant, get "Bill" to design it—then you'll know it will be right.

Since so much has been said, we can rest assured that he will make a mark in all he undertakes, be it engineering or matrimony. Here's wishing him success.

"What's the idea?"

GRAHAM WENTZ
Scranton, Pa.

"Snapper"

"Boom"

Ch.E.; Sigma Chi.

IN the fall of 1920 Scranton mourned the loss of several of her younger citizens and not the least of these was our own "Snapper," better known to his immediate family as Graham Wentz.

His first plan was to take a year's rest here before going to M. I. T. and he therefore, chose the Chemical Engineering course. After one year here, however, he saw great possibilities in Lehigh as well as Bethlehem and he decided to stay awhile. His natural talent has been well exercised in the Chemical course for he is gifted with what are commonly called "chemical mitts". One of his stumbling blocks has been German, but this is due to the fact that Scrantonians are more accustomed to the easier languages, such as Polish, Lithuanian, etc., etc.

A lot might be said for "Snapper", but in short he's a good scout and it has been said of him that you can't get him sore, and with qualifications such as these he is sure to be a success when he leaves Old Lehigh to go out into the cold, cruel world.

"Fair to middlin'."

ELLIS LINCOLN WERFT

Altoona, Pa.

"Ellis"

"Calhoun"

E.M.; Class Football (1, 2); Football Squad (1, 2, 3); Mining Society; Arcadia; Tau Beta Pi, president (4); Delta Upsilon.

O, this is not the photograph of a bootlegger in Rogue's Gallery, but merely the likeness of a son of Lehigh from a railroad town somewhere in the Alleghenies. His birth-place notwithstanding, Calhoun is really not so bad after all for he has taken an active part in many college affairs and has made his mark in scholarship, especially in Railroads (ask Windy).

In common with some other mortals we know, our hero has a glaring weakness for the fair sex. If, however, there is any truth in the axiom, "There is safety in numbers," he is safe, absolutely. It is a known fact that he has dragged some mean women to each and every house party as well as to the great majority of dances in Bethlehem and Allentown. How he gets 'em nobody knows but he does get 'em. Give Ellis a waxed floor and good music or his land dreadnaught and a mellow moon plus any one of his affinities and the rest of the world can roll by.

"Let's see you go!"

ANDREW NEWTON WIEGNER

Bethlehem, Pa.

"Newt" "Newts" "Andy" "Neuter" C.E.

IKE Charity, "Newt" began at home by graduating at Bethlehem High School in 1920 and then pursuing a course in Civil Engineering. Pursuing is just the word when you think of it, and just how diligently he worked is measured by the results achieved. His uncanny desire for technical fact, his ability to make eight o'clock classes with unsurpassed regularity and his desire to be just a "good fellow" has won for him the admiration of his class.

Just why he was named Andrew Newton is not quite understood but it might be said that he has the virtues of Andrew and the vices of Newton.

There are two things we cannot account for, viz., the falling of that old apple on our old friend Isaac Newton, and what fell and bounced off "Newt's" dome.

"Newt" admits he wants to be a Civil Engineer, so all rumors to the contrary are null and void.

We feel sure that his success is imminent and is assured by his dogged perseverance.

"Oh hang it."

BRUCE KUGLOW WINGATE

Reading, Pa.

"Kuglow"

C.E.

WHEN "Kuglow" came to Lehigh, he brought with him that peculiar Reading accent acquired in early childhood by contact with the "Dutch" of Berks County. During his early infancy at Lehigh, he rapidly developed an experimental ability in the "shooting" line and ever since has been spending his spare time in Krause's shop devising all sorts of shooting accessories. The Military Science Department recognized his abilities and put him in command of the "Heavy Artillery" of the organization, which in a short time became a very efficient and awe-inspiring unit. It often has been said that "Kuglow" would make a great orator, which can be vouched for by his associates to whom he expounds his principles and doctrines. He also has a keen sense of humor and can always appreciate a good joke, whether old or new and it is very amusing to observe him putting over some old joke on the crowd that he has sprung on them five or six times before. His future and success is assured.

"What."

ARTHUR C. WOOD

Providence, R. I.

"Art"

"Woddy"

B.A.; Club de Quinze; Arts and Science Club; St. Paul's Society; Wilbur Prize in Freshman English.

THIS man's name is written in the book of life. We are sure that he is slated to be a bishop. Where, we cannot tell.

Arthur is one of the best undergraduate Latinists of late years, and, in Greek, the realization of Professor Goodwin's most Hellenic desire. Besides this he is no mean juggler of Hebrew vowels, and when he studies his lessons in this subject, sounds like Abraham eating matzoths in a Jewish butcher shop on Friday night.

Arthur was in charge of a mission in Allentown throughout his college course and accomplished more than any of his Leonard Hall brothers in that way. He already has the genuine clerical dignity, and his entering the seminary will be only a matter of red tape.

"Hang it all."

MAURICE ORR WOODROW

Wilkes-Barre, Pa.

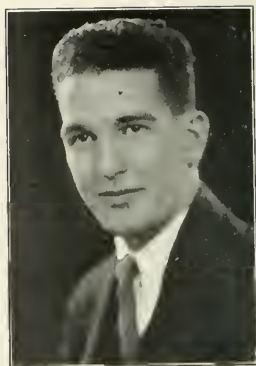

"Maurice" "Woody"

C.E.; Theta Xi.

MAURICE O. WOODROW came to Lehigh from Mansfield State Normal School with a heterogeneous collection of fluctuating ideas, one being a fancy that he would make a Civil Engineer. Three years of service in the recent unpleasantness were enough M. S. & T. for him so he put forth his dogged attempt to pass Freshman German, which he finally did; since then he has never ceased bragging about it.

"Woody's" uncanny ability to pass a few hard subjects and laugh at the easy ones, his refreshing, impulsive, pessimistic attitude has opened the eyes of his fellow students. "Woody" explains it all by saying that he is going to teach school. This may account for his oily line. We both envy and fear for the youngsters "Woody" teaches, but his oily line cannot be passed over lightly. Eight years an athlete (when whiskers were a requirement) and two years at the front leave him ample space to reminisce, his vivid imagination and spontaneous vocabulary are ever in support. Woody's recent attempt to come back in the cage have left him in a state where motion is painful so we'll let him rest here.

"Holy jumping!"

WILLIAM POTTER WOOLDRIDGE

Pittsburgh, Pa.

"Bill" "Will" "Curley"

E.M.; Assistant Manager of Lacrosse (3); Student Officer, R. O. T. C. (2, 3); June Hop Committee; Interfraternity Dance Committee (4); Kappa Sigma.

OH, to be big and tall and handsome, with curly locks to boot! "Tis a consummation devoutly to be wished," murmurs "Bill" between giggles and blushes.

He has just completed his college career, and when one realizes that it took three Prep schools to prepare him for more advanced work, we consider it nothing short of a miracle that he is graduating from the same college which he entered as a Freshman, and has done it in four years, in the bargain!

Like several more of the sentimentally inclined Seniors, "Bill" has picked up something more than a mere store of knowledge. We don't know if he has set the big date as yet, but when we see the blissful look on his face when he comes from her home, we venture that it won't be very long.

We know that he will miss Bethlehem in the warm summer months to come, for it is doubtful if the Smoky City, otherwise known as Pittsburgh, can produce pretzels and beer of the "Souise Blesslem" quality.

"It won't be long now."

WARREN WEBSTER YORK
Scranton, Pa.

"Harry" "W. W." "Web" "O. B."

Bus. Ad.; Manager of Swimming (4), Assistant Manager (3); Y. M. C. A. Cabinet, Treasurer (4); Cotillion; Varsity Club; Sigma Nu.

WHAT will four years at Lehigh do for a person? Gaze above and find your answer. The erstwhile freshman from Scranton has progressed nobly, being one of the few who can boast of a "drag" with the renowned "Baldy" Stewart.

Warren's activities have been diversified and every project has been entered into with his characteristic enthusiasm. In his Sophomore year, he made Cotillion and was on the track squad fighting gamely with the rest of the two milers. In his Junior year he was Assistant Manager of Swimming and it might be added, that he took honors in business, in spite of the fact that he did not neglect Cedar Crest. This year finds him at the managerial helm of the Swimming Team and the season under his guidance bids fair to be the best for some time. In all his dealings he displays the qualities of a man—straight grained, unvarnished, white throughout.

"Wot in 'ell."

TUNG YUAN
Peking, China

"Tung" "Tim"

E. M.; Tennis Squad (3); Mining and Metallurgical Society.

TUNG came to us from the Tsing Hua College, Peking, China.

"Tung" has more than made the grade and when he leaves us this spring to go back to his native land, he goes as a full-fledged Mining Engineer.

"Tung's" career in college was more or less staid and uneventful until last spring when he blossomed out and bought one of the mining trip cars from "Bart." This act was the beginning of his downfall. He and his roommate Harry Su took turns from then on in knocking over stone walls, curb stones, telephone poles, etc. It remained only for the Mine Surveying trip to Carbondale last summer to complete his downfall. While there it is said that he was inveigled into a barroom by some of the clever mining associates. This was not so bad, but his experiences next day in the mines should prove a lasting lesson to any truth-seeking and law-abiding Chinaman.

The Class of 1924 rises to salute you, "Tung", as true blue and wish you every possible success as a Mining Engineer in the land of the rising sun.

"Go ahead."

JOHN PHILIP ZANNARAS

Chios, Greece.

"John"

N.E.

WHILE you readers of the "Epitome" were playing with your blocks, or perhaps dollies, as the case may be, a little boy in Chios was amusing himself with integral signs and infinitesimals and hyperbolic functions. Later, tiring of these trifling toys of his childhood days and having learned all that Uncle Euclid and Mr. Pythagoras could teach him, John Phi decided to go farther afield in his search for knowledge as his forbear Diogenes took a lantern and searched for an honest man, so also Zannaras decided to take a mazda and search for a perfect differential. The fame of the firm, Thornburg and Lambert, Math Shark Manufacturers, reached him, with the result that John came to Lehigh and for the past four years has lived in a world of Calculus, Advanced Differential Equations, Analytical Mechanics and what-not.

Besides proving that 1 is equal to 0, John has also proved himself a good scout; always willing to help a fellow student and never too impatient to spend any length of time in explanations. Some day, in our children's children's school books, along with Aristotle and Plato and Archimedes, will appear the name of one John Philip Zannaras.

CHARLES EDWIN ZIEGENFUSS

Bethlehem, Pa.

"Ziggy"

"Piggy"

Bus.Ad.

IGGY" entered this portion of the solar system on October 27, 1895. Since Theodore Roosevelt was also born on this day of the month we are predicting great things for Charlie.

He attended the Bethlehem Public Schools and made a creditable record. Later he entered the employ of the Bethlehem Steel Company from which position he entered the United States Army as a buck private. After "knocking off" a few boches and getting "knocked off" himself he was discharged from service with a "top kickers" warrant.

Upon leaving the government hospital, "Ziggy" felt the urge of additional mental development and enrolled at Penn State from which place he transferred to Lehigh, where he became a student in the college of Business Administration.

"Ziggy" has overcome many obstacles in completing his college course; evidently, showing the same "pep" in college work, that brought him from "buck" private to top sergeant.

More power to you Charlie.

"Hell's Bells."

Opinions

THE greatest weight should be given the opinions of men who are on the eve of graduation from college where they have had many mishmas of concentrated knowledge forced into their upper strata. In order, then, to secure the opinions of these "Future Great", we, the Class Book Committee, had the audacity to distribute questionnaires among our classmates asking them their opinions on such important matters as the Colosseum, Mealey's and the New School. The result was astounding! After many days of pleading and begging, the opinions came in—a maze of knowledge which we feel is a mere indication of the

vast fund which had collected during our four, five, six or more years of drinking from the fount of Asa Packer's halls of learning.

The compiling of these opinions has been a pleasant but tedious task, due to the fact that the ballots were written in everything from phonetic spelling to Chinese. However, we feel well repaid for the edification it has given us and the deep insight into the thoughts and feelings of our fellow classmates. Many a seemingly innocent and unassuming young man has completely changed our former opinion of his virtue and purity by his horrible and unprintable opinions, while many of our noted wild and erring classmates have exhibited to us their true kind and loving natures for the first time. Be that as it may, you will find in the next few pages a vast and unlimited supply of nonsense which is the true Lehigh spirit of '24 expressed in wit, gravity and otherwise.

"THE BEST SINCE 1866"

is the way Franke so aptly puts our opinion about the class of '24. Another angle to the status of our illustrious class is given by Tom Maxwell who states that we are the "best that ever drank to Asa." Degan claims we are a class divided—"divided into three factions, namely: Bob Young's, Eddie McGovern's, and Culhane's." Cupp thinks it is "good—what's left of it." While Joe Boyle clinches the entire argument by calling it "200 Proof." What more can we say?

"NOT SO HOT"

With these three words, York expresses the consensus of opinion of the Senior Class in regards to our friendly contemporaries, the Other Classes. "A bunch of dead-heads" is the conclusion reached by Dex Warriner. Hopkins briefly says "n. g."; while our eminent Doctor Focht says his opinion "isn't fit to print." Ayres points out that they are "coming along", which is a point that none of us can gainsay.

"AN EXTINCT UTOPIA"

is the tribute Heller gives to the present Arcadia. This name seems to epitomize the opinion of the Senior Class in regards to this august body. Doster Focht stoops to conquer by asking "What's it for now?", while John Jay Ivory Jamieson likens this body to that famous old piece, "The Old Gray Mare."

"AN EXCLUSIVE BULL SESSION"

declares Diener in referring to our Interfraternity Council which is ably substantiated by Kemmerer who states that this assemblage is "comparable to the League of Nations". York claims them to be "all

men of honor," while Bill Long makes the potent remark that they are "always throwing dirt." Jenkins, however, hits the nail on the head when he scornfully points out that their meetings are nothing but "wasted time."

"THE INTERCOLLEGIATE WRESTLING ACADEMY"

With this neat title, Baker gives us his opinion of Mealey's. This famous dancing emporium is also lauded by Skinny Boggs who declares it a "good hunting ground." We wonder what he means. Shigo claims to have been "kicked out of better places," while Eddie Hartmann takes the cake by pointing out that it is "usually a good fight."

"THERE'S THE RUB"

quotes Edson from Shakespeare in reference to the Colosseum. This is just another subtle meaning which is beyond the comprehension of the Class Book Committee. Kiefer says "I have never been there—sober." The more serious side of the dance hall is brought out by George Hampton who asks "where is my wandering girl tonight?" Bishop claims it to be one of the best arenas of the Lehigh Valley, and Bob Allan says it is a "good butcher shop."

"NICHT SO GUT"

Thus Joe Maguire delivers his candid opinion of our triplet sister city, Allentown. Master goes Joe one better with his neat statement "the Land of the Dutch and the home of the Dumb." Focht again comes to our rescue by taking the pecuniary viewpoint and asking "is it worth the carfare?" However, Bonney gave us the real opinion of our class when he made the potent remark "nice women."

"PITTSBURGH'S ONLY RIVAL"

This name given to us by Hiller banishes all doubts from our minds as to the smoky atmosphere of Bethlehem. Quite another aspect of our little Dutch town comes from Burt, who states that it is "Hollywood's rival." Jimmy Degnan says "my home town is a one horse town"; to this statement the majority of us agree with the possible exceptions of some of our white wing brothers. Bob Allan claims it to be an "old home for fat cops", while Campbell probably comes nearer to the truth with his statement, "a home for bootleggers and bats."

"TO HELL WITH LAFAYETTE"

says McBride in speaking of the town down the river, known as Easton. Ted Rakestraw climbs to the hall of fame when he cracks wise by saying it would be "better off the map," while Laux puts it quite delicately when he says "it's polluted." Donaldson makes the potent remark "thumbs down", which seems to agree with the feelings of the majority of our class.

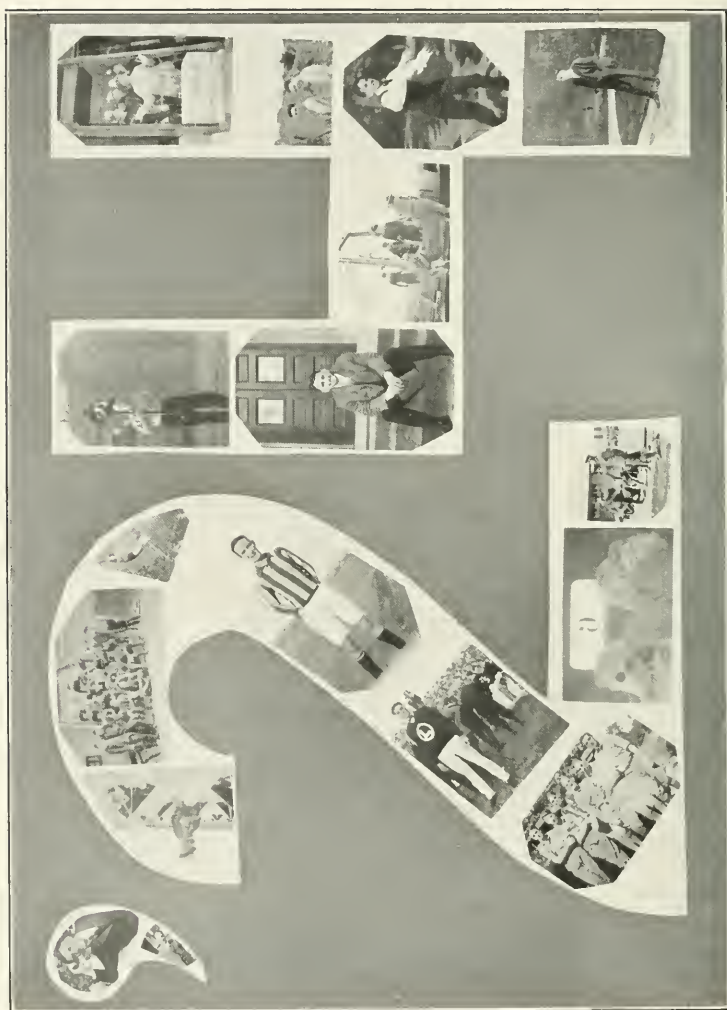

"WHERE'S THE HOSE?"

is the firemen's pet expression on their arrival at a fire, according to Martin. George Laux concedes that "they add to the confusion at the conflagration." Wood asks "why call them firemen?" while Bill Long claims "they know where to get good beer." Kemmerer says they are "good Haus im Pfeffer players," but Burt gives us the utmost in sarcasm by stating that they would make "lovely sailors."

"AS BROAD AS THEY ARE LONG"

is what Taylor Cornelius thinks of our policemen, while Van Dyke wants to know "what they eat to get so fat." Along the same line Degnan breaks forth with a subtle bit of humor when he states that "they are underfed." Ray Hawkins goes into details and states that they "earn their graft." Hunter, speaking from experience, says that they are "good bootleggers." We cannot vouch for this, but they at least ought to be good at something. According to Langfitt, they only have one virtue and that is "dumb."

"EXPENSIVE"

writes Bob Allan in expressing his views on Registration. "To much red tape" comes in unison from Bonney, Degnan and Drake. Gerhart thinks it is a "supreme test of intelligence," while Ingols scornfully points out that it is an "awful mess". Joe Boyle stoops to conquer when he asks "How is it done?"

"NO SOAP"

With this expressive remark, Don Luce expresses the opinion of the majority of our class in regards to Fem Sem. Di-Guillian declares he "hasn't any inside dope" which can hardly be questioned, while Troland substantiates Red by daring anyone to "try and get in." Tom Maxwell gives us the philosopher's viewpoint with his statement "Once in, never out. Once out, never in." Saunders banishes all doubts from our minds in regards to the Moravian Seminary for Women by declaring it to be "a closely guarded secret."

"A REAL COLLEGE PAPER"

with these words, Freddy Rogers, our president, gives us his opinion of the status of the Lehigh Brown and White; we all agree with you, Feddy. Gordon Rogers goes into details and states that the "Around the Campus column is a great addition." Brewster Grace claims that it "makes the New York Journal seem conservative."

"HOT HUMOR"

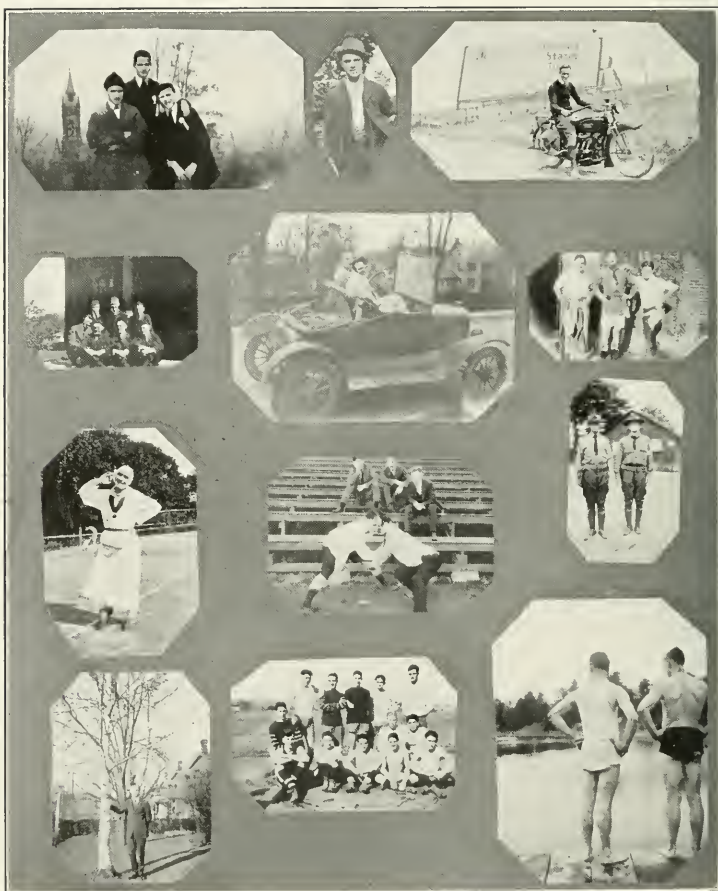

with these two words, Allan describes his opinion of the Lehigh Burr. "Too much work" comes in unison from Adams, Bumbaugh, and Hopkins, while Hottinger claims it to be the "best ever." Meyer gives us another angle on the Burr by warning us to "peruse before distributing." Gerhart puts it quite nicely by stating that it is a "sure means of gloom dispelling."

"CAPITALIZED HOT AIR"

declares George Hampton in reference to the Lehigh Band. Grace seems to think it is a noise carnival by stating that he thinks "the clarinet will win." The opinion of the majority of the class is that "it needs Joe", while J. M. Rice makes a statement that can't be refuted when he says that it "makes Lafayette's so-called band sound like a mouth organ."

"BOTH ROBBERS"

is Tom Maxwell's opinion of the Young Brothers, Ed and Bob. Kemmerer goes into details and declares they are "co-operative—first, poison and then Bromo-Satisfier." "One can't exist without the other" states Luke Gorham, while George Hopkins substantiates him by saying they "ought to combine". George Laux comes nearer to the truth by conceding that they "strive to satisfy."

"SPELLED WRONG"

declares Paul Miller in reference to the famous Hill-to-Hill Bridge, but then Paul is a little bit biased when you think that he comes from Bethlehem. Strawn gives us the pecuniary side of the new bridge by conceding that it will be "a penny saver", while Red DiGuilian claims it to be "the missing link." "A monument to Bethlehem" is the tribute given to it by Bishop. Jimmy Degnan claims it "should be from college to Hotel Bethlehem", with whom some of us heartily agree. Bridegam takes the marbles with his neat statement that it is "a concrete idea."

"A SWELL PLACE"

"for a murder", with this neat statement George Cornelius describes his opinion of The New School; some of the fellows in the recent raid would undoubtedly express quite similar opinions. Jamieson thinks it's a "misleading name," while Porter Langfitt claims that it is "nothing new." "Puts on the finishing touches", says Roberts, which is another statement that none of us can gainsay.

"ASK DAD HE KNOWS"

suggests Stern in stating his opinion of House Parties. Kiefer calls them "endurance tests," while Bill Wooldridge thinks they are "an education in themselves." Shigo gives us the real opinion of the class when he states that they are "too expensive."

"WHEN GREEK MEETS GREEK"

quotes Walter Heske in regards to the Colonial Restaurant. "Ros bif" comes in unison from Troland, Wentz and Wiegner, while Burt scornfully points out that it is "Greecy." Speaking from person experience, George Cornelius declares that it is "a riot every Saturday night about 12M."

"A WISE OWL"

With this potent remark, Diener gives us his opinion of the new Dean. Hugh Troland gives us another angle on the Dean when he accuses him of being "system personified"; you must have been thinking of Registration, Hugh. Saunders banishes all doubt in regards to the light the student body takes the new Dean in by stating that he is "a welcome addition." Thompson substantiates this statement by merely saying, "he's white."

"DEUCEDLY INCONVENIENT"

"—for some", scornfully points out Wood in regards to the world-famous Eighteenth Amendment. George Hopkins thinks it's a "waste of paper", with whom the majority of us seem to agree. "What's the use," comes in unison from Donaldson and Jenkins, while all Lynn Hendrickson can say is that it's "all wrong."

"THE 1.5 STEPS"

is what need reforming in college declares Bill Long, with whom the majority of us heartily agree. Underwood advises us to "ask the Dean", while Edson suggests that their might be something wrong with "the Faculty." Strawn thinks that the main thing that needs reforming is the "hill, turn it around so we always go down." The most of the class reported that there was not enough space to list all of the things that need reforming here at college.

"I GREW ONE INCH"

reports Shorty Hoagland as his greatest achievement while here at Lehigh. Kasper reports that he "got something for nothing at the Supply Bureau"; it certainly must be some feat to put something over on Freddy Ashbaugh and his cohorts. Hunter claims that he went from "Lehigh to Carnegie Tech, 72 cents and a lower berth" which is indeed an achievement of which to be proud. Carol Stille takes the marbles however by "sleeping in class with his eyes open."

"ENTERED THE SEA OF MATRIMONY"

according to Ziegenfuss is the worst thing that he has ever done; this should serve as quite a warning to the rest of us poor bachelors. Alwine claims that he wasn't in a "condition to remember; we can but wonder what he means in these days of the 18th Amendment. Bridegam claims that he did "worse than that." Hottinger stoops to conquer when he declares that he "threw moths on Barry, the Nut's, overcoat."

"IN SHORT PANTS"

is the way Paul Fleck claims he kissed the first girl, while Ed Robinson did the deed with "fear and trembling." Jimmy Sanford says "I accomplished it by my own system—it can be learned on the receipt of five (5) dollars"; it evidently works too, because Jimmy came back to us this year with a blushing bride. George Hopkins breaks forth with another subtle bit of humor when he states the "first girl was Eve, and that was before my time."

Faculty Ballot

<i>Wisest</i>	Stoughton—51	Lambert—21	Eckfeldt—14

Conclusion

The work at last is done. Or is it? We do not know and yet we feel that we have bored you quite enough. We have hoped that the readers of the foregoing portrayal or betrayal or what-you-will of our class. If you have, we congratulate you. If you haven't, we at least give you credit for sticking it to the end, even unto this conclusion.

To be sure, our work is incomplete, for who could write such a history of mankind in so short a book. We feel that a few thousand more pages should have been employed, but then we are human and the typewriter runs hard.

The Senior Class Book Committee wishes to take this opportunity to thank the class for its co-operation in this great undertaking. We also wish to thank Bill McCaa, our photographer, The Read-Taylor Press, our printers and engravers; our Junior associates for their patience, great help, and masterful work. It has been a great pleasure to compile this data, and we hope that it will serve as a cherished keepsake and comforter to the members of our illustrious class in their old age.

JUNIORS

W. C. GREER, JR.
PRESIDENT

History

HOUGH cut off in its prime by the severe scholastic requirements of the freshman year, the Class of 1925 never-the-less is rounding out its third glorious year amid the congenial surroundings of South Mountain.

As Freshmen we won the majority of the Founders' Day Sports. As Sophomores we did not. But we find it pleasant to reflect that, both as freshmen and as sophomores we outwitted our oppressors at both class banquets. Under the able leadership of our field generals, the Class of Twenty-Four was out-manuevered and in spite of much preparation on their part. After noses were counted it was found that only twenty-six of our bravest had fallen. Then our sophomore banquet. Twenty-six read our history and realized that they were not to deal with an unorganized mob and if they hoped to offset our previous success they would have to put forth extra effort. They did and though it cost them considerable money, it was of no avail. So deeply laid and so ably executed were our plans that every man was there was not a single frosh in sight. The banquet itself will live in our memories forever.

Twenty-five has made good the promises of its first year. The individual members have made remarkable successes both in the classroom and on the campus. When we take our positions on the campus as seniors, it will be with the knowledge that both as individuals and as a body we shall be able to preserve the customs and traditions of this great heritage.

Historian.

F. J. STEPHENS
PRESIDENT

' WAS but a year ago that we blossomed forth with our emerald intelligences. We were caught without matches and at times were reprimanded because of misplaced hands. Traditions, however, were soon learned and organization followed. In fact, never was such organization seen in the history of Lehigh, for we have the brilliant distinction of anticipating the sophomore banquet some days before it was held. Anticipation was not all, however, we even transported sophomores to numerous, divers and sundry redoubts in the Lehigh Valley. This incident coupled with our winning the Founder's Day contests proved that the constituency of our class was of the sort that Lehigh wants. As a whole, our first year was varied and taught us how we must be in future years, if the standard of this university is to be upheld.

With this in mind we started in this year by taking care of that problem to which all sophomores are assigned—Frosh. Our success in this effort lies in the fact that our goal was to make the existence and behavior of the new bunch bearable to the upper classes without making college life distasteful to the Frosh themselves.

If in the future our class is as good socially and athletically as it has been in the first two years of its existence, we can say truthfully that "we have done noble."

FRESHMEN

History

I. W. LITTELL
PRESIDENT

ORN—On September 19, 1923, another Freshman class. On that eventful day we emerged from Chapel and were greeted by the Sophomores, who lost no time in trying to subdue our pent-up excitement. After putting us thru the usual Freshman stunts we were told what our duties were for the coming weeks. We were forced to accept these terms for the next two weeks. Then came those eventful "Founder's Day Sports". The Sophomores entered these sports in very high spirits, but the Frosh saw to it that these spirits were greatly dampened. We defeated them in the majority of these sports, and by so doing acquired the respect of the college for a time. We also attained that longed for privilege of wearing "civilized" hats on Sunday.

Soon college thoughts turned to football and then the true spirit and fight of '27 showed itself. We had some very prominent men on the Varsity eleven that had such a very successful season. When interest in football waned it was turned to basketball. The Freshman team of '27 was one of the strongest in the history of the university, defeating their old rivals, Lafayette. We also had representatives on the powerful Brown and White five that so decisively defeated Lafayette for the first time in some years.

To date these are the achievements of our class, but, with spring sports, class banquets, and various other college doings ahead we hope to continue as we have started, and in succeeding years to be regarded as a class, strong in spirit, and one that carried that spirit into each activity in which it entered.

1920	<i>Nu</i>	University of Toronto

Interfraternity Basketball

SEASON 1923-1924

First Round

Delta Upsilon defeated Theta Xi.
Chi Psi defeated Sigma Chi.
Kappa Sigma defeated Chi Phi.
Delta Tau Delta defeated Phi Gamma Delta.
Beta Theta Pi defeated Sigma Phi Epsilon.
Phi Sigma Kappa defeated Delta Phi.
Alpha Tau Omega defeated Sigma Phi.
Alpha Chi Rho defeated Psi Upsilon.
Pi Lambda Phi defeated Theta Delta Chi.

Second Round

Sigma Nu defeated Kappa Alpha.
Delta Upsilon defeated Phi Delta Theta.
Delta Tau Delta defeated Kappa Sigma.
Alpha Tau Omega defeated Alpha Chi Rho.
Chi Psi defeated Delta Upsilon.

Third Round

Beta Theta Pi defeated Delta Tau Delta.
Alpha Tau Omega defeated Phi Sigma Kappa.
Sigma Nu defeated Pi Lambda Phi.

Semi-Finals

Sigma Nu defeated Alpha Tau Omega.

Mustard and Cheese

THE Mustard and Cheese Dramatic Association was organized at Lehigh in 1885. Membership is open to all undergraduates. In former years, the club presented each season, one or two short melodramas, but last season they concentrated all of their efforts upon one musical comedy, written entirely by Lehigh undergraduates. The performance was a notable success, with the result that the Association will no doubt continue this type of performance in the future.

Arcadia

OFFICERS

President

R. D. WARRINER

Treasurer

G. T. JONES

Secretary

A. B. SAYRE

THE Arcadia is the student governing body, and its membership consists of one representative who must be an upper classman from each of the living groups of students in the University. This body acts upon questions of campus activities, and serves as a medium between the faculty and students. All recommendations from students to the faculty are made through this organization. The President of the Arcadia is the recognized leader of the student body, and he presides at all college meetings.

THE Saint Paul's Society is a social organization for the purpose of uniting the students and faculty who are members of the Episcopal Church. The Society hears prominent speakers at the monthly meetings, and in addition, students are often called upon to give short talks. They usually hold one or two dances during the college year for the entertainment of the members and their friends.

 Stevens—*Halfback*
 Levitz—*Fullback*
 Prior—*Quarterback*

COACH BALDWIN

COACH BALDWIN has completed his second year as head mentor of that big Brown and White Team. In his two short years with us he has shown us that he knows football and the results of this past season were very gratifying to say the least.

With "Bosey Reiter" as a staunch supporter and "Pat Pazzetti" whose loyal enthusiasm and love for the game has helped the team through many a critical period, our season next year should attain its highest ambition "BEAT LAFAYETTE."

CAPT. WM. W. SPRINGSTEEN

Tackle

BILL'S" fight and ability to diagnose the plays of the opposing team showed that he was entirely deserving of the captaincy. A tower of strength in the line and a natural born leader of men opens our eyes to the fact that in losing "Bill" this year through graduation, we lose a man who has been an invaluable asset to the team.

MANAGER J. FREDERICK
ROGERS

REDDIE", always an ardent supporter of athletics, ran the managerial strings without a hitch. His pleasing personality and enthusiasm always was a source of delight to his associates. He managed the affairs of the team in such a manner as to satisfy all those concerned.

JOHN W. STORER

Halfback

CAPTAIN-ELECT of next year's football team. "Jack" is speedy and is also an exponent of power and strength to the team. His punting and brilliant work at the half-back position during the past season has won for him a reputation for being one of the gamest and grittiest of players. His end runs brought forth many a cheer from the side lines, and caused no end of fear in the hearts of the opposing team and their supporters.

WILLIAM C. GREER

Fullback

HMORE steady and consistent player could hardly be found. "Poss" is one of the cleanest players in the business today. He is fast, and has the ability of picking holes and striking with such velocity that when a couple yards were required to make a first down or a score, the outcome was inevitable.

MILTON S. ROTH

Center

"MILT" was compelled to drop football last season due to a physical disability. However, this season he came back and filled the pivot position with a wonderful type of football.

JAMES L. SANFORD

End

"JIMMY" showed up better than ever this year at end. He had a faculty for crashing through on the defense and stopping the runner and breaking things up in general. "Smother him"—it couldn't be done. Many a team has come to grief in trying to do just this because "Jim" always had his eyes open for any sort of trick formation.

HAROLD C. HENDERSHOTT

Guard

ED" played his usual good game at the guard position. He could tear holes in the opposing line at will and also adapt himself to any trick formation an opponent tried to pull, showing that he had a thorough knowledge of the game.

FRED J. STEPHENS

Halfback

STEVE" also hails from Mercersburg Academy. A hard worker and always full of that fight and spirit that makes a man do all he can and then a little more. "Steve" often got away for a good run. He is a second year man and if he continues to progress in the future as he has in the past he will give even a better account of himself.

HARVEY J. JACOBS

Halfback

H YEARLING is this man in college but far from being a yearling on the gridiron. Jacobs' speed and knowledge of the game was a great asset to this year's team. With three more years of college football ahead of him he should develop into a great player.

WILLIAM J. HOFFMAN

Guard

H HE spirit of Hoffman". Misfortune shown upon the Lehigh team when Hoffman was injured the week before the Lafayette game. "Bill" a component of strength, power, and fight played his last year for the Brown and White. His work at the guard position was always unfaltering and Lehigh loses one of its hardest workers.

EDMUND M. BURKE

End

"ED" has played varsity football for two years. The manner in which he held down his end position this year was a source of delight to all Lehigh supporters. At the kick off or after a punt one knew that "Ted" was going to be among the first to be near the ball when it landed. He still has a year to play and with his past experience he will be a great asset to the team next season.

HOWARD E. MERRILL

Tackle

"HOWDY" hails from Mercersburg Academy. He is over six feet tall and with this height and 190 pounds of brawn he has been a source of fear to all opposing him. His ability to play the tackle position is not doubted in the least which is shown by the fact that during his two years here he has been awarded the varsity "L" each year.

WILLIAM H. WALKER

End

HARDER worker than "Dixie" could not be found. Undaunted by failing to get into all the games, he swallowed his pride and worked all the harder. There is no question but that next season some aspiring end will have to show a lot of ability.

JAMES R. YEAGER

Guard

IM" has had terrible odds to fight against in trying for a varsity berth. The injury to "Bill" Hoffman in the Alfred game, however, gave him just the chance he was waiting for. In the Lafayette game "Jim" held down his position in a manner that would be a credit to a veteran. With his past experience he will be a formidable antagonist to any opponent.

HUGH F. MCGOLDRICK

Tackle

TACKLE who was in every play, always hitting his opponent hard. This is "Mac's" second year of football at Lehigh and we expect great things from him next year.

HENRY LEWIN

Quarterback

ONEY" showed up well this season. The manner in which he ran the team at quarter was a credit to him. He is fast and is known for his drop kicking, scoring the first points against Lafayette by his educated toe.

CHARLES F. LINGLE

Halfback

UDDY" has had a jinx in college football, for he always has had more than his share of injuries. His determination and ability make him one of our best backs this season.

Review of the Season

HAT same fight which has placed Lehigh high up in the ranks of foot-ball circles was again shown this year. That indomitable spirit has won for her a place among the strongest teams of the East.

As a basis for comparison of the strength of athletic teams, comparative scores are often used. In many cases they cannot be depended upon as a reliable basis for comparison, but on the other hand, they can be used with a fair degree of accuracy in determining the standing of a team. On this basis, a brief discussion of the comparative strength of the Brown and White Gridiron Teams is as follows:

At the beginning of the season, Lehigh conquered the Gettysburg warriors by the large score of 26 to 6. One week later the Nittany Lions of Penn State succeeded in piling up only 20 points against the battlefield collegians. Since Gettysburg held Lehigh to a scoreless tie in 1922, they were all primed to beat the Brown and White machine this year. On the other hand they went into the Penn State game with the idea of holding Penn State to a low score. These facts would seem to point Lehigh being superior to State since the scores against Gettysburg are comparatively the same and since Gettysburg entered the Lehigh game with a different attitude than that with which they entered the Penn State game. Now, Penn State decisively defeated the University of Pennsylvania, which in turn defeated Pittsburgh and held Cornell to a 14-7 score, and according to newspapers, which are not printed in Philadelphia, Cornell was lucky to beat Penn.

The next achievement of the Lehigh grid men which is favorable for comparison is the 13 to 6 victory over Carnegie. It is history that Carnegie defeated Pittsburgh, who in turn decisively beat Penn State in the annual Thanksgiving struggle between the two rival institutions. This strengthens the above statement of Lehigh's superiority over Penn State.

On Thanksgiving Lehigh journeyed to the land of cheap turkey and defeated Brown, which means more than the average victory does. Brown had overcome Harvard two weeks previous by the score of 20 to 7, and they fought just as hard in the Lehigh game as in the Harvard game. Harvard defeated Princeton and held Yale to a 10 to 0 score. Lehigh's victory

over Brown makes the former three touchdowns better than Harvard and since Harvard was beaten by Yale by only two touchdowns, on paper, Lehigh could at least hold its own with Yale.

Although defeated West Virginia probably had one of the strongest teams in the East, but here again Lehigh can compare favorably since the former only tied Penn State and Lehigh was figured to be better than Penn State from one of the foregoing comparisons. Syracuse might also be considered among the most powerful teams in the East. The orange-clad grid men defeated Pittsburgh by a solitary field goal and here again the Lehigh-Carnegie-Pittsburgh comparison would show that Lehigh was superior to Syracuse. The superiority of Lehigh over the Army and Navy is evident from the Army-Yale and Navy-Princeton game. From the above figures, it would seem that Lehigh's football machine compares favorably with many of the strongest teams in the East. It must be remembered, however, that with football as it is played today, comparison of teams by means of scores is in some cases very misleading, and to assume them authentic would be pure folly.

Review of the Season

THE baseball season this year was rather a disappointment, Lehigh scoring only two-thirds as many points as her opponents. Nevertheless it should be remembered that several positions were very weak. The veteran Lees had to be relied upon again to do the bulk of the pitching, while the filling of the short stop and second base positions was left up to men who had to sacrifice their usual position in an unselfish manner in order to get the best possible combination.

The opening game was played on Taylor Field with Vermont. The strong New England team won by the score of 3 to 2.

The next game was played, away from home, with the powerful Princeton sluggers. They had already scored three previous wins and added one more to their list.

Then came the strong Fordham team with that veteran Coach, "Tom" Keady at the helm and guiding them throughout the game to a victory by one run. It was a hard fought game and the winner deserved its honor.

The Cardinal and Grey team from Allentown next invaded the Taylor Stadium. Lehigh sluggers showed here what they could do by scoring five runs in the first innings. Muhlenberg then tightened up, however, and held Lehigh for the balance of the game.

Delaware, Swarthmore, and Seton Hall were next on the schedule, each departing from the lair of the Lehigh team with spirit broken because Lehigh had scored three successive wins.

West Virginia then came to the Lehigh Stadium with the determination, growing out of a terrible defeat at Georgetown, to take their revenge out on some unsuspecting team and picked on the Brown and White to do it.

Lehigh then journeyed to Worcester to meet the strong Holy Cross team and received a terrible wallop. After the dust had died down it was found that the Worcester Collegians had run up a score of fifteen runs to Lehigh's 0.

Rutgers was then the guest of Lehigh and in a game that was marred by frequent errors, by both teams, the final score showed a tie of 7 to 7.

Lafayette then took the first of a series of games by the score of 3 to 2. The game was played in almost a continual shower and finally had to be called. The "Jinx" still upon us.

Lehigh scored an easy victory over Ursinus in the next combat and rolled up a score of 14 runs to Ursinus' 1. Lehigh's heavy hitters coming into their own by amassing five home runs and several three base hits.

March Field was the scene of the next struggle and Lafayette again showed her supremacy by a victory of 9 to 3.

On the 13th of May Bucknell arrived to cross bats with the Brown and White. The latter team braced up their work, however, and scored a victory.

Boston College was the attraction for the Alumni Day classics and furnished a good antagonist for such an occasion.

Review of the Season

HE basketball team, captained by "Buddy" Lingle, started the season with an easy victory over the Moravian College quintet. This proved, however, only to be an indication of what was in store for the Lehigh basketball fans for the rest of the season. Seton Hall, Albright, Stevens, Villanova, Muhlenburg, Fordham, and Temple falling easy victims to the excellent floor work of the team and veteran generalship of the Captain.

Rutgers College five were the next to visit the Taylor gymnasium and in a game that was hard fought by both teams Lehigh emerged by defeating them by the score of 32 to 21.

The Lehigh cage men then journeyed to West Point where they suffered the first defeat of the season at the hands of the strong Army dribblers.

In the first of a series of games with Lafayette the Brown and White team defeated the down-the-river boys by the score of 33 to 26.

Swarthmore and Rutgers were the next two teams to oppose Lehigh. Swarthmore was easily defeated and Rutgers finally nosed out the Lehigh team in the second of a series of games with them.

The Brown and White team was then opposed by Gettysburg and, surprising to all concerned, the Battlefield boys furnished very stiff opposition. Lehigh only winning by a margin of one point, and then in the last few seconds of play.

The second game with Lafayette was played in the Taylor gym on March 1st and in a fast game Lehigh succeeded in taking the series by the score of 22 to 19.

Review of the Season

HIS review, owing to the time of this book going to press, must be based on the results of six meets. For the rest we can only prophesy and hope that we are correct in every degree.

The Brown and White grapplers opened the season with the Princeton matmen scoring an overwhelming victory over their old rivals. Coach Sheridan's men showed the effects of what continuous expert coaching and hard work will do. "Billy" has instilled into his team that indomitable spirit and fight which is an integral part of every well-coached Lehigh team. As the season record shows Lehigh emerged with a 20 to 0 victory.

The Lehigh wrestlers then journeyed to Annapolis to meet the strong Navy team and were defeated by the score of 16-11. However the results might have very easily been different had it not been for the fact that Levitz tore the muscles in his shoulder and therefore fell to the Navy heavyweight.

On February the 16th the team traveled to New Haven to meet the Yale Bull dogs. Here they succeeded in scoring the second victory of the season by the score of 16-11.

The next two meets of the season resulted in losses to Lehigh, first to Cornell 11-9, then to Penn State 12-6. Our team, however, was at a disadvantage due to injuries in the 115-pound class and the heavyweight class.

Lehigh's matmen then journeyed to Boston and won a decisive victory over M. I. T. by the score of 12-8.

1924 Intercollegiates

LEHIGH journeyed to Yale this year and came back from the intercollegiates with fourth place at their belts. "Dex" Warriner was the only one to capture a championship this year and he did so in his usual manner of quick disposal. Rogers and Washburn, however, took second place in their respective classes, while Reynolds grabbed off third place in the 115-pound class.

Penn State won the team championship with a total of 22 points; Cornell was second with 17; Yale third with 15; Lehigh 14; Pennsylvania 4; Princeton 3; while Columbia repeated last year's performance in failing to score a point.

The meet this year was one of the closest and most exciting that has occurred in recent years; most of the bouts were not decided until the last second of time was up. Next year Lehigh's team should eclipse the brilliant performance of this year because of the excellent material that will be available and with several veterans to build the team around, its success is almost assured.

Season Record

Review of the Season

WITH only three old men as a nucleus around which a Lacrosse team was to be built, Coach O'Neill found that he had a hard task to perform. The season's scores do not show the work of a veteran coach but the determination and skill and the fight which comes to a man, when he has his back to the wall, slowly soaked into the players. While only winning a few of their games this season, big things are looked for in the coming season.

The opening game was played with the fast University of Maryland twelve. With so much green material the outcome was inevitable; the Brown and White suffered a bitter defeat. The next game was with the New York Lacrosse Club and the Brown and White lads easily defeated them.

Rutgers then visited the Taylor Stadium amid the color and enthusiasm of the House Party festivities and suffered defeat at the hands of the Brown and White stick men in a very interesting game. Lehigh won the first league game against Stevens by the score of 8 to 0.

Swarthmore and the University of Pennsylvania were the next two league teams to be played. But the Brown and White material was still not versed well enough in the tricks and fine points of the game to withstand the hard playing and experience of two practically veteran teams of championship calibre. However, the game with Swarthmore was very close, Swarthmore winning by a margin of only one point. The University of Pennsylvania, however, scored 4 to Lehigh's 0.

The undefeated Baltimore squad was the last of the league contenders. The whirlwind attack of the Johns Hopkins veterans demonstrated its superiority in the second half and they scored a comparatively easy win over the Brown and White team.

SEASON RECORD

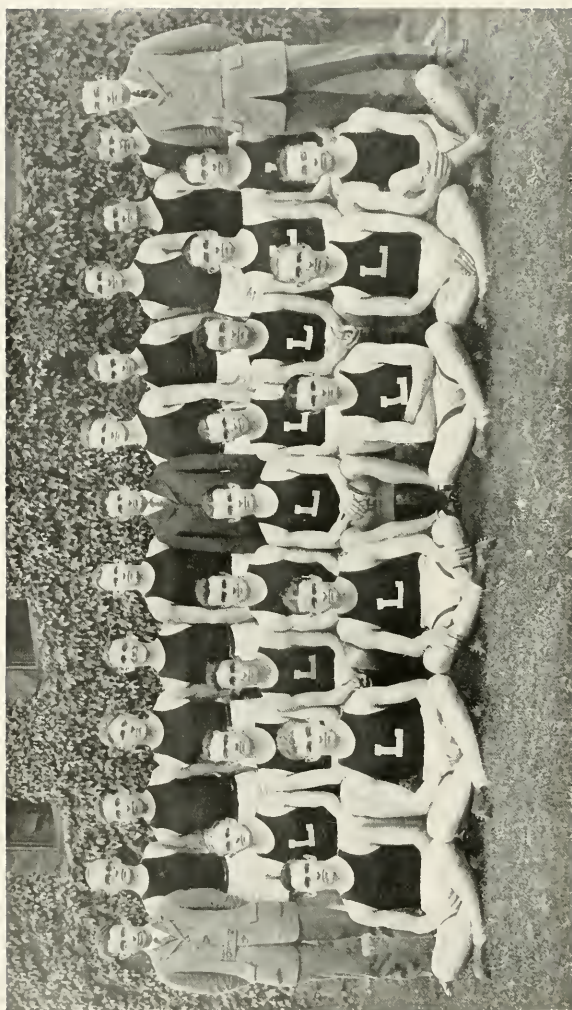

Lehigh, 3	University of Maryland, 9
Lehigh, 4	New York Lacrosse Club, 0
Lehigh, 1	Navy, 10
Lehigh, 7	Rutgers, 3
Lehigh, 2	Swarthmore, 4

Review of the Season

HE track season at Lehigh was a strenuous one. The indoor meets during the winter months resulted in a few victories. The work of Carol in these meets outshone all his previous trials since he placed first in several events and second in others. A. W. Springsteen and F. H. Leister also placed in several events.

The Class of 1925 took second place; 1923, third place; and 1926, fourth. 51 men competed. The Class of 1924 came out on top. Carol, one of five men entered in this class, scored 25 of the 52 points marked up for them. The Class of 1925 took second place; 1923, third place; and 1926, fourth place.

The Dual meets started with Muhlenberg on April 14th. Lehigh won by the score of 67 to 45. Carol equalled the 100-yard dash mark of 10 seconds flat, made by Sproul of Lehigh in 1913, and broke the 220 low hurdle mark of 27 seconds, made by Aman in 1909, lowering the old record by $4\frac{1}{5}$ of a second.

Rutgers then invaded the Lehigh field and handed the Brown and White team a jolt to the tune of 76 to 36. Lehigh scored heavily in the discus.

The Brown and White team then journeyed to the Penn Relays held Friday and Saturday, April 27-28. Carol placed second to Laconey, of Lafayette, in the 100-yard dash.

Lehigh defeated Drexel Institute on May 5th by the score of 89 to 28. Carol won the 100-yard dash; Captain Wight the 220-yard dash; while Siegmund and Fulton took second and third places in the two-mile run.

One of the most evenly matched meets of the season was with the University of Delaware on May 12, Lehigh winning by the score of 70 5/6 to 55 1/6.

The Middle Atlantic States Intercollegiates were held at Muhlenberg. Lehigh showed herself to be on a par with Bucknell, tying them for eighth place with a total of six points.

The next dual meet was with Lafayette at Bethlehem. The Brown and White team suffered defeat to the tune of 32 to 80.

Individual Point Scoring in Dual Meets

J. M. Carol	64	W. S. Tyler	9
J. L. Sanford	25	A. L. Fulton	9
M. S. Roth.....	21	H. R. Talmage.....	8
L. J. Bray.....	19	J. R. Yeager	7

SUMMARY OF DUAL MEETS

April 14—Lehigh	67;	Muhlenberg	45
April 21—Lehigh	36;	Rutgers	76
May 5—Lehigh	89;	Drexel	28
May 12—Lehigh	70 5-6;	Delaware	55 1-6
May 23—Lehigh	32;	Lafayette	80

ANNUAL AWARD OF CUPS

The Phillip L. McGrath Track Trophy, for excellence on the track was awarded to Jose M. Carol.

The Theodore H. Meyer Field Trophy for excellence in field events was awarded to James L. Sanford.

The large "L" was awarded Jose M. Carol for setting a new Lehigh record in the 220-yard low hurdles, doing it in 26 1-5 seconds in the dual meet with Muhlenberg. The former mark of 27 seconds was made by Aman, '09.

Review of the Season

At the beginning of the swimming season it appeared that Lehigh would have a strong swimming team, but Fate stepped in with one of its unheralded pranks and robbed the team of its Captain, H. G. Harmon, who was taken seriously ill with typhoid fever, and later of its coach, "Jimmy" Mahoney, who suffered a nervous breakdown.

It was with the loss of Harmon that the Brown and White natators journeyed to Providence to meet the strong Brown University team on January 12th. The team suffered a stinging defeat by the score of 46 to 16.

The next meet was with the West Point Cadets and in a meet that was filled with excitement and thrills, and only won in the last two events, Lehigh was defeated by the score of 36 to 26.

It was after the Army meet that Coach Mahoney was forced to resign, consequently Lehigh had to face Rutgers, last year's intercollegiate champions, in a badly crippled condition. In this meet, however, the dashes and dives were hotly contested. Captain Astarita displaying masterful form against Captain Galbraith, Rutgers' veteran diver and member of the Olympic team. This meet was lost to Rutgers by the score of 49-22.

The Lehigh tank men were then opposed by the N. Y. U. swimmers and won an easy victory by the score of 54 to 8. Catholic University, the following week, likewise fell an easy victim to the Lehigh swimmers by the score of 58 to 13.

Lehigh then suffered a defeat at the hands of the Johns Hopkins mermen by a margin of 13 points.

The Lehigh swimmers then retaliated in the next meet by defeating Swarthmore by the score of 47 to 24.

Season Record

Review of the Season

THROUGHOUT last season the Brown and White team, although unable to capture the much coveted championship of the Pennsylvania State Intercollegiate Soccer League, had a very successful season, winning second place. Besides the team in the last game of the season easily swamped the Lafayette team by a score of 5 to 1.

The team was particularly fortunate in having Harry F. Carpenter for coach, who turned out a championship team for Lehigh last year. The Brown and White booters met and conquered such formidable aggregations as New York University, Lafayette, Haverford (2nd), and Swarthmore; but tied Navy and lost to the Army, University of Pennsylvania, and Penn State. Three exhibition games with local industrial clubs were played. These games, which were played in the earlier part of the season, gave the team a chance to discover and to remedy a number of weak spots.

Throughout the season the team was harrassed by several minor injuries. During the latter part of the season Captain Fernandez sustained an injury which prevented his playing in the rest of the scheduled games. This weakened the attack of the forward line, noticeable especially in the Penn State game.

Before the team had an opportunity to gain much team work the strong Army team beat them 4 to 3. The following week the Haverford team was held absolutely in check, the Brown and White team scoring four tallies. Next the Navy team secured a 4 to 4 tie. Throughout the game Lehigh was in the lead but in the last few minutes of play the Navy managed to push over their last two goals.

Early in November the team met University of Pennsylvania, which held them to a 3 to 1 score. Pennsylvania obtained their winning points in the last few minutes of play. The following two games with New York University and Swarthmore were won respectively by scores of 3 to 2 and 1 to 0. Then the Brown and White toe artists met a decided reverse at the hands of Penn State, losing by a score of 7 to 1. However, the next game, with Lafayette, was easily won by a score of 5 to 1 on the Lehigh field.

A decided step forward was taken this year by putting a second team on the field which not only gave increased prestige to the sport but also gave a number of men an opportunity to play who here-to-for have not been able to get in any games. Six games were played by the second team, two of which they lost and one of which they tied, the other three resulting in victories. With such advances it is to be hoped that it will be possible to place a varsity in the Intercollegiate league either next year or the following year.

Fraternity Dances

THIS year more than ever before the fraternities at Lehigh have reverted to the time-old custom of giving dances throughout the year. As they were almost evenly distributed, the students at Lehigh have enjoyed one of the most successful social seasons in the history of Lehigh. Most of the dances have been sumptuous affairs, no expense being spared in making each dance better than the other.

The following fraternities gave dances this year:

Phi Delta Theta	Alpha Chi Rho
Phi Gamma Delta	Chi Psi
Sigma Nu	Delta Upsilon
Sigma Chi	Kappa Sigma
Theta Delta Chi	

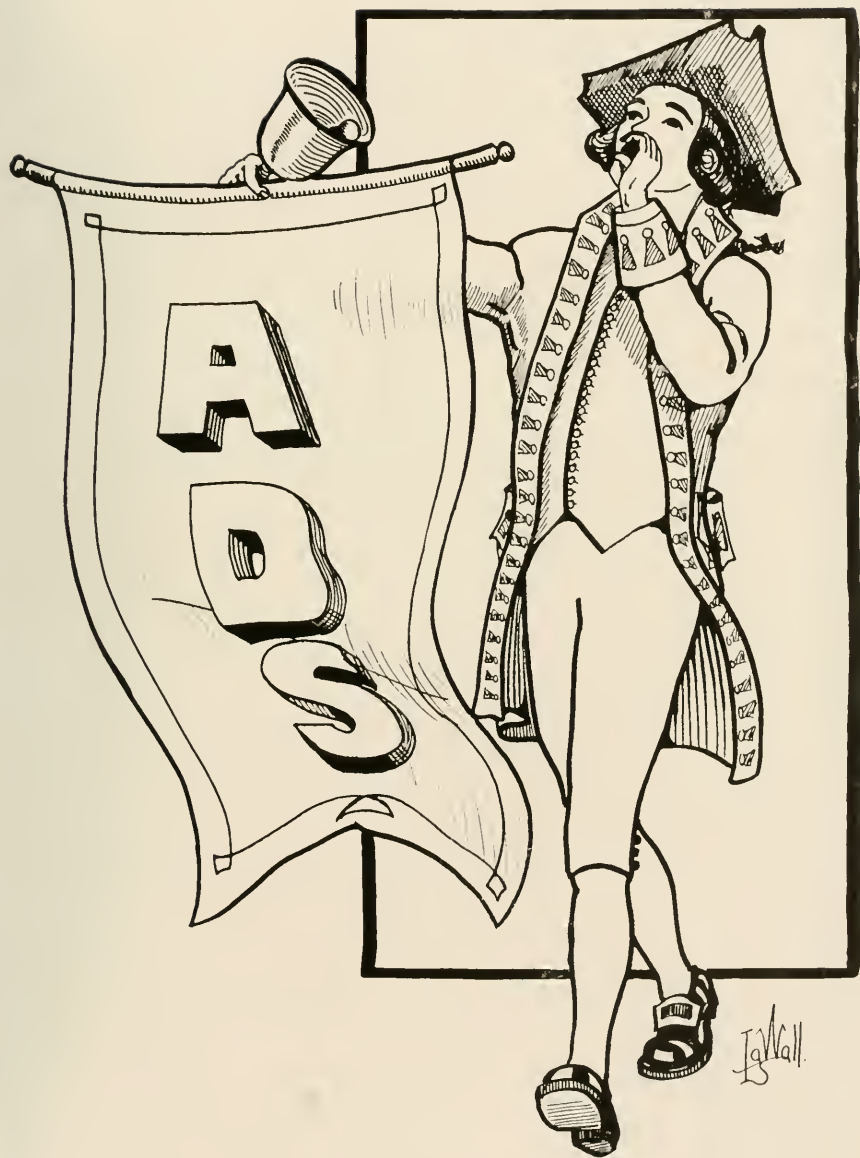

ACKNOWLEDGMENT

The Board takes this opportunity to thank The Read-Taylor Press of Baltimore, Md., our printers and engravers, for their wonderful co-operation and efficient service.

To the Canton Engraving and Electrotype Company of Canton, Ohio, our engravers, is due thanks for their splendid assistance in supplying the cuts.

To William G. McCaa, our official photographer, thanks are due for his valuable services in supplying the Board with pictures and photographs.

Lehigh University

Lehigh University offers the following courses:

College of Arts and Science:

The Curriculum in Arts and Science.

College of Business Administration:

The Curriculum in Business Administration.

College of Engineering:

1. The Curriculum in Civil Engineering.
2. The Curriculum in Mechanical Engineering.

FERALUN
Anti-Slip Treads

SAFETY TREADS

Approximately 15,000 people are killed in the United States each year by falls. The economic waste from this source is over \$140,000,000.

About one-third of the "Falls" are preventable by the use of safety treads.

The selection of the type of safety treads is important.

Treads with a series of grooves parallel to the nosing edge, that are porous, that corrode readily, that have names falsely giving the impression of safety feature not possessed should be avoided.

Be sure the Safety Tread you adopt is SAFE; that it is not a germ incubator, absorbent, easily stained; that it has no eye-confusing and heel-catching grooves; and that it does not deteriorate on account of corrosion.

Consider FERALUN, ALUMALUN and BRONZALUN treads.

Hear the Tailor's Litany,

Flowing like a river.

Men may come and men may go,

But clothes go on forever.

If you ever are in doubt

'Bout clothes or where to take them,

Let Brown the Tailor help you out,

He's the man to make them.

In this Ad the moral lies

It's very, very plain—

If the College Tailor makes your clothes,

He'll make them once again.

Veeder

PRODUCTS: Cyclometers for bicycles and motorcycles, to record distance traveled; odometers for motor trucks and horse-drawn vehicles, to register mileage; counters for recording the production of machines; speed counters for counting revolutions (per minute) of shafts or flywheels; tachometers for indicating in revolutions-per-minute the speed of motors, prime movers, generators or any revolving part, also fine die castings wherein absolute accuracy and uniformity are required.

Veeder Counters are made for every machine that should have one—all the models are shown in the Veeder counter booklet. Special circulars describe the other Veeder products: write for any or all of them.
